This has been reflected in the way media is studied with new theories, concepts and practices coming to the fore. Media Studies: The Basics is the ideal guide to this changing landscape and addresses core questions including: Who, or what, is the media? What are the key terms and concepts used in analysing media? Where have been the impacts of the globalization of media? How, and by whom, is media made in the 21st century? Featuring contemporary case studies from around the world, a glossary and suggestions for further reading, this is the ideal introduction to media studies today.

Terrorist Recruitment, Propaganda and Branding Anna Kruglova, 2022-08-05

This book analyses the marketing techniques that terrorist organisations employ to encourage people to adopt their ideology and become devoted supporters. The book's central thesis is that due to the development of digital technologies and social media, terrorist groups are employing innovative marketing techniques and advertising strategies to foster an emotional connection with their audiences, particularly those in younger demographics. By conducting thematic and narrative analyses of Islamic State of Iraq and Syria (ISIS) propagandist magazines, as well as looking at the group's online communities, the book demonstrates that terrorist groups behave as commercial brands by establishing an emotional connection with their potential recruits. Specifically, groups and their potential supporters follow the logic of emotional choice. The book emphasizes that while ISIS became the first group that discovered and benefited from the power of marketing, it did not have a supernatural power and thus it is possible to find a response to it, which is particularly important now. The book eventually poses a question about whether terrorism has become the product of marketing in the same way as any mainstream consumer product is, and asks

what can we do to battle the appeal of marketing-savvy terrorist groups. This book will be of interest to students of terrorism studies, radicalisation, and propaganda, communication , and security studies.

Media Centres Made Easy Adam Szuster, 2013 This 286 page book is a guide. A guide to build your very own media centre. Until now a Media Centre was only available to the geeky few who could build computers and trouble shoot software, or the very wealthy. Not any more Media Centres Made Easy guides you through the process of making your very own media centre: step by step. Complete with photos and screen shots for each step of the way - you will be able to impress the heck out of your friends by making your very own media centre. Adam discusses with intimate knowledge which components you need, which you don't and what brands you should be looking for. He then delves right into the build of your media centre and shows you how to configure the software. Finally Adam offers some great tips on which extra 'add-ons' you should look at to enhance your media centre experience. And all this for both major media centre software packages - Windows Media Centre and XBMC -----

----- This book will show you how to build your own media centre. It breaks down the seemingly complex task of building and configuring the media centre into four fundamental sections: 1. Working out what you need 2. Building the physical machine 3.

Installing and configuring the software 4. Adding extra functionality with the power of add-ons and plugins Now, you might be thinking: Anything I read in this book is already out of date - technology moves very quickly and computer components are upgraded almost monthly. And you'd be right. So instead of telling you what items and components to use, this book demystifies component specifications, explains what they mean, and shows you what to look for when buying computer hardware. It also provides suggestions on which brands to seek out to ensure that your media centre experience is the best it can be. The following sections provide step-by-step instructions on building your very own media centre. This includes the all-important software installation and configuration process. Each step comes with a screen grab so that you can see exactly what is happening - and then compare that with what you are seeing on your very own system, so you can be sure that you are getting it right. When you have finished reading the book, and have followed the instructions, you will have your very own working media centre that will be able to play all of your digital media. Perfect

Increasingly, communication professionals need to be accomplished content managers, capable of employing an arsenal of multi-media tactics across different platforms. This book presents new and innovative approaches to

media relations, brand journalism and content management, providing practitioners with the tools to creatively develop, share and deliver strategic media assets and ideas that cut through the cluttered digital environment. The authors also demonstrate that personal and traditional skills are as important as ever, including the ability to tell stories, create memorable media pitches, write and lay-out media materials, and develop credibility and trust in relationships. Media Strategies sets a new agenda for anyone seeking to build a career as a professional communicator. It includes examples from around the world, from corporate, political, government, not-for-profit and activist communication and public relations practice. 'The game has changed. Communications professionals should look to this as their guide when navigating a swiftly changing media landscape.' Ross Healy, Brand Social Media Specialist 'Media Strategies cuts through the hype to show how you can build your skills and excel as a communicator in both traditional media and the disruptive digital media platforms.' Elissa Trezia, Financial Technology PR Executive, Indonesia 'An excellent guide to the complex media landscape.' Catherine Archer, Academic Chair, Strategic Communication, Murdoch University

Absolute Beginner's Guide to Microsoft Windows XP Media Center Steve Kovsky, 2004 Although the Windows XP Media Center is designed as a consumer product, it is actually more complex than the conventional computer and home entertainment devices it replaces. That's why this book--written in the fun,

friendly Absolute Beginner's style--is required reading for buyers of these multitasking, media-centric machines. It is written in an easy-to-understand tone that won't confuse readers with lots of technical jargon.

Dealing with the Media Chris Rau, 2010-10 Drawing from over two decades of journalism and media experience, this practical guide offers easy-to-follow advice on how to deal with the media--both traditional and electronic. With tips from Australian leaders in the field, such as Phillip Adams and David Marr, this thorough manual addresses a variety of issues, including how to develop a relationship with journalists, how to deal with being the center of a news story, and how to join the online media revolution. Students, activists, community groups, and businesses will greatly benefit from this essential overview.

Prema Vahini Sri Sathya Sai Media Centre, 2022-11-15 Addressing a mammoth gathering at Gudur some years ago, Bhagavan Sri Sathya Sai Baba said, "You will not be wrong to call Me Premaswarupa (Embodiment of Love)." In fact, Baba showers love (prema), seeks love, and establishes love in the heart of the individual, the fabric of society, and the complex of nations. Humanity, which has lost its way and is shivering in terror, unable to control the evil that it has generated by its insane pranks, needs Baba's grace and love to allay its neurosis and bring it back to the light. Baba said twenty-two years ago that He would inaugurate His task of recreating and reforming man on the true basis of dharma when He had completed thirty-two years of stay here upon

the Earth. In 1958, when He reached that moment, He blessed the venture of a monthly magazine, and he named it Sanathana Sarathi, a name full of the fragrance of the Gita and the Lord's role as the charioteer of whoever selects Him as the guide. It is significant that the very first series of articles that Baba wrote for the Sanathana Sarathi was Prema Vaṇhini (Stream of Divine Love). These discourses are collected in this book as they were first presented, in English translation. Truth (sathya), dharma, peace (santhi), and love are the four pillars of the new world of the Sai era, and under Baba's guidance, humanity has to discover peace through love. For that task, this book will be of great help, for while reading it, you are in touch with the very source of love; while translating its message into action, you are visibly led on by the grace of the Lord Himself; while enjoying the thrill of spiritual practice (sadhana) prescribed here, you are responding to the majesty of the very Ocean of Mercy. N. Kasturi Editor, Sanathana Sarathi

Gender Setting Margaret Gallagher, 2001-06 What is the scope for independent citizen action in media and cultural policy formation? How can audiences effectively voice critiques of media content? In a market-centred and consumer-oriented media world, what is the potential for monitoring, lobbying and advocacy? This book argues that there is a role for local action to defend and promote diversity in the content, images, symbols and values that people use in making sense of their lives. It focuses on media portrayals of gender - whose critique has been fundamental to the modern international

women's movement. Now, research and activism have been brought together in the form of gender media monitoring - systematic data collection aimed at policy critique and practical change. The book brings together research findings and monitoring experiences from both North and South to demonstrate how women's groups have developed effective media monitoring models.

Upanishad Vahini Sri Sathya Sai Media Centre, 2022-11-15 Bhagawan Sri Sathya Sai Baba has come among humanity and is providing spiritual sustenance and guidance, in order to re-establish truth, justice, peace, and love as the mainspring of individual, social, and national life. He is using ancient and modern instruments for this great task, Sanathana Dharma and science. His writings, discourses, and conversations, which correct, communicate, and convince, are full of statements and commentaries on the discoveries of physical and metaphysical sciences. This book, which gives in English His articles (first published in Telugu in the Sanathana Sarathi) on the Ten Upanishads (invaluable textbooks on spiritual discipline and on the glorious fruit of spiritual adventure) will reveal to you the vast limitless mercy that impels Him to save us from trivialities and prompts Him to guide us along, until we reach the Goal of Life. Making us tread the path discovered by the sages of the past, inducing us to revere their light and their message, illumining in us the flame of knowledge, which dispels delusion—that is what Bhagawan, with His Supreme Love, does for us in this book. Let us read it with care, recapitulate it with earnestness in the silence of our

hearts, and practise it with humility and faith in every turn of thought, in every tilt of tongue, and in every digit of deed.

Sutra Vahini - Treatise on Brahma Sutras Sri Sathya Sai Media Centre, 2022-11-15 An aphorism (sutra) expresses the genus of its meaning in a few terse words. The Brahma Sutras systematically explain the basic principles of Vedanta, the science of Supreme Reality. When contemplated, they reveal the innermost metaphysical secrets. Today, harmony is the need of the hour. The ephemeral world needs spiritual awareness, and this is what the Vedantins visualise. Vedic scriptures offer comforting counsel. They throw a kindly light. Man has distorted vision: he dotes on apparently real and also non-real phenomena. True vision makes him cognize the universal Being in nature's creations. Realization of this awareness is liberation (moksha). The be-all and end-all of life of the human being is the realization of constant integrated awareness –of Brahman visualized both as the primary, absolute, supreme, unlimited entity and as its subsidiary cosmic creative aspect and mergence in Brahman. In this Stream of Aphorisms (Sutra Vahini) on Brahman, Bhagavan Sri Sathya Sai Baba has lighted the universal lamp of the wisdom of Atma/Brahman (Divine Self). This stream of aphorisms first appeared in serialized form in Sanathana Sarathi. Bhagavan, in His infinite love, elaborated on the “Essence of Brahma Sutras in twelve selected aphorisms”. Bhagavan's sublime and profound words and spiritual wisdom are indeed highly elevating and illuminating. Bathing in this pellucid Stream of Aphorisms, a

person develops correct or true vision of Reality, bestowing supreme delight. In the words of Bhagavan Baba, "Acquisition of the higher knowledge alone can fulfill the main purpose of human life. Such knowledge makes one aware that one is not the inert insentient body, etc., but that one is consciousness itself manifesting as the embodiment of being-awareness-bliss (satchidananda). When this truth dawns and is experienced, one becomes a person liberated while alive." This is the state of realization of the innate nature of a people –the divinity of humanity.

Frontex and the Rising of a New Border Control Culture in Europe Antonia-Maria Sarantaki, 2023-03-02 This book examines the rapidly expanding EU agency's distinct role in EU border control, showing that Frontex is a prominent border control actor that reshapes the EU borders by promoting a new border control culture. Bringing culture into the analysis of Frontex, this book offers an alternative in-depth understanding of the agency's function, focusing on the production and diffusion of border control assumptions and practices within a border control community. Based on data drawn from primary research at Frontex and two EU external borders, namely Lampedusa and Evros, this book examines Frontex's contribution to the emergence of a new border control culture in Europe, replacing the pre-existing Schengen culture. Compared with the existing literature on Frontex, this novel account takes into consideration the evolving nature of borders and border control, discussing three contemporary challenges for the

established border control regime: Brexit, the COVID-19 pandemic, and hard security preoccupations, such as the fall-out from the Russian invasion in Ukraine and the weaponisation of migration at the Greek-Turkish land border. Frontex and the Rising of a New Border Control Culture in Europe will appeal to scholars and students of border management, EU studies, migration, geography, international relations, and security, along with policymakers and practitioners with an interest in EU border control and Frontex.

Achieving Viability for Public Service Media in Challenging Settings James Deane, Pierre François Docquir, Winston Mano, Tarik Sabry, Naomi Sakr, 2020-03-04

In the face of challenges posed by a shifting digital media landscape, an array of international bodies continue to endorse public service media (PSM) as an essential component of democratisation. Yet how can PSM achieve viability in settings where models of media independence and credibility are unfamiliar or rejected by political leaders? The answer lies in a holistic approach that is neither media-centric nor defeatist about PSM's place in a landscape marked by younger generations' widespread preference for social media platforms. There are more ways of working towards PSM than are often recognized. Wide-ranging research from media NGOs and academics demonstrates the potential of diverse, incremental approaches to embedding the values and mechanisms of PSM. These are as likely to involve regulatory and licensing institutions, unions of media practitioners, audiences, advocacy groups or social media platforms as content producers themselves. This Policy Brief

considers the issues, research and policy options around achieving viability for PSM. It concludes with six recommendations that are relevant to policymakers, practitioners and media studies specialists.
