Quick Medical Terminology Genevieve Love Smith, Phyllis E. Davis, Shirley Soltesz Steiner, 1984 Abstract: A study guide for medical field workers provides a systematic approach for building a vocabulary and developing an understanding of thousands of medical terms. This approach is based on and active participation by the reader in identifying word parts, building new words, and pronouncing and practicing them. Following a description of the system, 10 study units teach the reader to form a constantly expanding medical vocabulary by using new word parts. Each study unit is divided into numbered frames; each frame provides information and asks a question, the answer to which is given at the end of each study unit. Review sheets for each unit, 2 final self-tests, an index of word parts learned, and a table of additional word parts are appended. (wz).

Refusing to give up, she sought help online and from doctors across the country. This book is a result of her struggles and contains what she has learned while trying to get the medical care she needs. Christina has written this book to help you: - Get the most out of your doctor's visits - Manage your medications - Organize

your medical records and insurance papers - Correspond with your insurance company or companies in the event of a problem or denial - Find useful health information online for either a known or unknown diagnosis - Learn travel tips for out-of-town doctor visits - Make the best of your hospital stays - Be proactive about your medical care The book provides tables and forms to help you summarize your health problems; develop questions for effective doctor's appointments; keep track of your symptoms, labs, and medications; and record your medical provider and insurance company's contact information. If you see a doctor regularly or are trying to find the right doctor, this book will help you get more out of your medical care than you ever dreamed possible. Christina Caskey lives in Flagstaff, Arizona, with her husband, Robert. She is the mother of four grown children. To this end, all proceeds from the sale of this book will be used for research and treatment in the field of Infection Associated Chronic Fatigue Syndrome.
