Internet Wealth Secrets Anthony Ekanem, 2016-06-30 The very first question you may ask is why the Internet? Well, let me explain to you why this is the most profitable and hassle-free business in this date and age. First, let me show you several facts and figures to elaborate on the great earning potential of Internet business. Let's look at the advantages of Internet business. Potential Growth in Volume. The Internet has been growing so rapidly that it becomes a primary tool for people to look for information! Simple as it might appear! Some categories of information, such as overweight, male impotence, debt, getting rich, MLM etc., are considered to be so sensitive that people would not discuss with their folks offline. They'd rather go online and search because they know the virtual world will protect their identity and save them from shame. In other words, the Internet is the place for people to look for solutions to their problems. If you know how to target certain groups of people who are willing to spend on those solutions, you've made it! Potential Growth in Value. I want to emphasize that more and more people are spending their money on the Internet. Nielsen reveals that 875 million consumers shop online in 2008 and the trend is increasing rapidly. Now, with the popularity of Internet-connected mobile devices, people can spend money with just a click of a button. According to a study by the University of Oxford, there are more mobile subscribers than toothbrushes. So you can imagine how huge the market is and why you should tap onto this business as soon as possible, before another millions of people come in and make it more difficult to monetize.

Flexibility. The Internet business gives you the flexibility in working. You can choose to work anytime of the day, any day of the year, anywhere you prefer, as long as you have a computer and Internet connection. Your online store is your own 24-hour salesman that continuously works for you even when you sleep.
