Model Michael Gross, 2011-10-18 Investigative journalist Michael Gross delves into the history of models and takes us into the private studios and hidden villas where models play and are preyed upon, going beyond modeling’s carefully constructed facade of glamour to expose the scandal and untold truths that permeate the seemingly glamorous business. Here for the first time is the complete story of the international model business—and its evil twin: legalized flesh peddling. It’s a tale of vast sums of money, rape both symbolic and of the flesh, sex and drugs, obsession and tragic death. At its heart is the most unholy combination in commerce: beautiful, young women and rich, lascivious men. Fashion insider Michael Gross has interviewed modeling’s pioneers, survivors, and hangers-on, and he tells the story of the greats: Lisa Fonssagrives; Anita Colby, Candy Jones; Dorian Leigh and her sister Suzy Parker; Jean Shrimpton and Twiggy; Veruschka and Lauren Hutton; and today’s supermodel trinity, Christy, Naomi and Linda.

Models Mark Manson, 2017-09-11 You can become irresistibly attractive to women without changing who you are. So says Mark Manson, superstar blogger and author of the international bestseller, *The Subtle Art of Not Giving A F*ck*, a self help book that packs a punch. Mark brings the same approach to teaching men what they need to know about attracting women. In *Models* he shows us how much it sucks trying to attract women using the tricks and tactics recommended by other books. Instead, he says, men need to focus on seduction as an emotional process not a physical or social one. What matters is the intention, the motivation, the authenticity. To improve your dating life you must improve your emotional life – how you feel about yourself and how you express yourself to others. Funny, irreverent and confronting, *Models* is a mature and honest guide on how a man can attract women by giving up the bullsh*t and becoming an honest broker. A detailed guide to modern sexual ethics Sydney Morning Herald There’s nothing subtle about Mark Manson. He’s crude and vulgar and doesn’t give a f*ck . . . He’s as painfully honest as he is outrageously funny Huffington Post

This Year’s Model Elizabeth Wissinger, 2015-09-18 Over the last four decades, the fashion modeling industry has become a lightning rod for debates about Western beauty ideals, the sexual objectification of women, and consumer desire. Yet, fashion models still captivate, embodying all that is cool, glam, hip, and desirable. They are a fixture in tabloids, magazines, fashion blogs, and television. Why exactly are models so appealing? And how do these women succeed in so soundly holding our attention? In *This Year’s Model*, Elizabeth Wissinger weaves together in-depth interviews and research at model castings, photo shoots, and runway shows to offer a glimpse into the life of the model throughout the 20th and 21st centuries. Once an ad hoc occupation, the “model life” now involves a great deal of physical and virtual management of the body, or what Wissinger terms “glamour labor.” Wissinger argues that glamour labor—the specialized modeling work of self-styling, crafting a ‘look,’ and building an image—has been amplified by the rise of digital media, as new technologies make tinkering with the body’s form and image easy. Models can now present self-fashioning, self-surveillance, and self-branding as essential behaviors for anyone who is truly in the know and ‘in fashion.’ Countless regular people make it their mission to achieve this ideal, not realizing that technology is key to creating the unattainable standard of beauty the model upholds—and as Wissinger argues, this has been the case for decades, before Photoshop even existed. Both a vividly illustrated historical survey and an incisive critique of fashion media, *This Year’s Model* demonstrates the lasting cultural influence of this unique form of embodied labor.

The Paris Model Alexandra Joel, 2020-09-01 A lush debut novel in the vein of Kathleen Tessaro’s international bestseller, *Elegance*, about a beautiful woman working as a model for Christian Dior in postwar Paris, who discovers astonishing secrets about herself and the fabulous people around her. Raised on a vast Australian sheep farm, the beautiful Grace Woods is compelled to travel to tumultuous, postwar Paris in order to start a new life. While working as a glamorous model for Christian Dior, the world’s newly acclaimed emperor of fashion, Grace mixes with counts and princesses, authors and artists, diplomats and politicians. Amongst those she befriends are Pablo Picasso, Julia Child, and the future Jackie Kennedy. But when Grace falls in love with the handsome Phillippe Boyer, she doesn’t know that he is leading a double life, nor that his past might hold secrets and lies that will turn her life upside down. Based on a true story, *The Paris Model* by debut fiction author Alexandra Joel, is an unforgettable tale of glamour, family secrets, and heartbreak.

Model-making David Neat, 2013-12-21 Model-making: Materials and Methods focuses primarily on the wide variety of materials that can be employed to make models; those which have been favoured for a while and those which are relatively new. The book looks at how these materials behave and how to get the best out of them, then illustrates a range of relatively simple methods of building, shaping, modelling, surfacing and painting with them. Useful features of the book include: the different uses of models in various disciplines; the sequence of making; planning and construction, creating surfaces, painting and finishing; methods of casting, modelling and working with metals; step-by-step accounts of the making of specially selected examples; simple techniques without the need for expensive tools or workshop facilities; a 'Directory' of a full range of materials, together with an extensive list of suppliers. This book is intended for students of theatre production, art & architecture,

animation and theatre/television set designers where accurate scale models are necessary, and is also of interest to anyone involved with the process of making forms in 3D and the challenge of making small-scale forms in general. Superbly illustrated with 185 colour photographs.

Degas and His Model Alice Michel, 2017-08-22 There are many myths about the artist Edgar Degas—from Degas the misanthrope to Degas the deviant, to Degas the obsessive. But there is no single text that better stokes the fire than *Degas and His Model*, a short memoir published by Alice Michel, who purportedly modeled for Degas. Never before translated into English, the text's original publication in *Mercure de France* in 1919, shortly after the artist's death, has been treated as an important account of the master sculptor at work. We know that Alice was writing under a pseudonym, but who the real person behind this account was remains a mystery—to this day nothing is known about her. Yet, the descriptions seem too accurate to be ignored, the anecdotes too spot-on to discount; even the dialogue captures the artist's tone and mannerisms. What is found in these pages is at times a woman's flirtatious recollection of a bizarre "artistic type" and at others a moving attempt to connect with a great, often tragic man. The descriptions are limpid, unburdened; the dialogue is lively and intimate, not unlike reading the very best kind of gossip, with world-historical significance. Here in these dusty studios, Degas is alive, running hands over clay, complaining about his eyes, denigrating the other artists around him, and whispering salaciously to his model. And during his mood swings, we see reflected the model's innocence and confusion, her pain at being misunderstood and finally rejected. It is an intimate portrait of a moment in a great artist's life, a sort of Bildungsroman in which his model (whoever she may be) does not emerge unscathed.

The Architectural Model Matthew Mindrup, 2019-10-08 An investigation of different uses for the architectural model through history—as sign, souvenir, funerary object, didactic tool, medium for design, and architect's muse. For more than five hundred years, architects have employed three-dimensional models as tools to test, refine, and illustrate their ideas. But, as Matthew Mindrup shows, the uses of physical architectural models extend beyond mere representation. An architectural model can also simulate, instruct, inspire, and generate architectural designs. It can be, among other things, sign, souvenir, toy, funerary object, didactic tool, medium, or muse. In this book, Mindrup surveys the history of architectural models by investigating their uses, both theoretical and practical. Tracing the architectural model's development from antiquity to the present, Mindrup also offers an interpretive framework for understanding each of its applications in the context of time and place. He first examines models meant to portray extant, fantastic, or proposed structures, describing their use in ancient funerary or dedicatory practices, in which models are endowed with magical power; as a medium for architectural reverie and inspiration; and as prototypes for twentieth-century experimental designs. Mindrup then considers models that exemplify certain architectural uses, exploring the influence of Leon Battista Alberti's dictum that models be simple, lest they distract from the architect's ideas; analyzing the model as a generative tool; and investigating allegorical, analogical, and anagogical interpretations of models. Mindrup's histories show how the model can be a surrogate for the architectural structure itself, or for the experience of its formal, tactile, and sensory complexity; and beyond that, that the manipulation, play, experimentation, and dreaming enabled by models allow us to imagine architecture in new ways.

Models of Influence Nigel Barker, 2015-02-17 New York Times Bestseller Nigel Barker—fashion authority, photographer, and host of *Oxygen's The Face*—presents 50 of the most influential models from the 1940s to today through a wealth of full-color photographs from the world's most renowned fashion photographers and an anecdotal text that reveals each woman's indelible place in the pantheons of fashion and popular culture. Interweaving 200 gorgeous photographs and informative and entertaining anecdotes, *Models of Influence* profiles 50 women who have made an unforgettable impression on fashion, the modeling industry, and our notions of beauty. Eight chronological chapters, each of which spotlight an era, feature the stories and images of women who made their mark. These include Lisa Fonssagrives-Penn, Dovima, and Dorian Leigh, who reigned during modeling's golden age in the 1950s; Twiggy, Veruschka, and Jean Shrimpton, who embodied the free spirit of the 1960s; and Lauren Hutton, Iman, and Janice Dickinson, models who revolutionized the notion of beauty in the 1970s. Barker profiles those who've become the million-dollar faces of their time, such as Christie Brinkley and Elle Macpherson; revisits the age of the supermodel, when Christy Turlington, Linda Evangelista, and Naomi Campbell rose to global stardom; and spotlights eternal chameleons Kate Moss, Stella Tennant, and Amber Valletta, among others. Also included are models who brought us into the twenty-first century, and those who are leading the way into the future, from Gisele Bündchen, Daria Werbowy, Liya Kebede, and Coco Rocha to Cara Delevingne, Karlie Kloss, Lara Stone, Joan Smalls, and Kate Upton. Nigel Barker showcases each model's incandescent style—that special something that sets her apart, whether it's her unique physicality, a daring approach to image-making, or a particular energy that reflects the zeitgeist. Here, too, are models who broke the mold in their respective eras and turned the standard notion of beauty on its head. Stunning in its breadth and beauty, comprising some of the finest fashion images over the last 70 years, *Models of Influence* is a celebration of fashion and a group of unforgettable women who have helped shape and change modern culture.

Art Models 7 Maureen Johnson, Douglas Johnson, 2012 Artists in search of figures in intense action--flying through the air, punching, kicking, and crouching--will find more than 100 poses of male and female models in 28 categories of dynamic movement in this DVD-ROM that is the latest addition to the *Art Models* series. With over 2,000 high-resolution images on the disc, artists have the ability to study these motions at length, opening up a world of high-intensity movement that can be incorporated into their artwork without taking up space on their computer hard drives or working with the cost and time constraints of hiring models. The ability for multiple-angle viewing and drawing at the artist's pace becomes as easy as putting in the disc--which is both Mac and PC compatible and doesn't require any special programs--and opening any photo. Poses have been carefully chosen to

illustrate important effects, such as foreshortening and perspective changes. For artists who work in fine detail, close-ups and dramatic perspectives have been added for many positions and can be found in resolutions up to 20 megapixels. A section of photos depicting frozen actions, including jumping, falling, or swinging a sword, offers artists a series of expertly photographed views that would be very challenging to achieve with a studio model. Art Models 7 also presents a number of the series' trademark stationary poses photographed in 24-point rotation and shot in the round.
