Never Modern Irénée Scalbert, 6a Architects, 2013 In this exceptional book on the London based studio 6a architects, architecture critic Irene Scalbert looks at the role of narrative, history, appropriation and craft in the work of Tom Emerson and Stephanie Macdonald. The book traces an architectural approach avoiding style, signature, theory and even concept in favour of *metis*, an ancient form of intelligence combining 'flair, wisdom, forethought, subtlety of mind, deception, resourcefulness, vigilance, opportunism, varied skills, and experience.' Structured around notions of situation, intervention, making, comedy, bricolage, chance and anthropology, the text is mirrored in a visual essay of archive photographs, artworks, film stills and recent projects by the practice.

Iran Modern Fereshteh Daftari, Layla S. Diba, 2013 'Iran Modern' offers a timely exploration of the cultural diversity and production of avant-garde art in Iran after World War II and up to the revolution, from 1950 through to 1979.

Quilt As-You-Go Made Modern Jera Brandvig, 2014-10-01 Learn to create modern quilts more quickly and easily than ever with this popular method, featuring thirteen projects and twenty-five bonus ideas. Do you believe rules were meant to be broken? If so, this improvisational quilt-as-you-go technique is for you. Instead of dealing with precise paper patterns and cutting measurements, you'll learn how to piece fabric onto small, manageable batting blocks. Let your creative juices flow as you quilt directly on the blocks (not the whole quilt!), whether in large abstract zigzags or small structured stitches. After the blocks have been joined, all you need to do is add backing fabric and binding, and—voilà—it's finished! A modern approach to quilting that's fresh, fun, and simpler than it sounds; it will change the way you quilt (for the better) Great for moms or anyone with a busy schedule—these thirteen projects are easy to transport because they make it simple to pick up where you left off Go your

own way: This method allows you to use a pattern or improvise, creating a wide variety of design options Save money! Learn how to finish your own quilts without the use of a longarm professional “Quilting is easier than ever with Jera Brandvig’s modern spin on the popular quilt-as-you-go technique.” —Modern Quilts

Unlimited “Quilt-as-you-go (QAYG) is one of those techniques that every quilter is curious about trying, but can be daunting as the process is so different to the traditional process of making a quilt top and then quilting it. . . . The book introduces the technique very thoroughly, so you can clearly understand the difference between traditional piecing and quilting and QAYG. Then there’s a great selection of gorgeous quilts that are sure to appeal to the modern quilter. A must if you’ve ever thought about trying QAYG and haven’t had a clue where to start.” —Make Modern Magazine

L.A. Modern, 2008-10-21 The birthplace of American modernism, Los Angeles is the epicenter for a new way of living for the last one hundred years, as manifested in its cutting-edge architecture and design. With roots in the innovative houses by Frank Lloyd Wright, Greene & Greene, and Rudolph Schindler in the early twentieth century, this constantly evolving city became a crucible of modern living. Inspired by the International Style, architects and designers in Los Angeles developed their own individual styles with a rare sensitivity to site, landscape, and human scale. This brand of modernism, blurring the boundaries of indoors and outdoors, has since been imitated from Seattle to Sydney. Acclaimed architecture and design photographer Tim Street-Porter captures the best Modernist architecture of Los Angeles, from the seminal Neutra houses to the idiosyncratic structures by Frank Gehry. With iconic buildings by Craig Ellwood, Pierre Koenig, John Lautner, Charles and Ray Eames, and Oscar Niemeyer, among others, *L.A. Modern* presents the full spectrum of Los Angeles modernism in gorgeous new color photography.

American Modern Thomas Obrien, 2018-06-05 “One of those

designers whose interior and furniture designs look discovered, not created . . . both comfortable and exquisite, calm and eclectic.” —Apartment Therapy Designer and merchant, collector and tastemaker, Thomas O’Brien has made a career of translating cool notions of modernism into an easy and generous array of modern styles that anyone can attain. Now he introduces readers to a range of those styles—from casual to formal, vintage to urban—alongside stunning photography and charming design stories. O’Brien carefully describes the design process of his chosen projects, including a downtown New York City loft, a traditional Connecticut estate, and a converted schoolhouse in eastern Long Island. Each home explores a view on the modern design spectrum he has created, as well as the individual choices that make the design unique and its mix essentially American. He explains not only what was at work to create a given style, but how readers can import those practices to their own homes and personal design sensibilities. Important design principles such as architectural authenticity, color relationships, correctness of scale, and informed collecting are threaded through a practical narrative that reads like a master class in interior design. American Modern is an inspiring design volume that will redefine the way readers think about modern interiors. “O’Brien carefully describes the design process of his chosen projects. Beautiful imagery and a unique layout describe his approach to design in a new and innovative way.” —LIFEMSTYLE “It’s like getting a glimpse into the studio paintings of a great master . . . I especially love how all of his spaces feel so gender neutral, the perfect balance.” —Cottage Farm

Medieval Modern Alexander Nagel, 2012-11-06 Rich collisions and fresh perspectives illuminate the profound continuities of thought and practice that have marked Western art through the ages This groundbreaking study offers a radical new reading of art since the Middle Ages. Moving across the familiar period lines set out in conventional histories, Alexander

Nagel explores the deep connections between modern and premodern art to reveal the underlying patterns and ideas traversing centuries of artistic practice. In a series of episodic chapters, he reconsiders from an innovative double perspective a number of key issues in the history of art, from iconoclasm and idolatry to installation and the museum as institution. He shows how the central tenets of modernism – serial production, site-specificity, collage, the readymade, and the questioning of the nature of art and authorship – were all features of earlier times before modernity, revived by recent generations. Nagel examines, among other things, the importance of medieval cathedrals to the 1920s Bauhaus movement, the parallels between Renaissance altarpieces and modern preoccupations with surface and structure; the relevance of Byzantine models to Minimalist artists; the affinities between ancient holy sites and early earthworks; and the similarities between the sacred relic and the modern readymade. Alongside the work of leading 20th-century medievalist writers such as Walter Benjamin, Marshall McLuhan, Leo Steinberg, and Duchamp, Kurt Schwitters, Robert Rauschenberg, and Damien Hirst. The effect of these encounters goes in two directions at once: each age offers new insights into the other, deepening our understanding of both past and present, and providing a new set of reference points that reframe the history of art itself.

Georgia O'Keeffe Wanda M. Corn, 2017-03-03 Winner of the 2018 Dedalus Foundation Exhibition Catalogue Award This book explores how Georgia O'Keeffe lived her life steeped in modernism, bringing the same style she developed in her art to her dress, her homes, and her lifestyle. Richly illustrated with images of her art and views of the two homes she designed and furnished in New Mexico, the book also includes never before published photographs of O'Keeffe's clothes. The author has attributed some of the most exquisite of these garments to O'Keeffe, a skilled seamstress who understood fabric and design,

and who has become an icon in today's fashion world as much for her personal style as for her art. As one of her friends stated, O'Keeffe never allowed her life to be one thing and her painting another. This fresh and carefully researched study brings O'Keeffe's style to life, illuminating how this beloved American artist purposefully proclaimed her modernity in the way she dressed and posed for photographers, from Alfred Stieglitz to Bruce Weber. This beautiful book accompanies the first museum exhibition to bring together photographs, clothes, and art to explore O'Keeffe's unified modernist aesthetic. This book accompanies the show at the Peabody-Essex Museum, Georgia O'Keeffe: Art, Image, Style.

The Making of the Modern Body Catherine Gallagher, Thomas Laqueur, 1987-02-06 Scholars have only recently discovered that the human body itself has a history. Not only has it been perceived, interpreted, and represented differently in different epochs, but it has also been lived differently, brought into being within widely dissimilar material cultures, subjected to various technologies and means of control, and incorporated into different rhythms of production and consumption, pleasure and pain. The eight articles in this volume support, supplement, and explore the significance of these insights. They belong to a new historical endeavor that derives partly from the crossing of historical with anthropological investigations, partly from social historians' deepening interest in culture, partly from the thematization of the body in modern philosophy (especially phenomenology), and partly from the emphasis on gender, sexuality, and women's history that large numbers of feminist scholars have brought to all disciplines.

Modern Yiddish Verse Irving Howe, Ruth R. Wisse, Chone Shmeruk, 1987 A gift dedicated to Leonard Bernstein on his 70th birthday (1988). It was signed by the artist, Yossi Stern, and by Teddy Kollek. In addition to the numerous line drawings illustrating the poetry, Stern crafted an original book cover with a

colorful drawing of a wedding scene.

Gunawardane, 2020-06-05 This book aims to comprehensively address several modern concepts and practices in health care marketing not sufficiently addressed by existing literature. Modern Health Care Marketing is an essential read to understand the integrated nature of health care marketing in the technologically driven, customer/patient-focused and globalized environment. It is also a useful reference for professionals to pick up best practices on addressing challenges faced in the modern health care industry.

Modern Architecture and Climate Daniel A.

Barber, 2020-07-07 How climate influenced the design strategies of modernist architects Modern Architecture and Climate explores how leading architects of the twentieth century incorporated climate-mediating strategies into their designs, and shows how regional approaches to climate adaptability were essential to the development of modern architecture. Focusing on the period surrounding World War II—before fossil-fuel powered air-conditioning became widely available—Daniel Barber brings to

light a vibrant and dynamic architectural discussion involving design, materials, and shading systems as means of interior climate control. He looks at projects by well-known architects such as Richard Neutra, Le Corbusier, Lúcio Costa, Mies van der Rohe, and Skidmore, Owings, and Merrill, and the work of climate-focused architects such as MMM Roberto, Olgyay and Olgyay, and Cliff May. Drawing on the editorial projects of James Marston Fitch, Elizabeth Gordon, and others, he demonstrates how images and diagrams produced by architects helped conceptualize climate knowledge, alongside the work of meteorologists, physicists, engineers, and social scientists. Barber describes how this novel type of environmental media catalyzed new ways of thinking about climate and architectural design. Extensively illustrated with archival material, *Modern Architecture and Climate* provides global perspectives on modern architecture and its evolving relationship with a changing climate, showcasing designs from Latin America, Europe, the United States, the Middle East, and Africa. This timely and important book reconciles the cultural dynamism of architecture with the material realities of ever-increasing carbon emissions from the mechanical cooling systems of buildings, and offers a historical foundation for today's zero-carbon design.

Vintage Modern Sandu Publishing, 2017 Drawing inspiration from the past is fertile ground for designers, who often update classic iconography to create modern designs that evoke the charm of previous decades while staying true to a client's needs. These creatives blend the look and feel of vintage logos with retro clip art and period colors to respond to market trends and communicate a brand's mission. With reverence and skill, the designers included in this volume have produced some of the most sophisticated designs to marry past and present seamlessly. From logos for clothing and bicycle companies, to restaurant or cafe branding and interiors, and packaging for food, wine, personal care and more.

Drawing from the Modern: 1880-1945 Jodi

Hauptman, Museum of Modern Art (New York, N.Y.), 2004 While art history has made room for the flurry of movements that emerged in the period following World War II, the myriad artistic developments of the last thirty years have yet to be assigned firm historical categories. Drawing from the Modern, 1975–2005, the final installment in a series of inaugural-year exhibitions produced by the Department of Drawings, attempts to tell a provisional story of the years from 1975 to the present, as reflected through MoMA's singular drawings collection. While making no claims to comprehensiveness, the installation details both the blossoming of different art positions on a broad, international scale in this era, and the coming of age of drawing as an independent—and for many artists, primary—mode of expression. Organized chronologically and in loose clusters of artists working in the same milieu or vein of interest, the exhibition features works by more than fifty artists, including Bruce Nauman, Gerhard Richter, Martin Kippenberger, Marlene Dumas, Gabriel Orozco, Kara Walker, and Luc Tuymans.

Modern Liberty and Its Discontents Pierre

Manent, 2000-01-01 In this book, distinguished French philosopher Pierre Manent addresses a wide range of subjects, including the Machiavellian origins of modernity, Tocqueville's analysis of democracy, the political role of Christianity, the nature of totalitarianism, and the future of the nation-state. As a whole, the book constitutes a meditation on the nature of modern freedom and the permanent discontents which accompany it. Manent is particularly concerned with the effects of modern democracy on the maintenance and sustenance of substantial human ties. Modern Liberty and its Discontents is both an important contribution to an understanding of modern society, and a significant contribution to political philosophy in its own right.

Writing Combat and the Self in Early Modern English

Literature Jennifer Feather, 2011-12-22 By examining these competing depictions of combat that coexist in sixteenth-century texts ranging from Arthurian romance to early modern medical texts, this study reveals both the importance of combat in understanding the humanist subject and the contours of the previously neglected pre-modern subject.

Early Modern Exchanges Helen Hackett, 2016-03-09

Marcus Gheeraerts's portrait of a 'Persian lady' - probably in fact an English lady in masquing costume - exemplifies the hybridity of early modern English culture. Her surrounding landscape and the embroidery on her gown are typically English; but her head-dress and slippers are decidedly exotic, the inscriptions beside her are Latin, and her creator was an 'incomer' artist. She is emblematic of the early modern culture of exchange, both between England and its neighbours, and between Europe and the wider world. This volume presents fresh research into such early modern exchanges, exploring how new identities, subjectivities and artefacts were forged in dialogues and encounters between diverse cultures, nations and language communities. The early modern period was a time of creative interactions between cultures and disciplines, and accordingly this is a multidisciplinary volume, drawing together international experts in literature, history, modern and ancient languages and art history. It understands cultural exchange as encompassing both the geographical mobilities of travel and trade and the transmission of ideas across borders and between languages, as enabled by the new technology of print. Sites of exchange were located not only in distant and unfamiliar lands, but also in the bookseller's shop and the scholar's study. The volume also explores the productive and complex dialogues between early modern culture and the classical past. The types of exchanges discussed include the linguistic transactions of translation and imitation; interactions between cultural elites, such as monarchs,

courtiers and diplomats; and the catalytic influences of particularly mobile or outward-looking individuals and groups. Ranging from the neo-Latin poetry of an English author to the plays of a nun in seventeenth-century New Spain, from royal portraits exchanged in diplomatic negotiations to travelling companions in the Ottoman Empire, the volume sheds new light

Conservation of Modern Architecture Susan

Macdonald, Kyle C. Normandin, Bob Kindred, 2015-12-08 The importance of protecting significant buildings from decay and destruction would seem to be undeniable. Yet whilst the majority of buildings of merit constructed before the Second World War have been highlighted as worthy of protection there is much indifference, and in some cases hostility towards many important post-war buildings. These deserve to receive wider formal recognition but in many cases continue to be mistreated or even demolished. This book examines many of the philosophical and practical issues surrounding the conservation of modern buildings and also the problems faced by building practitioners in dealing with buildings constructed in a wider range of styles and materials than at any other time. Climate change in particular has forced change in the way in which we think about buildings, with the pressures to address issues of energy efficiency becoming more urgent and likely to have consequences that may alter the perceived architectural and historic interest of modern and traditional buildings alike.
