The Falling in Love Montage Ciara Smyth,2020-06-09 Two girls embark on a summer of montage-worthy dates (with a few strings attached) in this hilarious and heartfelt lesbian rom-com that's perfect for fans of Becky Albertalli and Jenny Han. Seventeen-year-old cynic Saoirse Clarke isn't looking for a relationship. But when she meets mischievous Ruby, that rule goes right out the window. Sort of. Because Ruby has a loophole in mind: a summer of all the best cliché movie montage dates, with a definite ending come fall—no broken hearts, no messy breakup. It would be the perfect plan, if they weren't forgetting one thing about the Falling in Love Montage: when it's over, the characters have fallen in love...for real. Ciara Smyth's debut is a delightful, multilayered YA rom-com that will make you laugh, cry, and absolutely fall in love.

Transcultural Montage Christian Suhr,Rane Willerslev,2013-10-01 The disruptive power of montage has often been regarded as a threat to scholarly representations of the social world. This volume asserts the opposite: that the destabilization of commonsense perception is the very precondition for transcending social and cultural categories. The contributors—anthropologists, filmmakers, photographers, and curators—explore the use of montage as a heuristic tool for comparative analysis in anthropological writing, film, and exhibition making. Exploring phenomena such as human perception, memory, visibility, ritual, time, and globalization, they apply montage to restructure our basic understanding of social reality. Furthermore, as George E. Marcus suggests in the afterword, the power of montage that this volume exposes lies in its ability to open the very “combustion chamber” of social theory by juxtaposing one's claims to knowledge with the path undertaken to arrive at those claims.

Before Publication Nanni Baltzer,Martino Stierli,2016 At the moment of going to press, a publication irreversibly reaches its final form. Simultaneously, it also reaches an audience. Naturally, this audience very often is oblivious to the many, and sometimes complex, steps towards the construction and montage of (visual) meaning that precedes the actual publication of a book. The contributors to 'Before Publication' consider such construction of meaning as montage and look at materials and processes involved before publication. Their focus is on concrete artistic and visual artifacts such as scrapbooks, book mock-ups, and press layouts by artists, authors, and graphic designers. In particular, they shed light on the relationship between the spheres of privacy and publicity. The new book features a programmatic introduction by the editors Nanni Baltzer and Martino Stierli and eight concisely illustrated topical essays.

Montages Cristina Baldacci,Marco Bertozzi,2018-09-18T00:00:00+02:00 Montage, today, is a widespread procedure that doesn't concern just artistic production, but also our daily lives and the use everyone makes of that huge visual archive that contemporary media place at our disposal. In a technologically advanced society, where the notion of postproduction regulates our relationship with images and objects, it is therefore necessary to thoroughly investigate the role, possibilities, and, most of all, anthropological and political connotations of montage; and to ask ourselves whether – in comparison to the heroic years of the avant-garde movements – montage has become a faded and standardized practice or if it is a more and more effective means to understand and reprogramme the world, especially in relation to the technical possibilities offered by new media and remix practices.

Kurt Cobain Brett Morgen,Richard Bienstock,2015-05-05 The companion book to the HBO film about the Nirvana singer and songwriter, “the most intimate rock doc ever” (Rolling Stone). Kurt Cobain, legendary lead singer, guitarist, and songwriter of Nirvana, “the flagship band of Generation X,” remains an object of reverence and fascination for music fans. For the first time, his story was told in the fully authorized feature documentary, Kurt Cobain: Montage of Heck, in 2015. Brett Morgen—the Oscar®-nominated filmmaker behind such acclaimed documentaries as the HBO presentation Crossfire Hurricane, which celebrated the fiftieth anniversary of the Rolling Stones, and The Kid Stays in the Picture—was writer, director, and producer of film. Visual artist Frances Bean Cobain, Cobain's daughter, was executive producer. This riveting book accompanied Morgen's documentary and delved further into the material created for the film, presenting an illuminating and honest portrait of the Nirvana frontman that captured the contradictions that made up his character. The book is composed of the extended versions of the exclusive interviews featured in the film. It also showcases the film's incredible visuals with a mixture of animation stills, rare photography, and other treasures from Kurt Cobain's personal archive. Director Brett Morgen offers his personal thoughts on the creation of the film and the need to shatter the mythos that surrounds Cobain. Taking fans into and beyond Morgen's movie with unparalleled insight into the world of the late musician, this book is the perfect complement to a milestone documentary that forever changed the way fans view Kurt Cobain. “The film offers the bells and whistles but the book provides the real guts of the tale.” —Examiner

Editing and Montage in International Film and Video Luís Fernando Morales Morante,2017-07-06 Editing and Montage in International Film and Video presents a theoretical and practical approach to the art of editing. In this book, Luís Fernando Morales Morante explores the international history, technology, theory, practical techniques, psychology, and cognitive effects of editing across a range of media from around the world, featuring case studies from film, dramatic television, news media, music videos, commercials, and mobile-delivered formats, from the films of Sergei Eisenstein to Michael Jackson's Thriller to coverage of the 2012 U.S. presidential elections. The book includes self-study exercises throughout to help readers put theory into practice.

Beyond Spatial Montage Michael Betancourt,2016-02-19 Beyond Spatial Montage: Windowing, or the Cinematic Displacement of Time, Motion, and Space offers an extended discussion of the morphology and structure of compositing, graphic juxtapositions, and montage employed in motion pictures. Drawing from the history of avant-garde and commercial cinema, as well as studio-based research, here media artist and theorist Michael Betancourt critiques cinematic realism and spatial montage in motion pictures. This new taxonomic framework for conceptualizing linkages between media art and narrative cinema opens new areas of experimentation for today's film editors, motion designers, and other media artists.

The Montage Principle ,2016-08-29 This book of essays is quite unique in that it intervenes in a still contested area within many universities, that of the relevance of film to literature, critical theory, politics, sociology and anthropology. The essays were commissioned by Jean Antoine-Dunne whose research has explored the impact of Eisenstein's aesthetics on different areas of modernist literature and drama. The essays in this collection use Eisenstein as a point of departure into

divergent fields of analysis and are concerned with the principle of montage as a transforming idea. They gather within the pages of one work contributions from Geoffrey Nowell-Smith, Richard Taylor, Paul Willemen and emerging scholars entering and altering the field of interdisciplinary scholarship, film and literature. These hitherto unpublished essays not only extend and elaborate on previous treatments of Eisenstein and montage in areas such as semiotics, film theory, and feminist film practice, but also introduce his work to areas which have not yet been considered in relation to Eisenstein and montage, such as Beckett scholarship, Caribbean aesthetics, Third Cinema, and debates around digital imagery. No other collection of essays has explored the idea of montage as a structuring cultural and critical principle and the elasticity of Eisenstein's legacy in quite this way.

Mambo Montage Agustín Laó-Montes, Arlene Dávila, 2001-06-13 New York is the capital of mambo and a global factory of latinidad. This book covers the topic in all its multifaceted aspects, from Jim Crow baseball in the first half of the twentieth century to hip hop and ethno-racial politics, from Latinas and labor unions to advertising and Latino culture, from Cuban cuisine to the language of signs in New York City. Together the articles map out the main conceptions of Latino identity as well as the historical process of Latinization of New York. Mambo Montage is both a way of imagining latinidad and an angle of vision on the city.

The Chatter of the Visible Patrizia C. McBride, 2016-04-06 The Chatter of the Visible examines the paradoxical narrative features of the photomontage aesthetics of artists associated with Dada, Constructivism, and the New Objectivity. While montage strategies have commonly been associated with the purposeful interruption of and challenge to narrative consistency and continuity, McBride offers an historicized reappraisal of 1920s and 1930s German photomontage work to show that its peculiar mimicry was less a rejection of narrative and more an extension or permutation of it—a means for thinking in narrative textures exceeding constraints imposed by “flat” print media (especially the novel and other literary genres). McBride’s contribution to the conversation around Weimar-era montage is in her situation of the form of the work as a discursive practice in its own right, which affords humans a new way to negotiate temporality, as a particular mode of thinking that productively relates the particular to the universal, or as a culturally specific form of cognition.

John Barth and Postmodernism Berndt Clavier, 2007 John Barth's eminence as a postmodernist is indisputable. However, much of the criticism dealing with his work is prompted by his own theories of «exhaustion» and subsequent «replenishment, » leaving his writing relatively untouched by theories of postmodernism in general. This book changes that by focusing on the relationship between Barth's aesthetic and the ideology critique of the historical avant-gardes, which were the first to mobilize art against itself and its institutional practices and demands. Examining Barth's metafictional parodies in the light of theories of space and subjectivity, Clavier engages the question of ideology critique in postmodernism by offering the montage as a possible model for understanding Barth's fiction. In such a light, postmodernism may well be perceived as a mimesis of reality, particularly a recognition of the collective nature of self and the world.

Movement, Action, Image, Montage Luka Arsenjuk, 2018-02-20 A major new study of Sergei Eisenstein delivers fresh, in-depth analyses of the iconic filmmaker’s body of work What can we still learn from Sergei Eisenstein? Long valorized as the essential filmmaker of the Russian Revolution and celebrated for his indispensable contributions to cinematic technique, Eisenstein’s relevance to contemporary culture is far from exhausted. In Movement, Action, Image, Montage, Luka Arsenjuk considers the auteur as a filmmaker and a theorist, drawing on philosophers such as Georg Wilhelm Friedrich Hegel and Gilles Deleuze—as well as Eisenstein’s own untranslated texts—to reframe the way we think about the great director and his legacy. Focusing on Eisenstein’s unique treatment of the foundational concepts of cinema—movement, action, image, and montage—Arsenjuk invests each aspect of the auteur’s art with new significance for the twenty-first century. Eisenstein’s work and thought, he argues, belong as much to the future as the past, and both can offer novel contributions to long-standing cinematic questions and debates. Movement, Action, Image, Montage brings new elements of Eisenstein’s output into academic consideration, by means ranging from sustained and comprehensive theorization of Eisenstein’s practice as a graphic artist to purposeful engagement with his recently published, unfinished book Method, still unavailable in English translation. This tour de force offers new and significant insights on Eisenstein’s oeuvre—the films, the art, and the theory—and is a landmark work on an essential filmmaker.

Film: a Montage of Theories Richard Dyer MacCann, 1966

Towards a Theory of Montage Sergei Eisenstein, 2010-06-30 I.B.Tauris is delighted to announce the reissue in paperback in three volumes of the definitive, most comprehensive edition, in the finest translations and fully annotated, of the writings of this great filmmaker, theorist and teacher of film - and one of the most original aesthetic thinkers of the twentieth century. The name of Sergei Eisenstein (1898-1948) is synonymous with the idea of montage, as exemplified in his silent classics such as The Battleship Potemkin (1925) and October (1927). In the 1930s his style changed, partly to accommodate the arrival of sound, and his ideas on audio-visual counterpoint developed. Between 1937 and 1940 he elaborated his ideas on montage in a series of essays, most of which remained unpublished until after his death and which are published in English for the first time in this volume. They present the essence of Eisenstein's thinking on cinema and aesthetics more generally and reveal him as one of the most significant philosophers of art of the twentieth century.

Static Films and Moving Pictures Jennifer Valcke, 2011-10-26 Doctoral Thesis / Dissertation from the year 2008 in the subject Art - Photography and Film, grade: cum laude, University of Edinburgh, language: English, abstract: Photomontage has more to do with film than with any other art form - they have in common the technique of montage. (Sergei Tretyakov) By considering that photomontage and film use the technique of cutting and gluing as dominant artistic device, and that montage, a technique unifying art and technology for the first time, emerged as a dominant artistic feature of the avant-garde, this thesis will explore the ideological and perceptual implications of its advent in avant-garde art and film. The technological advances of the beginning of the twentieth century, and particularly the advent of photography, allowed avant-garde artists to break free from traditional concepts of artistic production – they dispensed with the old criteria of uniqueness, originality, handicraft and personal style. At a time when many avant-garde artists abruptly ceased to paint, photomontage emerged as the privileged locus for a caesura with traditional art forms. Photomontage envisioned film aesthetics insofar as it combines and juxtaposes images of various perspectival planes and angles (Raoul Hausmann described his early photomontages as “motionless moving pictures”). A corresponding observation can be made on the use of montage in cinema, a technique which crucially underpins the illusion of movement created through the succession of photographic stills. The present thesis will investigate photomontage

and film in order to examine the effect technological reproduction played in revolutionising artistic production, perception and ideology – where the technique and philosophy of montage was key.

Montage Sam Rohdie,2019-01-04 Montage enters into a dialogue with the cinema, probing and playing with its language of motion and stillness, continuity and discontinuity, constraint and openness, time and duration. Comprised of a series of elegantly-written and intellectually vibrant essays, Sam Rohdie’s book carefully expresses his ideas and arguments in a manner free from the complexities of contemporary theory and cultural criticism. As much a book written with the cinema as about it, Montage explores associative and comparative possibilities in the films of directors such as Takeshi Kitano, Jean Renoir, D.W. Griffith, Howard Hawks, Lev Kulsehov, Sergei Eisenstein and Alfred Hitchcock. It offers new and fascinating perspectives on mise en scène, framing, shots, and narrative variation. In combining the sensitive analysis of film forms and structures with an awareness of their historical and artistic relation to other art forms, it also elucidates an appreciation of montage aesthetics that is attentive to the influences of photography, painting and other arts. Montage is a book that will enrich our ways of seeing, understanding, and enjoying the cinema.

Sergei Eisenstein’s Montage Techniques and their Meanings in Comparison to Louis Buñuel’s "Un Chien Andalou" Sandra Kuberski,2014-12-15 Essay from the year 2011 in the subject Film Science, grade: 1,3, University of Essex (Film), course: Introduction to Film, language: English, abstract: In the 1930s the Soviet revolutionary cinema changed the former understanding of film editing, ahead of everyone Sergei Eisenstein (1898-1948), whose aim it was to promote the idea of political rebellion. Cinema was the easiest way to transport a political conviction to all people, from upper class to peasants, who were unable to read. Truth could be boring and so the events had to be dramatized to encourage imitation. This essay will examine the innovative montage techniques of Eisenstein and their meanings with emphasis on The Battleship Potemkin . In addition, a comparison to Louis Buñuel’s Un chien andalou , one of the most famous Surrealist films, will be drawn. The movement of Surrealism grew out of a Parisian society of artists, writers and filmmakers who tried to create an immediate translation of dreams, imagination and the unconscious. The recipient should be dissuaded from his habitual viewing or thinking patterns.

Bliss Montage Ling Ma,2022-09-13 A National Indie Bestseller Winner of the National Book Critics Circle Award, the Story Prize, and a Windham-Campbell Literature Prize A Best Book of the Year at The New York Times, The New Yorker, Vogue, Houston Chronicle, Roxane Gay’s The Audacity, Mashable, Polygon, Kirkus Reviews, and Library Journal A New York Times Book Review Editor’s Choice “Uncanny and haunting . . . In Bliss Montage, Ling Ma brings us eight wildly different tales of people making their way through the madness and reality of our collective delusions: love and loneliness, connection and possession, friendship, motherhood, the idea of home. A woman lives in a house with all her ex-boyfriends. A toxic friendship grows up around a drug that makes you invisible. An ancient ritual might heal you of anything—if you bury yourself alive. These and other scenarios investigate the ways that the outlandish and the ordinary are shockingly, deceptively, heartbreakingly alike.
