The Road Movie Book Steven Cohan, Ina Rae Hark, 2002-01-04 The Road Movie Book is the first comprehensive study of an enduring but ever-changing Hollywood genre, its place in American culture, and its legacy to world cinema. The road and the cinema both flourished in the twentieth century, as technological advances brought motion pictures to a mass audience and the mass produced automobile opened up the road to the ordinary American. When Jean Baudrillard equated modern

American culture with 'space, speed, cinema, technology' he could just as easily have added that the road movie is its supreme emblem. The contributors explore how the road movie has confronted and represented issues of nationhood, sexuality, gender, class and race. They map the generic terrain of the road movie, trace its evolution on American television as well as on the big screen from the 1930s through the 1980s, and, finally, consider road movies that go off the road, departing from the US landscape or travelling on the margins of contemporary American culture. Movies discussed include: * Road classics such as *It Happened One Night*, *The Grapes of Wrath*, *The Wizard of Oz* and the Bob Hope-Bing Crosby *Road to films* * 1960's reworkings of the road movie in *Easy Rider* and *Bonnie and Clyde* * Russ Meyer's road movies: from *Motorpsycho!* to *Faster Pussycat! Kill! Kill!* * Contemporary hits such as *Paris Texas*, *Rain Man*, *Natural Born Killers* and *Thelma and Louise* * The road movie, Australian style, from *Mad Max* to the *Adventures of Priscilla, Queen of the Desert*.

The Slasher Movie Book Justin A. Kerswell, 2012 Packed with reviews of the best (and worst) slasher movies and illustrated with a collection of distinctive and often graphic poster artwork from around the world, this book looks at the political, cultural, and social influences on the slasher movie and its effect.

I Hated, Hated, Hated This Movie Roger Ebert, 2000-04 I Hated, Hated, Hated This Movie is a collection of more than 200 of Ebert's most biting and entertaining reviews of films receiving a mere star or less from the only film critic to win the Pulitzer Prize. Ebert has no patience for these atrocious movies and minces no words in skewering the offenders. Witness: *Armageddon* * (1998) - The movie is an assault on the eyes, the ears, the brain, common sense, and the human desire to be entertained. No matter what they're charging to get in, it's worth more to get out. *The Beverly Hillbillies* * (1993) - Imagine the dumbest half-hour sitcom you've ever seen, spin it out to ninety-three minutes by making it even more thin and shallow, and you have this movie. It's

appalling. North no stars (1994) - I hated this movie. Hated hated hated hated hated this movie. Hated it. Hated every simpering stupid vacant audience-insulting moment of it. Hated the sensibility that thought anyone would like it. Hated the implied insult to the audience by its belief that anyone would be entertained by it. Police Academy no stars (1984) - It's so bad, maybe you should pool your money and draw straws and send one of the guys off to rent it so that in the future, whenever you think you're sitting through a bad comedy, he could shake his head, chuckle tolerantly, and explain that you don't know what bad is. Dear God * (1996) - Dear God is the kind of movie where you walk out repeating the title, but not with a smile. The movies reviewed within I Hated, Hated, Hated This Movie are motion pictures you'll want to distance yourself from, but Roger Ebert's creative and comical musings on those films make for a book no movie fan should miss.

The Movie Business Book Jason E Squire, 2016-08-05 Tapping experts in an industry experiencing major disruptions, *The Movie Business Book* is the authoritative, comprehensive sourcebook, covering online micro-budget movies to theatrical tentpoles. This book pulls back the veil of secrecy on producing, marketing, and distributing films, including business models, dealmaking, release windows, revenue streams, studio accounting, DIY online self-distribution and more. First-hand insider accounts serve as primary references involving negotiations, management decisions, workflow, intuition and instinct. *The Movie Business Book* is an essential guide for those launching or advancing careers in the global media marketplace.

It's Only a Movie Charlotte Chandler, 2008-12-09 *IT'S ONLY A MOVIE* is as close to an autobiography by Alfred Hitchcock that you could ever have. Drawn from years of interviews with her subject, his friends and the actors who worked with him on such classics as *THE BIRDS*, *PSYCHO* and *REAR VIEW WINDOW*, Charlotte Chandler has created a rich, complex, affectionate and honest picture of the

man and his milieu. This is Hitchcock in his own voice and through the eyes of those who knew him better than anyone could.

Hedy's Folly Richard Rhodes, 2012-08-07 Pulitzer Prize-winning author Richard Rhodes delivers a remarkable story of science history: how a ravishing film star and an avant-garde composer invented spread-spectrum radio, the technology that made wireless phones, GPS systems, and many other devices possible. Beginning at a Hollywood dinner table, *Hedy's Folly* tells a wild story of innovation that culminates in U.S. patent number 2,292,387 for a secret communication system. Along the way Rhodes weaves together Hollywood's golden era, the history of Vienna, 1920s Paris, weapons design, music, a tutorial on patent law and a brief treatise on transmission technology. Narrated with the rigor and charisma we've come to expect of Rhodes, it is a remarkable narrative adventure about spread-spectrum radio's genesis and unlikely amateur inventors collaborating to change the world.

Life: The Movie Neal Gabler, 2000-02-29 The story of how our bottomless appetite for novelty, gossip, and melodrama has turned everything—news, politics, religion, high culture—into one vast public entertainment. Neal Gabler calls them lifies, those blockbusters written in the medium of life that dominate the media and the national conversation for weeks, months, even years: the death of Princess Diana, the trial of O.J. Simpson, Kenneth Starr vs. William Jefferson Clinton. Real Life as Entertainment is hardly a new phenomenon, but the movies, and now the new information technologies, have so accelerated it that it is now the reigning popular art form. How this came to pass, and just what it means for our culture and our personal lives, is the subject of this witty, concerned, and sometimes eye-opening book. A thoughtful, in places chilling, account of the way entertainment values have hollowed out American life. --The New York Times Book Review

The Flintstones Jody Duncan, 1994

The Negro Motorist Green Book Victor H. Green, The idea of

The Green Book is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Plutopia Kate Brown, 2013-03-15 While many transnational histories of the nuclear arms race have been written, Kate Brown provides the first definitive account of the great plutonium disasters of the United States and the Soviet Union. In *Plutopia*, Brown draws on official records and dozens of interviews to tell the extraordinary stories of Richland, Washington and Ozersk, Russia--the first two cities in the world to produce plutonium. To contain secrets, American and Soviet leaders created plutopias--communities of nuclear families living in highly-subsidized, limited-access atomic cities. Fully employed and medically monitored, the residents of Richland and Ozersk enjoyed all the pleasures of consumer society, while nearby, migrants, prisoners, and soldiers were banned from plutopia--they lived in temporary staging grounds and often performed the most dangerous work at the plant. Brown shows that the plants' segregation of permanent and temporary workers and of nuclear and non-nuclear zones created a bubble of immunity, where dumps and accidents were glossed over and plant managers freely embezzled and polluted. In four decades, the Hanford plant near Richland and the Maiak plant near Ozersk each issued at least 200 million curies of radioactive isotopes into the surrounding environment--equaling four

Chernobyls--laying waste to hundreds of square miles and contaminating rivers, fields, forests, and food supplies. Because of the decades of secrecy, downwind and downriver neighbors of the plutonium plants had difficulty proving what they suspected, that the rash of illnesses, cancers, and birth defects in their communities were caused by the plants' radioactive emissions. Plutopia was successful because in its zoned-off isolation it appeared to deliver the promises of the American dream and Soviet communism; in reality, it concealed disasters that remain highly unstable and threatening today. An untold and profoundly important piece of Cold War history, Plutopia invites readers to consider the nuclear footprint left by the arms race and the enormous price of paying for it.

Off the Road Jack Hitt, 2005-03 Off the Road is a delightfully irreverent tour of the 500-mile pilgrimage route from France to Santiago de Compostela, Spain--sights people believe God once touched. Harper's contributing editor Jack Hitt writes of the many colorful pilgrims he met along the way, in this offbeat journey through landscape and belief.

Horror Movie a Day Brian Collins, 2016-03-31 For over six years, Brian Collins watched and reviewed a different horror movie every single day. Most of them stunk. With over 2500 reviews on the Horror Movie A Day website, finding the worthwhile ones can be a chore, so Collins has curated a selection of choice films - 365 of them in fact, one for every day of the year. Each month has a different theme and offers a variety of films within that theme for your viewing enjoyment. And they're not the ones you've seen already - most of the book's selections are obscure, indie, or foreign titles that a casual horror fan hasn't seen yet. Every movie is someone's favorite movie - perhaps this book will introduce you to yours.

The First Fifteen Lives of Harry August Claire North, 2014-04-08 Wildly original, funny and moving, The First Fifteen Lives of Harry August is an extraordinary story of a life lived again and again

from World Fantasy Award-winning author Claire North. Harry August is on his deathbed. Again. No matter what he does or the decisions he makes, when death comes, Harry always returns to where he began, a child with all the knowledge of a life he has already lived a dozen times before. Nothing ever changes. Until now. As Harry nears the end of his eleventh life, a little girl appears at his bedside. I nearly missed you, Doctor August, she says. I need to send a message. The Reincarnationist Papers D. Eric Maikranz, 2021-05-04 “For fans of The Matrix and Memento, a twisty, exciting adventure!”—Diana Gabaldon, #1 New York Times bestselling author of the Outlander series The basis for the major motion picture Infinite Discovered as three notebooks in an antique store in Rome at the turn of the millennium, The Reincarnationist Papers offers a tantalizing glimpse into the Cognomina, a secret society of people who possess total recall of their past lives. Evan Michaels struggles with being different, with having the complete memories of two other people who lived sequentially before him. He fights loneliness and believes he is unique until he meets Poppy. She recognizes his struggle because she is like him, except that she is

much older, remembering seven consecutive lives. But there is something else she must share with Evan—she is a member of the secretive Cognomina. They are, in effect, immortals—compiling experiences and skills over lifetimes into near superhuman abilities that they have used to drive history over centuries. Poppy invites Evan into the Cognomina, but he must face their tests before entering this mysterious society as their equal.
