Vitagraph Andrew A. Erish, 2021-06-09 In *Vitagraph*, Andrew A. Erish provides the first comprehensive examination and reassessment of the company most responsible for defining and popularizing the American movie. This history challenges long-accepted Hollywood mythology that simply isn't true: that Paramount and Fox invented the feature film, that Universal created the star system, and that these companies, along with MGM and Warner Bros., developed motion pictures into a multi-million-dollar business. In fact, the truth about Vitagraph is far more interesting than the myths that later moguls propagated about themselves. Established in 1897 by J. Stuart Blackton and Albert E. Smith, Vitagraph was the leading producer of motion pictures for much of the silent era. Vitagraph established America's studio system, a division of labor utilizing specialized craftspeople and artists, including a surprising number of women and minorities, whose aesthetic innovations have long been incorporated into virtually all commercial cinema. They developed fundamental aspects of the form and content of American movies, encompassing everything from framing, lighting, and performance style to emphasizing character-driven comedy and drama in stories that respected and sometimes poked fun at every demographic of Vitagraph's vast audience. The company overcame resistance to multi-reel motion pictures by establishing a national distribution network for its feature films. Vitagraph's international distribution was even more successful, cultivating a worldwide preference for American movies that endures to the present. For most of its existence America's most influential studio was headquartered in Brooklyn, New York before relocating to Hollywood. Finally, here is a historically rigorous and thorough account of the most influential producer of American motion pictures during the silent era. Drawing on valuable primary material long overlooked by other historians, Erish introduces readers to the fascinating, forgotten pioneers of Vitagraph.

Warner Bros David Thomson, 2017-08-08 Behind the scenes at the legendary Warner Brothers film studio, where four immigrant brothers transformed themselves into the moguls and masters of American fantasy Warner Bros charts the rise of an unpromising film studio from its shaky beginnings in the early twentieth century through its ascent to the pinnacle of Hollywood influence and popularity. The Warner Brothers—Harry, Albert, Sam, and Jack—arrived in America as unschooled Jewish immigrants, yet they founded a studio that became the smartest, toughest, and most radical in all of Hollywood. David Thomson provides fascinating and original interpretations of Warner Brothers pictures from the pioneering talkie *The Jazz Singer* through black-and-white musicals, gangster movies, and such dramatic romances as *Casablanca*, *East of Eden*, and *Bonnie and Clyde*. He recounts the storied exploits of the studio's larger-than-life stars, among them Al Jolson, James Cagney, Bette Davis, Errol Flynn, Humphrey Bogart, James Dean, Doris Day, and Bugs Bunny. The Warner brothers' cultural impact was so profound, Thomson writes, that their studio became "one of the enterprises that helped us see there might be an American dream out there."

Warner Bros. Steven Bingen, 2014-09-16 Movie studios are the wondrous, almost magical locales where not just films, but legends, are created. Unfortunately, these celebrity playgrounds are, and always have been, largely hidden from public view. Although some movie studios offer tours, few guests from outside the Hollywood community have ever been witness to the artistry, politics, and scandals that routinely go on behind the soundstage walls and away from the carefully orchestrated scenes visible to them from their tram carts. In this book, studio staff historian and Hollywood insider Steven Bingen throws open Hollywood's iron gates and takes you inside the greatest and yet most mysterious movie studio of them all: Warner Bros. Long home to the world's biggest stars and most memorable films and television shows, the Warner Bros. Studio lot functions as a small city and is

even more fascinating, glamorous, and outrageous than any of the stars or movies that it has been routinely minting for more than ninety years. Accompanied by stunning behind-the-scenes photos and maps, and including a revealing backstory, this book is your ticket to a previously veiled Hollywood paradise.

Balboa Films Jean-Jacques Jura,Rodney Norman Bardin II,2015-08-13 From 1913 through 1918, Long Beach, California, was home to the largest independent film company in the world, the largely forgotten Balboa Studio. Founder Herbert M. Horkheimer bought the studio from Edison Company in 1913, and by 1915 Balboa's expenses exceeded \$2,500 a day and its output hit 15,500 feet of film per week. Bert Bracken, Fatty Arbuckle, Henry King, Baby Marie Osborne, Thomas Ince, and William Desmond Taylor began their careers with the studio. In 1918, Horkheimer stunned the industry by declaring bankruptcy, shutting down Balboa, and walking away from moviemaking. The closing of the studio effectively ended Long Beach's runs as a major film location and left many wondering about the true reasons behind Horkheimer's decision. Most of Balboa's films have been lost, and little has until now been written about the studio. This book first explores the history of filmmaking in Long Beach and then fully details the story of Balboa. The extensive filmography includes length, copyright date when available, cast and credits, and a plot summary.

Movie Studios of Culver City Julie Lugo Cerra,Marc Wanamaker,2011-03-14 After watching pioneer filmmaker Thomas Ince film one of his famous Westerns on Ballona Creek, city founder Harry Culver saw the economic base for his city. Culver announced plans for the city in 1913 and attracted three major movie studios to Culver City, along with smaller production companies. "The Heart of Screenland" is fittingly etched across the Culver City seal. These vintage images are a tour through the storied past of this company town on the legendary movie lots bearing the names of Thomas Ince,

Hal Roach, Goldwyn, Metro-Goldwyn-Mayer, Lorimar, MGM-UA, Columbia, Sony Pictures, DeMille, RKO-Pathe, Selznick, Desilu, Culver City Studios, Laird International, the Culver Studios, and such nearly forgotten mini-factories as the Willat Studios. On these premises, *Gone With the Wind*, *The Wizard of Oz*, *Citizen Kane*, *E.T: The Extra-Terrestrial*, and other classics were filmed, along with tens of thousands of television shows and commercials featuring Elvis Presley, the Beatles, Michael Jackson, and many others.

The King of the Movies Joseph P. Eckhardt, 1997 That immigrant Jews had a profound impact on the growth of American cinema is well known and has been the subject of much scholarship. But America's first Jewish movie mogul, Siegmund Lubin of Philadelphia, has never been closely studied. Drawing upon contemporary accounts and interviews with Lubin's surviving family, friends, and employees, this work details the life and career of the once-famous Pop Lubin. It also seeks to explore the complex personality of this early film pioneer and the impact he had on the initial development of the movies. Torn between his loyalty to Edison and his desire to help the young Jewish independents trying to break into the business, Lubin adopted a complex strategy for working both sides of the fence. Sam Goldwyn, Jesse Lasky, Mark Dintenfass, Charles Baumann, and Adam Kessel all benefited from his discreet assistance. Lubin also became the first American film pioneer to utilize the motion picture to combat anti-Semitism.

Studios Before the System Brian R. Jacobson, 2015-09-01 By 1915, Hollywood had become the epicenter of American filmmaking, with studio dream factories structuring its vast production. Filmmakers designed Hollywood studios with a distinct artistic and industrial mission in mind, which in turn influenced the form, content, and business of the films that were made and the impressions of the people who viewed them. The first book to retell the history of film studio architecture, Studios Before the System expands the social and cultural footprint of cinema's virtual worlds and their contribution to wider developments in global technology and urban modernism. Focusing on six significant early film corporations in the United States and France—the Edison Manufacturing Company, American Mutoscope and Biograph, American Vitagraph, Georges Méliès's Star Films, Gaumont, and Pathé Frères—as well as smaller producers and film companies, Studios Before the System describes how filmmakers first envisioned the space they needed and then sourced modern

materials to create novel film worlds. Artificially reproducing the natural environment, film studios helped usher in the world's Second Industrial Revolution and what Lewis Mumford would later call the specific art of the machine. From housing workshops for set, prop, and costume design to dressing rooms and writing departments, studio architecture was always present though rarely visible to the average spectator in the twentieth century, providing the scaffolding under which culture, film aesthetics, and our relation to lived space took shape.

Engulfed Bernard F. Dick, 2021-09-22 From *Double Indemnity* (1944) to *The Godfather* (1972), the stories behind some of the greatest films ever made pale beside the story of the studio that made them. In the golden age of Hollywood, Paramount was one of the Big Five studios. Gulf + Western's 1966 takeover of the studio signaled the end of one era and heralded the arrival of a new way of doing business in Hollywood. Bernard F. Dick reconstructs the battle that reduced the studio to a mere corporate commodity and traces Paramount's devolution from freestanding studio to subsidiary—first of Gulf + Western, then of Paramount Communications, and currently, of Viacom-CBS. Dick portrays the new Paramount as a paradigm of today's Hollywood, where the only real art is the art of the deal. In modern Hollywood, former merchandising executives find themselves in charge of production on the assumption that anyone who can sell a movie can make one. CEOs exit in disgrace from one studio, only to emerge in triumph at another. Corporate raiders vie for power and control, purchasing and selling film libraries, studio property, television stations, book publishers, and more. The history of Paramount is filled with larger-than-life people, including Billy Wilder, Adolph Zukor, Sumner Redstone, Shari Redstone, Sherry Lansing, Barry Diller, Michael Eisner, Jeffrey Katzenberg, and more.

Early Poverty Row Studios E.J. Stephens, Marc Wanamaker, 2014-11-10 The history of

Hollywood is often seen only through the lens of the major studios, forgetting that many of Tinseltown's early creations came from micro-studios stretched along Sunset Boulevard in an area disparagingly known as Poverty Row. Here, the first wave of West Coast moviemakers migrated to the tiny village of Hollywood, where alcohol was illegal, actors were unwelcome, and cattle were herded down the unpaved streets. Most Poverty Row producers survived from film to film, their fortunes tied to the previous week's take from hundreds of nickelodeon tills. They would routinely script movies around an event or disaster, often creating scenarios using sets from more established productions, when the bosses weren't looking, of course. Poverty Row quickly became a generic term for other fly-by-night studios throughout the Los Angeles area. Their struggles to hang on in Hollywood were often more intriguing than the serialized cliffhangers they produced.

Hollywood Cinema and the Real Los Angeles Mark Shiel,2013-02-15 Hollywood cinema and

Los Angeles cannot be understood apart. *Hollywood Cinema and the Real Los Angeles* traces the interaction of the real city, its movie business, and filmed image, focusing on the crucial period from the construction of the first studios in the 1910s to the decline of the studio system fifty years later. As Los Angeles gradually became one of the ten largest cities in the world, the film industry made key contributions to its rapid growth and frequent crises in economic, social, political and cultural life. Whether filmmakers engaged with the real city on location or recreated it on a studio set, Los Angeles shaped the films that were made there and circulated influentially worldwide. The book pays particular attention to early cinema, slapstick comedy, movies about the movies and film noir, which are each explored in new ways, with an emphasis on urban and architectural space and its representation, as well as filmmaking style and technique. Including many previously unpublished photographs and new historical evidence, *Hollywood Cinema and the Real Los Angeles* gives us a never-before-seen view of the City of Angels.

Columbia Pictures Bernard F. Dick, 2021-10-19 Drawing on previously untapped archival materials including letters, interviews, and more, Bernard F. Dick traces the history of Columbia Pictures, from

its beginnings as the CBC Film Sales Company, through the regimes of Harry Cohn and his successors, and ending with a vivid portrait of today's corporate Hollywood. The book offers unique perspectives on the careers of Rita Hayworth and Judy Holliday, a discussion of Columbia's unique brands of screwball comedy and film noir, and analyses of such classics as *The Awful Truth*, *Born Yesterday*, and *From Here to Eternity*. Following the author's highly readable studio chronicle are fourteen original essays by leading film scholars that follow Columbia's emergence from Poverty Row status to world class, and the stars, films, genres, writers, producers, and directors responsible for its transformation. A new essay on Quentin Tarantino's *Once Upon a Time...in Hollywood* rounds out the collection and brings this seminal studio history into the 21st century. Amply illustrated with film stills and photos of stars and studio heads, *Columbia Pictures* is the first book to integrate history with criticism of a single studio, and is ideal for film lovers and scholars alike.

The Genius of the System Thomas Schatz, 2015-06-02 At a time when the studio is making a stunning comeback, film historian Thomas Schatz provides an indispensable account of Hollywood's traditional blend of business and art. This book lays to rest the persistent myth that businesspeople and producers stifle artistic talent and reveals instead the genius of a system of collaboration and conflict. Working from industry documents, Schatz traces the development of house styles, the rise and fall of careers, and the making-and unmaking-of movies, from *Frankenstein* to *Spellbound* to *Grand Hotel*. Richly illustrated and highly readable, *The Genius of the System* gives the definitive view of the workings of the Old Hollywood and the foundations of the New.

The Hollywood Studios Ethan Mordden, 2013-01-02 Hollywood in the years between 1929 and 1948 was a town of moviemaking empires. The great studios were estates of talent: sprawling, dense, diverse. It was the Golden Age of the Movies, and each studio made its distinctive contribution. But

how did the studios, growing up in the same time and place, develop so differently? What combinations of talents and temperaments gave them their signature styles? These are the questions Ethan Mordden answers, with breezy erudition and irrepressible enthusiasm, in this fascinating and wonderfully readable book. Mordden illuminates how the style of each studio was primarily dictated by the personality, philosophy, and attitudes of its presiding mogul—and how all these factors affected the work and careers of individual actors, directors, writers, and technicians, and the success of the studio in general.
