Making March Madness Chad Carlson, 2017-08-15 Throughout the NCAA Tournament's history, underdogs, Cinderella stories, and upsets have captured the attention and imagination of fans. *Making March Madness* is the story of this premiere tournament, from its early days in Kansas City, to its move to Madison Square Garden, to its surviving a point-shaving scandal in New York and taking its games to different sites across the country. Chad Carlson's analysis places college basketball in historical context and connects it to larger issues in sport and American society, providing fresh insights on a host of topics that readers will find interesting, illuminating, and thought provoking.

Undue Process Don Yaeger, 1991 Based on 300 hours of interviews with coaches, athletic directors, student-athletes, and NCAA officials, *Undue Process* examines the NCAA's system of justice -- the organization's history and its growth in power over the years, the lack of due process for its accused, its

guilty-until-proven-innocent attitude, and its 100 percent conviction rate.

Court Justice Ed O'Bannon, Michael McCann, 2018-02-13 "Like Curt Flood and Oscar Robertson, who paved the way for free agency in sports, Ed O'Bannon decided there was a principle at stake... O'Bannon gave the movement to reform college sports...passion and purpose, animated by righteous indignation." —Jeremy Schaap, ESPN journalist and New York Times bestselling author In 2009, Ed O'Bannon, once a star for the 1995 NCAA Champion UCLA Bruins and a first-round NBA draft pick, thought he'd made peace with the NCAA's exploitive system of "amateurism." College athletes generated huge profits, yet—training nearly full-time, forced to tailor coursework around sports, often pawns in corrupt investigations—they saw little from those riches other than revocable scholarships and miniscule chances of going pro. Still, that was all in O'Bannon's past...until he saw the video game NCAA Basketball 09. As avatars of their college selves—their likenesses, achievements, and playing styles—O'Bannon and his teammates were still making money for the NCAA. So, when asked to fight the system for players past, present, and future—and seeking no personal financial reward, but rather the chance to make college sports more fair—he agreed to be the face of what became a landmark class-action lawsuit. Court Justice brings readers to the front lines of a critical battle in the long fight for players' rights while also offering O'Bannon's unique perspective on today's NCAA recruiting scandals. From the basketball court to the court of law facing NCAA executives, athletic directors, and "expert" witnesses; and finally to his innovative ideas for reform, O'Bannon breaks down history's most important victory yet against the inequitable model of multi-billion-dollar "amateur" sports.

Don't Put Me In, Coach Mark Titus, 2013-03-12 An irreverent, hilarious insider's look at big-time NCAA basketball, through the eyes of the nation's most famous benchwarmer and author of the popular blog ClubTrillion.com (3.6m visits!). Mark Titus holds the Ohio State record for career wins, and made it to the 2007 national championship game. You would think Titus would be all over the highlight reels. You'd be wrong. In 2006, Mark Titus arrived on Ohio State's campus as a former high school basketball player who aspired to be an orthopedic surgeon. Somehow, he was added to the elite Buckeye basketball team, given a scholarship, and played alongside seven future NBA players on his way to setting the record for most individual career wins in Ohio State history. Think that's impressive? In four years, he scored a grand total of nine—yes, nine—points. This book will give readers an uncensored and uproarious look inside an elite NCAA basketball program from Titus's unique perspective. In his four years at the end of the bench, Mark founded his wildly popular blog Club Trillion, became a hero to all guys picked last, and even got scouted by the Harlem Globetrotters. Mark Titus is not your average basketball star. This is a wild and completely true story of the most unlikely career in college basketball. A must-read for all fans of March Madness and college sports!

The Big Dance Barry Wilner, Ken Rappoport, 2012 Covered by four networks, allowing every game to be televised, March Madness has become an American phenomenon. This is the story of the tournament, from its beginnings seventy-three years ago as an eight-team bracket to today's sixty-eight-team format--from Cinderella teams, to perennial powerhouses, to buzzer-beaters, upsets, and dynasties.

Indentured Joe Nocera, Ben Strauss, 2016-02-16 “How can the NCAA blithely wreck careers without

regard to due process or common fairness? How can it act so ruthlessly to enforce rules that are so petty? Why won't anybody stand up to these outrageous violations of American values and American justice?" In the four years since Joe Nocera asked those questions in a controversial New York Times column, the National Collegiate Athletic Association has come under fire. Fans have begun to realize that the athletes involved in the two biggest college sports, men's basketball and football, are little more than indentured servants. Millions of teenagers accept scholarships to chase their dreams of fame and fortune—at the price of absolute submission to the whims of an organization that puts their interests dead last. For about 5 percent of top-division players, college ends with a golden ticket to the NFL or the NBA. But what about the overwhelming majority who never turn pro? They don't earn a dime from the estimated \$13 billion generated annually by college sports—an ocean of cash that enriches schools, conferences, coaches, TV networks, and apparel companies . . . everyone except those who give their blood and sweat to entertain the fans. *Indentured* tells the dramatic story of a loose-knit group of rebels who decided to fight the hypocrisy of the NCAA, which blathers endlessly about the purity of its "student-athletes" while exploiting many of them: The ones who get injured and drop out because their scholarships have been revoked. The ones who will neither graduate nor go pro. The ones who live in terror of accidentally violating some obscure rule in the four-hundred-page NCAA rulebook. Joe Nocera and Ben Strauss take us into the inner circle of the NCAA's fiercest enemies. You'll meet, among others . . . Sonny Vaccaro, the charismatic sports marketer who convinced Nike to sign Michael Jordan. Disgusted by how the NCAA treated athletes, Vaccaro used his intimate knowledge of its secrets to blow the whistle in a major legal case.

·Ed O'Bannon, the former UCLA basketball star who realized, years after leaving college, that the NCAA was profiting from a video game using his image. His lawsuit led to an unprecedented antitrust ruling.

·Ramogi Huma, the founder of the National College Players Association, who dared to think that college players should have the same collective bargaining rights as other Americans.

·Andy Schwarz, the controversial economist who looked behind the façade of the NCAA and saw it for what it is: a cartel that violates our core values of free enterprise.

Indentured reveals how these and other renegades, working sometimes in concert and sometimes alone, are fighting for justice in the bare-knuckles world of college sports.

Madness Mark Mehler, Charles Paikert, 2018-02-13 The annual NCAA Basketball Tournament, which has become known as “March Madness” has emerged as a major sports event, matched only by the Super Bowl and the Olympics. In *Madness*, Mark Mehler and Charles Paikert tell the stories behind the ten most compelling and memorable championship games in tournament history, from North Carolina’s triple-overtime victory over Wilt Chamberlain’s Kansas Wildcats in 1957 to Duke’s heart stopping victory over underdog Butler in 2010. As a bonus, five more games that just missed the cut are also examined. *Madness* goes beyond the games to tell the backstories of these classics, each entirely unique unto itself. For example, Jim Valvano taking his impossible dream of a national title and making it come true for the 1983 North Carolina State Wolfpack; Rollie Massimino turning spaghetti and clam sauce into inspiration for his underachieving 1985 Villanova team; and Magic Johnson and Larry Bird, breaking down in tears while taking a Broadway curtain call in front of a wildly-applauding audience who two hours earlier didn't know

who these two guys were decades after their head-to-head matchup in 1979. Some of these stories also resonate far beyond the basketball court, including the 1966 triumph by the Texas Western Miners, which helped chisel away the college basketball color line and stamped their victory as Glory Road. Over sixty years of college basketball history is brought to life in this must-have for all basketball fans.

The (Peculiar) Economics of NCAA Basketball T. McFall, 2014-10-15 The economics of the NCAA Division I men's basketball league are peculiar because it fails to hire the best college-aged players and does little to enhance competitive balance within the league. The league's policy decisions and its ability to remain economically viable, despite its short-sighted governance decisions, are discussed.

Rising Above the Madness Laura Amato, 2019-03-19 THE MEN WHO MADE MARCH From its humble beginnings in 1895 to its modern-day dominance over American culture for the entire month of March, college basketball is often called madness and is well-deserving of the title. Most NCAA basketball coaches fail; however, the special few profiled in this book didn't just succeed where others failed, they influenced the game; changed it; and altered its very course. The ten men featured in this anthology went about coaching differently, each bringing their own approach and mindset to the hardwood, and their success is unprecedented: John Wooden (UCLA) Bobby Knight (Indiana University) Adolph Rupp (University of Kentucky) Dean Smith (University of North Carolina) Phog Allen (University of Kansas) Mike Krzyzewski (Duke University) Jerry Tarkanian (UNLV) Jim Boeheim (Syracuse University) Lou Carnesecca (St. John's University) Jim Calhoun (University of Connecticut)

College Athletes for Hire Allen L. Sack, Ellen J. Staurowsky, 1998-07-17 Many books have been written

on the evils of commercialism in college sport, and the hypocrisy of payments to athletes from alumni and other sources outside the university. Almost no attention, however, has been given to the way that the National Collegiate Athletic Association has embraced professionalism through its athletic scholarship policy. Because of this gap in the historical record, the NCAA is often cast as an embattled defender of amateurism, rather than as the architect of a nationwide money-laundering scheme. Sack and Staurowsky show that the NCAA formally abandoned amateurism in the 1950s and passed rules in subsequent years that literally transformed scholarship athletes into university employees. In addition, by purposefully fashioning an amateur mythology to mask the reality of this employer-employee relationship, the NCAA has done a disservice to student-athletes and to higher education. A major subtheme is that women, such as those who created the Association for Intercollegiate Athletics for Women (AIAW), opposed this hypocrisy, but lacked the power to sustain an alternative model. After tracing the evolution of college athletes into professional entertainers, and the harmful effects it has caused, the authors propose an alternative approach that places college sport on a firm educational foundation and defend the rights of both male and female college athletes. This is a provocative analysis for anyone interested in college sports in America and its subversion of traditional educational and amateur principles.

Tainted Glory B. David Ridpath, 2012 In 1997, Dave Ridpath walked onto the campus of Marshall University as a sports-loving athletic administrator with a career on the rise. Less than five years later, Ridpath's quest to reform one of the most corrupt athletic departments in college sports, while simultaneously standing up to the behemoth governing body that is the NCAA, had all but destroyed that

career. While serving as assistant athletic director for compliance and student services at Marshall University from 1997 through 2001, Ridpath unearthed violations of several NCAA rules. These violations included overt academic fraud and impermissible, booster-devised employment for members of the Marshall University football team—a team had taken the nation by storm because of its incredible success on the field. Ridpath now chronicles his experiences through this trying time in *Tainted Glory: Marshall University, the NCAA, and One Man's Fight for Justice*. Instead of being hailed as a conquering hero determined to clean up an outlaw program, Ridpath had the tables turned on him. He found himself out of a job when Marshall University and the NCAA determined that the path of least resistance would be to remove him rather than address the issues head-on. With this action, they hoped to avoid damaging the university, the athletic department, and the NCAA overall. This story is about more than the NCAA or Marshall University. It is about the state of the business of intercollegiate athletics told by someone on the inside who lived it—the good and the bad.

Before March Madness Kurt Edward Kemper, 2020-08-10 Big money NCAA basketball had its origins in a many-sided conflict of visions and agendas. On one side stood large schools focused on a commercialized game that privileged wins and profits. Opposing them was a tenuous alliance of liberal arts colleges, historically black colleges, and regional state universities, and the competing interests of the NAIA, each with distinct interests of their own. Kurt Edward Kemper tells the dramatic story of the clashes that shook college basketball at mid-century—and how the repercussions continue to influence college sports to the present day. Taking readers inside the competing factions, he details why historically black colleges and

regional schools came to embrace commercialization. As he shows, the NCAA's strategy of co-opting its opponents gave each group just enough just enough to play along—while the victory of the big-time athletics model handed the organization the power to seize control of college sports. An innovative history of an overlooked era, *Before March Madness* looks at how promises, power, and money laid the groundwork for an American sports institution.

The Encyclopedia of the NCAA Basketball Tournament Jim Savage, 1990 The book that every basketball fan has been waiting for celebrates the complete history of who and what made basketball the sport it is today. A one-of-a-kind treasury of all the facts, stats, and background that can't be found anywhere else. 16-page photo insert.

March 1939 Terry Frei, 2014-02-06 In 1939, the Oregon Webfoots, coached by the visionary Howard Hobson, stormed through the first NCAA basketball tournament, which was viewed as a risky coast-to-coast undertaking and perhaps only a one-year experiment. Seventy-five years later, following the tournament's evolution into a national obsession, the first champions are still celebrated as “The Tall Firs.” They indeed had astounding height along the front line, but with a pair of racehorse guards who had grown up across the street from each other in a historic Oregon fishing town, they also played a revolutionarily fast-paced game. Author Terry Frei's track record as a narrative historian in such books as the acclaimed *Horns*, *Hogs*, and *Nixon Coming*, plus a personal connection as an Oregon native whose father coached football at the University of Oregon for seventeen seasons, makes him uniquely qualified to tell this story of the first tournament and the first champions, in the context of their times. Plus, Frei long has been a fan of Clair

Bee, the Long Island University coach who later in life wrote the Chip Hilton Sports Series books, mesmerizing young readers who didn't know the backstory told here. In 1939, the Bee-coached LIU Blackbirds won the NCAA tournament's rival, the national invitation tournament in New York—then in only its second year, and still under the conflict-of-interest sponsorship of the Metropolitan Basketball Writers Association. Frei assesses both tournaments and, given the myths advanced for many years, his conclusions in many cases are surprising. Both events unfolded in a turbulent month when it was becoming increasingly apparent that Hitler's belligerence would draw Europe and perhaps the world into another war . . . soon. Amid heated debates over the extent to which America should become involved in Europe's affairs this time, the men playing in both tournaments wondered if they might be called on to serve and fight. Of course, as some of the Webfoots would demonstrate in especially notable fashion, the answer was yes. It was a March before the Madness.

The New Plantation B. Hawkins, 2010-02-15 The New Plantation examines the controversial relationship between predominantly White NCAA Division I Institutions (PWI s) and black athletes, utilizing an internal colonial model. It provides a much-needed in-depth analysis to fully comprehend the magnitude of the forces at work that impact black athletes experiences at PWI s. Hawkins provides a conceptual framework for understanding the structural arrangements of PWI s and how they present challenges to Black athletes academic success; yet, challenges some have overcome and gone on to successful careers, while many have succumbed to these prevailing structural arrangements and have not benefited accordingly. The work is a call for academic reform, collective accountability from the communities that

bear the burden of nurturing this athletic talent and the institutions that benefit from it, and collective consciousness to the Black male athletes that make of the largest percentage of athletes who generate the most revenue for the NCAA and its member institutions. Its hope is to promote a balanced exchange in the athletic services rendered and the educational services received.

NCAA March Madness National Collegiate Athletic Association, 2004 A book-and-DVD package conveys the sixty-five year history of the NCAA's Final Four through photographs, text, and archival footage, capturing the most memorable moments and personalities while chronicling the tournament's rise from its humble beginnings.
