Give Me the Now Rudolf Zwirner, Nicola

Kuhn, 2021-01-26 Rudolf Zwirner, "the man who invented the art market," as coined in *Der Spiegel*, reflects on more than sixty years in the art business in his authoritative autobiography. "Americans now see Germany as a natural breeding ground for mighty gallerists and collectors, but Rudolf Zwirner's fascinating new memoir walks us through the decades it took to rebuild an art world shattered by World War II. In this dealer's charming telling, however, the work involved sounds more like play than labor." —Blake Gopnik, author of *Warhol An art dealer of the ages*, Rudolf Zwirner, father of the esteemed gallerist David Zwirner, reached many milestones in his career. From cofounding Art Cologne, the first fair for contemporary art, in 1967, to showing works by Georg Baselitz, Gerhard Richter, and Andy Warhol, Zwirner transformed the contemporary art scene in Cologne. Born in 1933, he presented more than three hundred exhibitions from the early 1960s to 1992. In his autobiography, Zwirner reveals stories of artists, his gallery, and his most important collector, Peter Ludwig, whose collection forms the cornerstone of the Ludwig Museum in Cologne. First published in 2019 in German, and translated and adapted here for the first time in English, the book explores the most significant moments of Zwirner's career and the fast-changing postwar art world. Also included in this edition is a new foreword by Lucas Zwirner, Rudolf's grandson, who reflects on his grandfather's role in bringing us to the global

art landscape we find ourselves in now.

The Power of Now Eckhart Tolle,2010-10-06 It's no wonder that *The Power of Now* has sold over 16 million copies worldwide and has been translated into over 30 foreign languages. Much more than simple principles and platitudes, the book takes readers on an inspiring spiritual journey to find

their true and deepest self and reach the ultimate in personal growth and spirituality: the discovery of truth and light. In the first chapter, Tolle introduces readers to enlightenment and its natural enemy, the mind. He awakens readers to their role as a creator of pain and shows them how to have a pain-free identity by living fully in the present. The journey is thrilling, and along the way, the author shows how to connect to the indestructible essence of our Being, the eternal, ever-present One Life beyond the myriad forms of life that are subject to birth and death. Featuring a new preface by the author, this paperback shows that only after regaining awareness of Being, liberated from Mind and intensely in the Now, is there Enlightenment.

The Clock Of The Long Now Stewart Brand, 2008-08-01 Using the designing and building of the Clock of the Long Now as a framework, this is a book about the practical use of long time perspective: how to get it, how to use it, how to

keep it in and out of sight. Here are the central questions it inspires: How do we make long-term thinking automatic and common instead of difficult and rare? Discipline in thought allows freedom. One needs the space and reliability to predict continuity to have the confidence not to be afraid of revolutions Taking the time to think of the future is more essential now than ever, as culture accelerates beyond its ability to be measured Probable things are vastly outnumbered by countless near-impossible eventualities. Reality is statistically forced to be extraordinary; fiction is not allowed this freedom This is a potent book that combines the chronicling of fantastic technology with equally visionary philosophical inquiry.

Maybe it's a baby whale being born, or perhaps it's the sun coming out on a cloudy day; right now our resilient world is making something incredible happen.

Enlightenment Now Steven Pinker, 2018-02-13

INSTANT NEW YORK TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST'S BOOKS OF THE YEAR My new favorite book of all time. -- Bill Gates If you think the world is coming to an end, think again: people are living longer, healthier, freer, and happier lives, and while our problems are formidable, the solutions lie in the Enlightenment ideal of using reason and science. By the author of the new book, *Rationality*. Is the world really falling apart? Is the ideal of progress obsolete? In this elegant assessment of the human condition in the third millennium, cognitive scientist and public intellectual Steven Pinker urges us to step back from the gory headlines and prophecies of doom, which play to our psychological biases. Instead, follow the data: In seventy-five jaw-dropping graphs, Pinker shows that life, health, prosperity, safety, peace, knowledge, and happiness are on the rise, not just in the West, but worldwide. This progress is not the result of some cosmic force. It is a gift of the Enlightenment: the conviction that reason and science can enhance human flourishing. Far from being a naïve hope, the Enlightenment, we now know, has worked. But more than ever, it needs a vigorous defense. The Enlightenment project swims against currents of human nature--tribalism, authoritarianism, demonization, magical thinking--which demagogues are all too willing to exploit. Many commentators, committed to political, religious, or romantic ideologies, fight a rearguard action against it. The result is a corrosive fatalism and a willingness to wreck the

precious institutions of liberal democracy and global cooperation. With intellectual depth and literary flair, Enlightenment Now makes the case for reason, science, and humanism: the ideals we need to confront our problems and continue our progress.

What Matters Now Gary Hamel, 2012-01-04 This is not a book about one thing. It's not a 250-page dissertation on leadership, teams or motivation. Instead, it's an agenda for building organizations that can flourish in a world of diminished hopes, relentless change and ferocious competition. This is not a book about doing better. It's not a manual for people who want to tinker at the margins. Instead, it's an impassioned plea to reinvent management as we know it—to rethink the fundamental assumptions we have about capitalism, organizational life, and the meaning of work. Leaders today confront a world where the unprecedented is the norm. Wherever one looks, one sees the exceptional and the extraordinary: Business newspapers decrying the state of capitalism. Once-innovative companies struggling to save off senescence. Next gen employees shunning blue chips for social start-ups. Corporate miscreants getting pilloried in the blogosphere. Entry barriers tumbling in what were once oligopolistic strongholds. Hundred year-old business models being rendered irrelevant overnight. Newbie organizations crowdsourcing their most creative work. National governments lurching towards bankruptcy. Investors angrily confronting greedy CEOs and complacent boards. Newly omnipotent customers eagerly wielding their

power. Social media dramatically transforming the way human beings connect, learn and collaborate. Obviously, there are lots of things that matter now. But in a world of fractured certainties and battered trust, some things matter more than others. While the challenges facing organizations are limitless; leadership bandwidth isn't. That's why you have to be clear about what really matters now. What are the fundamental, make-or-break issues that will determine whether your organization thrives or dives in the years ahead? Hamel identifies five issues that are paramount: values, innovation, adaptability, passion and ideology. In doing so he presents an essential agenda for leaders everywhere who are eager to... move from defense to offense reverse the tide of commoditization defeat bureaucracy astonish their customers foster extraordinary contribution capture the moral high ground outrun change build a company that's truly fit for the future Concise and to the point, the book will inspire you to rethink your business, your company and how you lead.

Everything Now Rosecrans Baldwin, 2021-06-15 A LOS ANGELES TIMES BESTSELLER. NAMED A BEST CALIFORNIA BOOKS OF 2021 BY THE NEW YORK TIMES A provocative, exhilaratingly new understanding of the United States' most confounding metropolis—not just a great city, but a full-blown modern city-state America is obsessed with Los Angeles. And America has been thinking about Los Angeles all wrong, for decades, on repeat. Los Angeles is not just the place where the American dream hits the Pacific. (It has its own dreams.) Not just the

vanishing point of America's western drive. (It has its own compass.) Functionally, aesthetically, mythologically, even technologically, an independent territory, defined less by distinct borders than by an aura of autonomy and a sense of unfurling destiny—this is the city-state of Los Angeles. Deeply reported and researched, provocatively argued, and eloquently written, Rosecrans Baldwin's *Everything Now* approaches the metropolis from unexpected angles, nimbly interleaving his own voice with a chorus of others, from canonical L.A. literature to everyday citizens. Here, Octavia E. Butler and Joan Didion are in conversation with activists and astronauts, vampires and veterans. Baldwin records the stories of countless Angelenos, discovering people both upended and reborn: by disasters natural and economic, following gospels of wealth or self-help or personal destiny. The result is a story of a kaleidoscopic, vibrant nation unto itself—vastly more than its many, many parts. Baldwin's concept of the city-state allows us, finally, to grasp a place—Los Angeles—whose idiosyncrasies both magnify those of America, and are so fully its own. Here, space and time don't quite work the same as they do elsewhere, and contradictions are as stark as southern California's natural environment. Perhaps no better place exists to watch the United States's past, and its possible futures, play themselves out. Welcome to Los Angeles, the Great American City-State.

Our Time Is Now Stacey Abrams, 2020-06-09 From New York Times bestselling author of *Lead From The Outside* and political leader Stacey Abrams, a

blueprint to end voter suppression, empower our citizens, and take back our country. With each page, she inspires and empowers us to create systems that reflect a world in which all voices are heard and all people believe and feel that they matter. —Kerry Washington A recognized expert on fair voting and civic engagement, Abrams chronicles a chilling account of how the right to vote and the principle of democracy have been and continue to be under attack. Abrams would have been the first African American woman governor, but experienced these effects firsthand, despite running the most innovative race in modern politics as the Democratic nominee in Georgia. Abrams didn't win, but she has not conceded. The book compellingly argues for the importance of robust voter protections, an elevation of identity politics, engagement in the census, and a return to moral international leadership. *Our Time Is Now* draws on extensive research from national organizations and renowned scholars, as well as anecdotes from her life and others' who have fought throughout our country's history for the power to be heard. The stakes could not be higher. Here are concrete solutions and inspiration to stand up for who we are now. This is a narrative that describes the urgency that compels me and millions more to push for a different American story than the one being told today. It's a story that is one part danger, one part action, and all true. It's a story about how and why we fight for our democracy and win. - Stacey Abrams
