Unlocking the Files of the FBI Gerald K. Haines,David A.

Langbart,1993 This comprehensive guide explains what kinds of documents the FBI holds, where they are located, and how to gain access to them. The FBI has investigated a vast range of activities: communism, civil rights and antiwar protests, organised crime, political corruption, terrorists, and even foreign espionage. The massive amount of documentation produced on countless cases is divided into hundreds of major classifications. Now under the Freedom of Information Act (FOIA), more of these valuable records are open to researchers than ever before. Haines and Langbart provide a focused description of the contents of every one of the more than 278 classifications the bureau uses to organise its efforts. They also include descriptions of special, unclassified records, and a full explanation of the FOIA, with a sample letter requesting access under the act; FBI organisational charts; a sample showing how the bureau sanitises documents; and other information.

Unlocking The Human Potential For Public Sector Performance

World Public Sector Report 2005 United Nations,2006 The conditions of globalization, including economic integration, fiscal discipline, introduction of information communications technologies and democratic governance, have increasingly forced states to redefine their role in public management and to reform the public administration system. However, there is growing realization among decision makers that policy and institutional reform per se will not be sufficient to revitalize the public sector. Major strengthening of the knowledge, skills, values, attitudes and leadership abilities of human capital is also needed to transform the public sector, particularly in developing countries and countries with economies in transition. This year's report is expected to contribute to global and national debates on this topic.--Publisher's description.

Unlocking SME Finance in Asia Naoyuki Yoshino,Farhad

Taghizadeh-Hesary,2019-07-01 There is limited access for small and medium-sized enterprises (SMEs) to bank credit. This book proposes new and sustainable models to help ease the access of SMEs to finance and boost economic growth and job creation in Asia. This book looks at the difficulties of SMEs in accessing finance and suggests ways on how to mitigate these challenges. It suggests how we can develop credit information infrastructures for SMEs to remedy the asymmetric information problem and to utilize credit rating techniques for the development of a sustainable credit guarantee scheme. The book provides illustrations of various Asian economies that implemented credit guarantee schemes and credit risk databases and is a useful reference for lessons and policy recommendations.

Public Private Partnerships in Education Susan

Robertson, Karen Mundy, Antoni Verger, 2012-01-01 'Far from simply being a form of cost sharing between the state and the market, PPP has been celebrated by some, and condemned by others, as the champion of change in the new millennium. This book has been written by the best minds in education policy, political economy, and development studies. They convincingly argue that public private partnership represents a new mode of governance that ranges from covert support of the private sector (vouchers, subsidies) to overt collaboration with corporate actors in the rapidly growing education industry. The analyses are simply brilliant and indispensable for understanding how and why this particular best/worst practice went global.' – Gita Steiner-Khamsi, Columbia University, New York, US This insightful book brings together both academics and researchers from a variety of international organizations and aid agencies to explore the complexities of public private partnerships (PPPs) as a resurgent, hybrid mode of educational governance that operates across scales, from the community to the global. The contributors expertly study the different types of partnership arrangements and thoroughly critique the value of PPPs. Some chapters explore how PPPs, as a policy idea, have been constructed in transnational agendas for educational development and circulated globally, whilst other chapters explores the role and implications of PPPs in developing countries, providing arguments for and against an

expanding reliance on PPPs in national educational systems. The theoretical framing of the book draws upon leading theories of international relations to develop a unique perspective on the global governance of education. It will prove insightful for both scholars and policymakers in public policy and education.

Diversifying Digital Learning William G. Tierney, Zoë B.
Corwin, Amanda Ochsner, 2018-02-01 Tierney, S. Craig Watkins

Risk-sharing in the Pharmaceutical Industry Gerrit

Reepmeyer,2005-12-05 The productivity in pharmaceutical research and development faces intense pressure. R&D expenditures of the major US and European companies have topped US\$ 33 billion in 2003 compared to around US\$ 13 billion just a decade ago. At the same time, the number of new drug approvals has dropped from 53 in 1996 to only 35 in 2003. Moreover, the protraction of clinical trials has significantly reduced the effective time of patent protection. The consequences are devastating. Monopoly profits have started to decline and the average costs per new drug have reached a record level of close to US\$ 1 billion today. As a result, any failure of a new substance in the R&D process can lead to considerable losses, and the risks of introducing a new drug to the market have grown tremendously. Particularly if a company is highly dependent on just a handful of mega-selling blockbuster drugs, the risks can be even greater. For example, Pfizer generated about 90% of its worldwide revenues in 2002 with just 8 products. Any shortfall of a promising late-stage drug candidate would have left Pfizer with a gaping hole in its product portfolio. In order to deal with these risks, many pharmaceutical companies have started to organize their R&D in partnership. In fact, more than 600 alliances in pharmaceutical R&D are signed every year.

Effective Document and Data Management Bob

Wiggins,2016-04-29 Effective Document and Data Management illustrates the operational and strategic significance of how documents and data are captured, managed and utilized. Without a coherent and consistent approach the efficiency and effectiveness of the organization may be undermined by less poor management and use of its information. The third edition of the book is restructured to take this broader view and to establish an organizational context in which information is management. Along the way Bob Wiggins clarifies the distinction between information management, data management and knowledge management;

helps make sense of the concept of an information life cycle to present and describe the processes and techniques of information and data management, storage and retrieval; uses worked examples to illustrate the coordinated application of data and process analysis; and provides guidance on the application of appropriate project management techniques for document and records management projects. The book will benefit a range of organizations and people, from those senior managers who need to develop coherent and consistent business and IT strategies; to information professionals, such as records managers and librarians who will gain an appreciation of the impact of the technology and of how their particular areas of expertise can best be applied; to system designers, developers and implementers and finally to users. The author can be contacted at curabyte@gmail.com for further information.

Rebuilding Devastated Economies in the Middle East L.

Binder, 2007-10-29 This book analyzes the political obstacles to economic recovery, and the economic consequences of democratic political reforms. The contributors focus on rulers of shaky states where civil strife has caused economic devastation. If rebuilding requires regime change, are we asking these governments to put themselves out of business?

Narrowing the Development Gap Asian Development Bank, 2023-05-01 This report uses a broad range of indicators to assess the individual and collective development progress made by the Association of Southeast Asian Nations (ASEAN). Building on a previous study released in 2014, it assesses 39 indicators that consider dimensions such as overall human development, gender equality, climate change, and living conditions. The report intends to help policy makers pinpoint priority development interventions and to align strategies to support regional recovery from the COVID-19 pandemic. It highlights the need for the 10 ASEAN member states to increase investments in areas such as skills development, education, health, and nutrition.

Big Data's Big Potential in Developing Economies Nir Kshetri, 2016-10-25 Big Data has the power to change all aspects of agriculture, environmental protection and healthcare, especially in developing countries, by allowing new levels of analysis and tailoring of impacts. How big data will impact will benefit smallholder farmers relative to global multinationals. The book considers how big data can change the way lenders assess creditworthiness of potential borrowers. Data privacy and security issues are important issues. The key ideas, concepts and theories presented are explored, illustrated and contrasted through in-depth case studies of developing world-based big data companies and deployment and utilization big data in agriculture, environmental protection and healthcare.

Religion in Philanthropic Organizations Thomas J. Davis, 2013-09-26 Religion in Philanthropic Organizations explores the tensions inherent in religious philanthropies across a variety of organizations and examines the effect assumptions about professional philanthropy have had on how religious philanthropies carry out their activities. Among the organizations discussed are the Salvation Army, the World Council of Churches, and Catholic Charities USA. The essays focus on the work of one individual,

Robert Pierce, founder of World Vision and Samaritan's Purse, and on more general matters such as philanthropy and Jewish identity, American Muslim philanthropy since 9/11, and the federal program that funds faith-based initiatives. The book sheds light on how religion and philanthropy function in American society, shaping and being shaped by the culture and its notions of the common good.

Education Strategy in the Developing World Christopher S. Collins, Alexander W. Wiseman, 2012-03-06 Following the development of a Concept Note for the World Bank Education Strategy 2020, the World Bank engaged in a series of activities to garner feedback about the strategy. In early 2011, a revised strategy was published, *Learning for All: Investing in People's Knowledge and Skills to Promote Development*. This title deals with this topic.
