Vintage Tattoo Flash Jonathan Shaw, 2016-04-12

Vintage Tattoo Flash is a one-of-a-kind visual exploration of the history and evolution of tattooing in America. A conscious, offset-printed, hardcover tome—a beautiful and serious addition to the understanding of one of the world's oldest and most popular art forms. Electric tattooing as we know it today was invented in New York City at the turn of the 19th century. In the first days of American tattooing, tattoos were primarily worn by sailors and soldiers, outlaws and outsiders. The visual language of what came to be known as traditional tattooing was developed in those early days on the Bowery and catered to the interests of the clientele. Common imagery that soon became canon included sailing ships, women, hearts, roses, daggers, eagles, dragons, wolves, panthers, skulls, crosses, and popular cartoon characters of the era. The first tattooists also figured out that using bold outlines, complimented by solid color and smooth shading, was the proper technique for creating art on a body that would stand the test of time. In the over 100 years since then, techniques and styles have evolved, and the customer base has expanded, but the core subject matter and philosophy developed at the dawn of electric tattooing has persisted as perennial favorites through the modern era. While most tattoos are inherently ephemeral, transported on skin until the death of the collector, a visual record exists in the form of tattoo flash: the hand-painted sheets of designs posted in tattoo shops for customers to select from. Painted and repainted, stolen, traded, bought and sold, these sheets are passed between artists through one channel or another, often having multiple useful lives in a variety of shops scattered across time and geography. The utility of these original pieces of painted art has made it so that original

examples can still be found in use or up for grabs if you know where to look. Vintage Tattoo Flash draws from the personal collection of Jonathan Shaw—renowned outlaw tattooist and author—and represents a selection of over 300 pieces of flash from one of the largest private collections in existence. Vintage Tattoo Flash spans the first roughly 75 years of American tattooing from the 1900s Bowery, to 50s Texas, through the Pike in the 60s and the development of the first black and grey, single-needle tattooing in LA in the 70s. The book lovingly reproduces entirely unpublished sheets of original flash from the likes of Bob Shaw, Zeke Owen, Tex Rowe, Ted Inman, Ace Harlyn, Ed Smith, Paul Rogers, the Moskowitz brothers, and many, many others relatively known and unknown.

**Vintage Tattoos** Carol Clerk, 2009-02-17 Tattoos have gone from badges of rebellion to fashion statements fully absorbed into mainstream culture. They are enjoying a renaissance, with graphic designers and artists creating specialty tattoos for a growing audience, unleashing a revival of interest in the bawdy vintage tattoo. Old school tattoos are being rediscovered (sometimes ironically, sometimes not) by a new generation. Originally embraced by rebels, sailors, and gangsters, these tattoos—broken hearts, naked girls, floral motifs, and maritime emblems—are now showing up on the fashion runway and in music videos. This book chronicles vintage motifs in thematic chapters interspersed with profiles of influential tattoo artists and their distinctive designs: Sailor Jerry Collins, Don Ed Hardy (the Godfather of Tattoos), Mike Rollo Banks Malone, Bert Grimm, Japan's Horiyoshi III, and Shanghai's Pinky Yun.

Traditional American Tattoo Design Jerry Swallow, 2008 The evolution of tattoo art in America is spread before you in 265 impressive

original tattoo flash sheets and insightful text written by a tattoo artist who has designed on his own since 1960. Military, religious, figural, animal, and nature themes are displayed among the many hundred designs. Changes in tattoo art over the years is shown as well as the trend today to return to earlier designs. Individual artists are listed, along with others who altered designs. This book will be an endless source of inspiration, for those who are passionate about tattoo art.

Vintage Tattoos Carol Clerk, 2022-07-21 Princes and prisoners, sailors and criminals, showgirls and soldiers - all have submitted to the tattooist's art. Vintage Tattoos features over 500 retro designs of every style and subject matter, including nautical, patriotic, hearts and banners, circus, girls, animals, roses, daggers and symbols. Legendary rock journalist Carol Clerk's curation of the most iconic traditional ink designs also includes profiles of history's illustrious tattoo artists, as well as interviews with contemporary practitioners.

**Tales from the Old School of Tattooing** Sean Hobden, 2012-09-27 Sean Hobden was the youngest member of the Old Timers Tattoo Club when it was formed in 1989. He was privileged to hear the stories of the last of the old time character showmen tattooists when tattooing was still a part of the underworld and hadn't yet gone mainstream and become popularised. Now you can hear the stories of the legends of tattooing from the last century that were told to the author first hand. Read how street shop walk in tattooists dealt with the many drunks and long queues. Humorous accounts and anecdotes of Ron Ackers, Painless Jeff, Cockney Paul, Benn Gun, Barry Louvaine, Charlie bell, Jock of Kings Cross and many more. Many old

time trade secrets such as "Three waying" and the "Vanity sink" are revealed, as they are no longer needed in modern tattooing. The book also covers old school politics and serves as a social history of the last part of the previous century. The book now has it's own website so that you can see photos of characters in the book please visit [seanhobden.com](http://seanhobden.com) I found this book to be compulsive reading and incredibly hard to put down Total Tattoo Magazine I often find the best example of a good read is one that cannot be put down. I read this book in one night Gladstone Magazine Many of the stories are hilarious, full of dry wit and humour, blended with warmth and affection Total Tattoo Magazine A laugh a minute rollercoaster of tattoo madness. This is a book you need on your shelf Tattoo Master Magazine

**Vintage Tattoos** Carol Clerk, 2008 With its nautical symbolism, hearts and daggers, ribbon banners and scantily clad women, old-school tattoo designs reveal the history of an art form as well as a fascinating subculture. Showcasing the artistry inherent in authentic and historical 'flash' art, Vintage Tattoos explores the bold, colourful and enduringly popular designs that were perfected across two World Wars, delving into the colourful lives of the era's most famous practitioners. Each chapter focuses on a particular group of tattoos, beginning with the circus displays that kickstarted the golden age of vintage design, through maritime and patriotic emblems, and culminating in the current revival of this genre of tattoo art.--BOOK JACKET.

The New Old School Jakob Schultz, 2015 This book focuses on the traditional (old school) style of tattooing and its ongoing impact on today's tattoo art. More than 300 stunning colour photos are combined with tattoo artists personal explanations of why they love to work in the traditional style, and the artistic challenges that it poses today.

For the fifteen tattoo artists in this book, the essence of real and true tattooing is the traditional one: bold lines, simple motifs, black and red colours tattoos built to last on the skin. From the early beginnings in the late 19th century among sailors, traditional tattoos have been developed further by todays tattoo artists. Neo-traditional, Americana, new school, old school the names are many, but all have that single common heritage: they are based on the simple lines created on the sailors skins many years ago.

**Vintage Tattoo Flash Volume 2** Jonathan Shaw, 2017-10-17 More of what people loved about the first volume! InVintage Tattoo Flash: Volume 2, Jonathan Shaw unearths more gems from his extensive and world-renowned collection of traditional American tattoo art. Comprised entirely of previously unseen and unpublished work, Volume 2 picks up where the first volume left off-contributing a new and important body of work to the historical record of this outsider art form. Electric tattooing as we know it today was invented in New York City at the turn of the 20th century. In the first days of American tattooing, tattoos were primarily worn by sailors and soldiers, outlaws and outsiders. The visual language of what came to be known as traditional tattooing was developed in those early days on the Bowery and catered to the interests of the clientele. Common imagery that soon became canon included sailing ships, women, hearts, roses, daggers, eagles, dragons, wolves, panthers, skulls, crosses, and popular cartoon characters of the era. The first tattooists also figured out that using bold outlines, complimented by solid color and smooth shading, was the proper technique for creating art on a body that would stand the test of time. In the over 100 years since then, techniques and styles have evolved, and the customer base has expanded, but the core subject

matter and philosophy developed at the dawn of electric tattooing has persisted as perennial favorites through the modern era. While most tattoos are inherently ephemeral, transported on skin until the death of the collector, a visual record exists in the form of tattoo flash: the hand-painted sheets of designs posted in tattoo shops for customers to select from. *Vintage Tattoo Flash: Volume 2* represents a selection of over 100 pieces of flash from one of the largest private collections in existence and spans the first roughly 75 years of American tattooing from the 1900s Bowery, to 50s Texas, through the Pike in the 60s and the development of the first black and grey, single-needle tattooing in LA in the 70s. The book lovingly reproduces entirely unpublished sheets of original flash from the likes of Bob Shaw, Zeke Owen, Tex Rowe, Ted Inman, Ace Harlyn, Ed Smith, Paul Rogers, the Moskowitz brothers, and many, many others relatively known and unknown.

*How to Learn Tattooing* Grahame David Garlick, 2014-11-14 Are you thinking about learning to tattoo? Not sure where to start? Or simply want an advantage over the competition? This book will tell you everything you need to know to get you on the right path! From how to make your portfolio stand out, to how to approach shops and much, much more. You will also get a behind the scenes view of things and advice on topics such as how much you will earn and things you may not have considered about the job. This really does give you all the information you will need to set you on the right path and advise you on if tattooing is the right career for you.

*Flash from the Bowery* Cliff White, 2011 Between these pages are images of the original acetate rubbings from Charlie Wagner's turn of the 20th century tattoo shop, The Black Eye Barbershop, in the Bowery at Chatham Square in New York. This is the only known art that has survived from this

shop, where Samuel J. O'Reilley's modern-day electric tattoo machine was born and patented. The imagery of this classic flash preserves the origins of American tattoos, when tattoo art was transferred to the client from these templates via an acetate stencil. Everything was done by hand until O'Reilley's electrified tattoo machine changed history. This rich heritage of folk art has more than 900 individual pieces of flash that provide commentary on the shop's clientele and reveal some of the social, economic, and political ideas of the time. Including nautical themes, Asian imagery, flowers, boxers, circus characters, and plenty of girls, this is an exciting collection of early American flash and a necessary book for the tattoo artist, aficionado, and student.

*Legends* Jason Brooks, 2013-06-01 *Legends* is a compilation of vintage tattoo flash and photos of some of tattoo's legendary artists. It includes work by Sailor Jerry, Mike Malone, Cap Coleman, Bert Grimm, Bob Shaw and many others.

**Christian Warlich** Ole Wittmann,2019-10-29 The original work of Christian Warlich, Europe's preeminent tattoo artist in the first half of the 20th century, is brought back to life in a stunning new volume. Christian Warlich was a world famous German tattooist and his flash book is one

of the most coveted objects in the tattoo world. It is now available in this exquisite edition that includes over three hundred hand-drawn designs restored to their original vibrant state. It also includes photographs and other archival material, much of which has never been published before. This book brings Warlich's career into new focus, reflecting the latest research on how his early years at sea may have influenced his work. Intricate renderings of cowboys and indigenous Americans, Chinese dragons and Japanese geishas, daggers, snakes, and skulls reveal not only Warlich's influence in the iconography of tattoos, but also suggest the interplay of ideas with tattooists across Europe, North America, and Asia. The book also explores how the art of tattooing was reframed during the Nazi era and how Warlich's estate helped shape the state of tattoo art today. This elegant book is invaluable in understanding the importance of Warlich to the history of tattooing.
