

Online Music

Hendrik Storstein Spilker

The Music Internet Untangled Andy Breeding, 2004 From Internet radio services to online jukeboxes and music download stores, there are scores of new options for music lovers. Breeding makes sense of these options and shows readers how to make savvy use of these services. (Technology & Industrial Arts)

Music Online For Dummies David Kushner, 2000-08-02 This timely volume, written by Spin magazine contributing author David Kushner, offers easy steps for finding, downloading, creating, and listening to music on any PC. Cybercasts, MP3, and Internet radio are among the hot trends covered in this fun and easy guide, which also includes tips on tweaking systems for optimal performance and locating the best tunes online. The CD-ROM contains links to online music sites, software for making and listening to music files, and more.

The Impact of Online Music Services on the Music Recording Industry Daniel Wiechmann, 2009-09-14 Master's Thesis from the year 2009 in the subject Communications - Multimedia, Internet, New Technologies, grade: B1, University of Glasgow, course: Media Management, language: English, abstract: The music business is one of the few industries that has trouble growing profits in its transition to digital. Digital media, downloads, mobile music streams, music flat rates, peer-to-peer networks and the rise of 'freeconomics' on the Internet are partly responsible for the reduction in CD sales in recent years. The question that is most important for the industry is how the widespread of freely available content and illegal downloading can be monetised. One approach to model around the main threats to the music industry is the development of online music services. Thus, this study is an attempt to address the issue of 'what are the opportunities and challenges posed by online music services for the music recording industry?' Referring to empirical findings of a consumer survey and expert interviews, both opportunities and challenges can be identified for the music recording industry. The opportunities

surrounding the development of these services are encouraging. Deriving from the challenges, the music recording industry must ensure that online music services are a supplement to traditional ways of consumption and do not turn into a replacement of physical music consumption. Concluding online music services have a small impact on the recording industry. The industry might benefit from closely cooperating with online music services by learning more about consumers' tastes. Nevertheless, the online businesses are struggling to break even and revenues from streaming will not overcome legal downloads or CD sales as major revenue stream anytime soon.

Online Learning in Music Judith Bowman, 2014-08-07 Online Learning in Music: Foundations, Frameworks, and Practices offers fresh insights into the growth of online learning in music, perspectives on theoretical models for design and development of online courses, principles for good practice in online education, and an agenda for future research. Author Judith Bowman provides a complete overview of online education in music, including guidelines and accreditation standards for online instruction as well as a look at current research on online learning in music. She also explores several theoretical models for online course design, development, and implementation, before presenting a creative approach to online course design, both for fully online and also for blended courses. As a whole, the book challenges stereotypical views of professors as sage on the stage or guide on the side, characterizing the online professor instead as Director of Learning. Necessary reading for all who work in online learning in music, it also suggests important ways both to prevent problems and also to resolve those that do arise.

Digital Music Distribution Hendrik Storstein Spilker, 2017-08-16 The digital music revolution and the rise of piracy cultures has transformed the music world as we knew it. Digital Music Distribution aims to go beyond the polarized and reductive perception of 'piracy wars' to offer a broader and richer

understanding of the paradoxes inherent in new forms of distribution. Covering both production and consumption perspectives, Spilker analyses the changes and regulatory issues through original case studies, looking at how digital music distribution has both changed and been changed by the cultural practices and politicking of ordinary youth, their parents, music counter cultures, artists and bands, record companies, technology developers, mass media and regulatory authorities. Exploring the fundamental change in distribution, Spilker investigates paradoxes such as: The criminalization of file-sharing leading not to conflicts, but to increased collaboration between youths and their parents; Why the circulation of cultural content, extremely damaging for its producers, has instead been advantageous for the manufacturers of recording equipment; Why more artists are recording in professional sound studios, despite the proliferation of good quality equipment for home recording; Why mass media, hit by many of the same challenges as the music industry, has been so critical of the way it has tackled these challenges. A rare and timely volume looking at the changes induced by the digitalization of music distribution, Digital Music Distribution will appeal to undergraduate students and policy makers interested in fields such as Media Studies, Digital Media, Music Business, Sociology and Cultural Studies.

Never Play Music Right Next to the Zoo John

Lithgow, 2013-10-22 A lively and lyrical picture book jaunt from actor and author John Lithgow! Oh, children! Remember! Whatever you may do, Never play music right next to the zoo. They'll burst from their cages, each beast and each bird, Desperate to play all the music they've heard. A concert gets out of hand when the animals at the neighboring zoo storm the stage and play the instruments themselves in this hilarious picture book based on one of John Lithgow's best-loved tunes.

Teaching Music Appreciation Online Bethanie L.

Hansen, 2019-10-08 In this book, readers will learn practical tips

and strategies to teach music appreciation online. As online education is a growing field, an increasing number of teachers trained in traditional/live methods find themselves now teaching online and potentially without mentors to assist them. Students are also changing, seeking highly engaged, relevant, and interactive learning opportunities that connect to their lives. Here, readers will find helpful guidance in planning curriculum, integrating multimedia assets, designing forum discussions, developing assignments, preparing rubrics, engaging in forum discussions, preparing, managing, and teaching, the course, providing feedback and grading, and following up with struggling and challenging students. The book can serve as a resource to those already teaching music appreciation online or as a comprehensive guide to those new to the field. Additionally, it may serve as a resource to instructors in other disciplines who seek to shift live-courses to the online format, as well as music appreciation instructors who would like to integrate digital or online components into traditional face-to-face courses. The book is organized into five major sections, designed to guide the novice online educator in depth while also appealing to the seasoned veteran through the ability to review each section as a stand-alone resource. Although some readers will desire to read from cover to cover, they will also be able to move in a non-linear manner from chapter to chapter, using chapters in modular form, in order to benefit from the sections that most apply to them at any given time.

Music Resources Online Andy McWain, 2015-10-01 The Best Music Resources Online: The Musician's Directory to the Web (Updated!) MUSIC RESOURCES ONLINE is a collection of the best websites online for entrepreneurial musicians. If you're trying to leverage Web 3.0 to promote and sell your music, connect with fans, teach online, write books, sell merchandise, and just make a living as a musician, then this is for you. Collected here is THE list of the most amazing sites, tools, and -- in some cases -- largely

untapped resources that can change your career as a musician forever. I put this together because musicians need a simple way to leverage the web effectively. This book is the resource guide every 21st-century musician, singer, songwriter, composer, recording engineer, and lyricist needs. It contains links, descriptions, ideas, case studies, and strategies to hundreds of amazing and useful websites all across the web that will help you do more with your music. These are the TOP music-related sites that everyone should know about -- and this list has been compiled through countless hours of research and from first-hand use of many of these resources. -Do you know where to sell your digital recordings online, including cover songs? -Do you know where to start a blog to promote your music? -Do you know how to monetize your blog or musician website? -Do you know where to register your music for worldwide broadcast royalties? -Do you know where to crowd-fund your next music project or recording? -Do you know where to teach online where millions of students can find your course materials? -Do you know where to publish a music ebook, paperback, or audiobook online? How to Use This Book This book is designed to be very useful from the first time you use it. You can browse through the listings in alphabetical order, or feel free to skip around, but the real power comes from visiting some of the sites listed here. For cross-referencing purposes, I also listed some music topics with specific suggestions on which entries to read. (You can also use your e-reader's search function to find others.) I tried to give you an extensive list of resources, but it can never be complete in this format. I have added many sites that I use often, but inclusion in this book should not be considered an endorsement. Please make sure to do your research and due diligence before signing up with any of the sites listed in this book. For those who don't know the names of many of these music-related websites and resources, alphabetical listings don't help. So feel free to start with the 'Category List' chapter if you have a specific interest. That's where some similar, related sites are listed

together so that you can find targeted sources to begin your online explorations. And for those musicians looking for an actual ACTION PLAN, I decided to include a few hypothetical Case Studies at the end of the A-Z Resource List. I wanted to give you an idea how various readers and musicians might approach these various sites and tools and put some of this new information and knowledge into immediate use. Directory of web resources for music sales, distribution, music business, performing rights, writer royalties, music production, teaching music online, PR, crowdfunding, music marketing, independent publishing, professional development, e-commerce, networking, social media, and more for all musicians, vocalists, composers, lyricists, and songwriters.

The Ultimate Digital Music Guide Michael Miller, 2012
Everything You Need to Know about Digital Music! Your hard-core, up-to-the-minute, how-to guide Download, rip, store, organize, play, stream-anything, anywhere Seriously into digital music? your home audio system * Build a whole-house digital audio system, the easy way * Choose your best next media player (Apple or otherwise) * Find and share tunes on Facebook, Twitter, Google+, and beyond

YouTube and Music Holly Rogers,Joana Freitas,João Francisco Porfírio,2023-02-23 YouTube has afforded new ways of documenting, performing and circulating musical creativity. This first sustained exploration of YouTube and music shows how record companies, musicians and amateur users have embraced YouTube's potential to promote artists, stage performances, build artistic (cyber)identity, initiate interactive composition, refresh music pedagogy, perform fandom, influence musical tourism and soundtrack our everyday lives. Speaking from a variety of perspectives, musicologists, film scholars, philosophers, new media theorists, cultural geographers and psychologists use case studies to situate YouTube as a vital component of contemporary musical culture. This book works together with its companion text *Remediating Sound: Repeatable Culture, YouTube and Music*. The ebook editions of this book are available open access under a CC BY-NC-ND 4.0 licence on bloomsburycollections.com. Open access was funded by Knowledge Unlatched.

The Music Professor Online Judith Bowman,Professor Emerita of Music Education and Music Technology Judith Bowman,2022-04-15 A practical book that provides a window into online music instruction in higher education.

All You Need To Know About Music & The Internet Revolution Conrad Mewton,2010-06-04 These are exciting times for musicians, record companies, fans - in fact, for anyone with a passion for music. The internet is bringing about a revolution in the way we produce, distribute and listen to music, and new rules, new deals, new players and new opportunities seem to be appearing every day. Where will it end? Will record companies survive? Will MP3 bring down the industry? Can today's musicians use the net to go it alone and make a living? How are the record

deals of the future going to look? How do you run your own internet record label or online radio station? Is Napster here to stay? Music & The Internet Revolution contains all of the answers, tips and know-how you need to fully embrace the Digital Age, from webcasting live concerts to reaching fans by e-mail to setting up your own website. Packed with advice, and with a fully comprehensive appendix of important web sites, it is the first definitive guide to the net's extraordinary impact on the music business.

How to Promote Your Music Successfully on the Internet David Nevue, 2011-01-01 The Internet is an incredible promotional tool for musicians. You can get radio play, grow a fan base, create a distribution channel and sell CDs and music downloads all online. Imagine how much music you'd sell if *thousands* of people heard your music every day? Most musicians, however, have no idea where to begin when it comes to online promotion. Some get as far as putting up a web site, but stop there. That's where this book will help. David Nevue, an independent musician like yourself, uses the Internet to generate well over \$70,000 a year in music-related sales. Today, David is doing the music biz full-time, having quit his day job in 2001 after making more money selling music online than working for a corporation! In this book, David will take you step by step through the same marketing strategies he's used since 1995 to promote his music successfully on the Internet. Now you too can build your own music career using the Internet -in your own time and on your own terms.

Digital Music Wars Patrick Burkart, Tom McCourt, 2006 With the rising popularity of online music, the nature of the music industry and the role of the Internet are rapidly changing. Rather than buying records, tapes, or CDs_in other words, full-length collections of music_music shoppers can, as they have in earlier decades, purchase just one song at a time. It's akin to putting a coin into a diner jukebox_except the jukebox is in the sky, or, more accurately, out in cyberspace. But has increasing copyright

protection gone too far in keeping the music from the masses? Digital Music Wars explores these transformations and the far-reaching implications of downloading music in an in-depth and insightful way. Focusing on recent legal, corporate, and technological developments, the authors show how the online music industry will establish the model for digital distribution, cultural access, and consumer privacy. Music lovers and savvy online shoppers will want to read this book, as will students and researchers interested in new media and the future of online culture.

Beyond the Charts Bruce Haring, 2000 This book takes a look at the shocking war being waged over your CD collection, a struggle that will determine who controls popular music - and to a large extent, popular culture - in the coming years. It's a battle of multinational corporate giants versus Internet entrepreneurs working out of their bedrooms, challenging the fat cats who have built fortunes on the bones of underpaid musicians. It's also a war for the hearts and minds of a new generation and a culture that doesn't feel the need to hold a plastic disc in its hands to enjoy music.

Online Music Committee on Small Business, U.S. House of Representatives, 2005-06 This hearing transcript of the Committee on Small Business of the U.S. House of Representatives includes statements and submitted reports from the following witnesses: Rick Dube, a Senior Analyst and Editor with Webnoize, which focuses on the entertainment industry's relationship with the Internet; Tom Silverman, founder and CEO of Tommy Boy Records is testifying on behalf of the RIAA --- Recording Industry Association of America; Peter Harter, Vice President for Global Public Policy and Standards of Emusic.com, the Internet's leading retailer of licensed and authorized MP3 music files; And Chuck D, recording artist and founder of Rapstation.com, which features free MP3 downloads, a television station and information for aspiring artists.

The Digital Songstream Brad Hill,2004-03 Written in a friendly, easy-to-understand way by a master musician and computer expert, The Digital Songstream will be the first-and only-reference needed for anyone wishing to enter the world of computer music.

Sell Your Music Mark W. Curran,2010-03-01 This book shows you in easy, step by step format, how to profitably sell your own recordings online. You'll read in-depth interviews, tips and tricks from independent musicians who have made thousands of dollars selling their music from home! Includes up to date lists and websites where you can promote your music for free, plus a bonus user guide on setting up your own home recording studio.

REVIEWS: From The Critics Booknews Shows how to make money selling one's own music on the Internet, with advice on recording and selling music from home, designing a music sales Web site,

becoming a guerilla music publicist, forming an online record label, and getting free publicity from TV, radio, print, and Internet media. Also gives instructions for setting up a home-based digital music studio. Appendixes list merchant account sources, music publications, online music sites, and indie music organizations, and explain Usenet, search engine placement, writing press releases, and Internet radio. The author is a music marketing consultant. Annotation c. Book News, Inc., Portland, OR (booknews.com) (Barnes & Noble) The Midwest Book Review Written by a recognized expert in online music marketing, Mark Curran's *Sell Your Music: How To Profitably Sell Your Own Recordings Online* is a comprehensive, user-friendly, step by step guide to using the Internet in order to make money from your own music. *Sell Your Music* contains extensive interviews with independent musicians who have made thousands of dollars, as well as tips, tricks, and techniques to reaching your target market and maximizing your profits while minimizing hassle. Highly recommended for all aspiring performers whether they are soloists or band members. (Midwest Book Review) Customer Reviews Extremely Useful Book! This book doesn't beat around the bush it gets right down to brass tacks of selling your own music over the internet. Curran covers all the bases, and gives detailed instructions, with plenty of diagrams. Easy to read, a great book. - Ramsay Hogan, a musician from Rhode Island, June 11, 2003 (Barnes & Noble) This is a fantastic book I would recommend to any level of musician. - Faith Rivera, Recording Artist, Emmy & Grammy Award Nominee (Amazon) Two thumbs up on an incredible book. Curran is a music marketing genius. - Gary Roman, Rock Group Romulus (Baker & Taylor) - Curran leaves no stone unturned in his methodology for finding and marketing to an online audience - Jeffrey Coronado - Alternative Music Press

Music on the Internet United States. Congress. House. Committee on the Judiciary. Subcommittee on Courts, the Internet, and Intellectual Property, 2001
