*Roulette Strategy - Dozens and Columns Using CONTROL* Johnny Depot,2012-10-31 Roulette Strategy -Dozens & Columns using C.O.N.T.R.O.L. teaches the gambler an effective and winning system when playing american roulette. Many casino players are lured to the roulette wheel, but have no idea on how to attack casino roulette. Most players over-bet and make bad decisions like betting on favorite numbers, birthdays and many other foolish things. If you want to play with the roulette odds in your favor, then you need to have a plan. My book provides a complete plan and the best part is it works for casino roulette and internet roulette. It doesn't matter if you like to take a trip to the local casino, go to vegas or play roulette online since our roulette strategy works everywhere. The fact of the matter is that most roulette players lose money. I know, since I used to be one of them. I realized that if I wanted to have a chance at beating the roulette wheel, I needed to change my thinking. I needed to quit dreaming about the wheel barrow full of money I was going to win and start concentrating on how little I would lose. My roulette strategy needed to be simple, but my approach need to change. That's when I invented C.O.N.T.R.O.L. I knew how to play american roulette, but I had no concept of how to bet. C.O.N.T.R.O.L. gave me the answers I needed by answering the important questions like how much money do I bring to play roulette, which plays do I make (no matter if I was playing casino roulette or internet roulette) and how much do I bet. In today's era you can log into your computer and play roulette online twenty four hours a day, seven days a week. You need to have some kind of control (no pun intended) to keep yourself from going broke too fast. C.O.N.T.R.O.L. completes my roulette strategy and teaches mw how to make the most money when things are going good and more importantly when to stop and cut my losses down when things are going bad.

*Online Casinos For Real Money* John Kalwin,2014-12-30 Online casinos, also known as virtual casinos or Internet casinos, are online versions of traditional casinos. Online casinos generally offer odds and payback percentages that are comparable to land-based casinos. Some online casinos claim higher payback percentages for slot machine games, and some publish payout percentage audits on their websites. Assuming that the online casino is using an appropriately programmed random number generator, table games like blackjack have an established house edge. The payout percentage for these games are established by the rules of the game. This ebook by John Kalwin will give a brief explanation on Online Casino Ground, for more information visit: <http://www.onlinecasinoground.nl>
