**Managing Screen Time in an Online Society** Oliveira, Lúcia, 2019-02-22 The number of hours individuals spend in front of screens, such as smartphones, televisions, computers, and tablets, is enormous in today's society because screen time plays a very important role in work contexts and an even more significant role in social interaction and cultural consumption. This almost compulsive relationship with screens is more evident in children and young people and can have a lasting impact on how a society approaches screen time. Managing Screen Time in an Online Society is a collection of innovative research on how screen time seduces the person to stay in the online interaction leaving her/him in a state of alienation from her/his face-to-face context. While highlighting the methods and applications of time management in the context of screen time, especially during leisure, social interaction, and cultural consumption, this book covers topics including media consumption, psychology, and social networks. This book is ideal for researchers, students, and professionals seeking emerging information on the relationship between online interaction and personal relationships.

**Applications and Usability of Interactive TV** María José Abásolo, Telmo Silva, Nestor D. González, 2019-07-04 This book constitutes the refereed proceedings of the 7th Iberoamerican Conference on Applications and Usability of Interactive Television, jAUTI 2018, in Bernal, Argentina, in October 2018. The 13 full papers presented were carefully reviewed and selected from

numerous submissions. The papers are organized in topical sections on Contexts of application of the IDTV; Design and Implementation Techniques of IDTV Content and Services; Interaction Techniques, Technologies and Accessibility of IDTV Services; Testing and User Experience of IDTV Services.

*The Past Web* Daniel Gomes, Elena Demidova, Jane Winters, Thomas Risse, 2021-06-30 This book provides practical information about web archives, offers inspiring examples for web archivists, raises new challenges, and shares recent research results about access methods to explore information from the past preserved by web archives. The book is structured in six parts. Part 1 advocates for the importance of web archives to preserve our collective memory in the digital era, demonstrates the problem of web ephemera and shows how web archiving activities have been trying to address this challenge. Part 2 then focuses on different strategies for selecting web content to be preserved and on the media types that different web archives host. It provides an overview of efforts to address the preservation of web content as well as smaller-scale but high-quality collections of social media or audiovisual content. Next, Part 3 presents examples of initiatives to improve access to archived web information and provides an overview of access mechanisms for web archives designed to be used by humans or automatically accessed by machines. Part 4 presents research use cases for web archives. It also discusses how to engage more researchers in exploiting web archives and provides inspiring research studies performed using the exploration of web

archives. Subsequently, Part 5 demonstrates that web archives should become crucial infrastructures for modern connected societies. It makes the case for developing web archives as research infrastructures and presents several inspiring examples of added-value services built on web archives. Lastly, Part 6 reflects on the evolution of the web and the sustainability of web archiving activities. It debates the requirements and challenges for web archives if they are to assume the responsibility of being societal infrastructures that enable the preservation of memory. This book targets academics and advanced professionals in a broad range of research areas such as digital humanities, social sciences, history, media studies and information or computer science. It also aims to fill the need for a scholarly overview to support lecturers who would like to introduce web archiving into their courses by offering an initial reference for students.

**MediaSync** Mario Montagud, Pablo Cesar, Fernando Boronat, Jack Jansen, 2018-03-26 This book provides an approachable overview of the most recent advances in the fascinating field of media synchronization (mediasync), gathering contributions from the most representative and influential experts. Understanding the challenges of this field in the current multi-sensory, multi-device, and multi-protocol world is not an easy task. The book revisits the foundations of mediasync, including theoretical frameworks and models, highlights ongoing research efforts, like hybrid broadband broadcast (HBB) delivery and users' perception modeling (i.e.,

Quality of Experience or QoE), and paves the way for the future (e.g., towards the deployment of multi-sensory and ultra-realistic experiences). Although many advances around mediasync have been devised and deployed, this area of research is getting renewed attention to overcome remaining challenges in the next-generation (heterogeneous and ubiquitous) media ecosystem. Given the significant advances in this research area, its current relevance and the multiple disciplines it involves, the availability of a reference book on mediasync becomes necessary. This book fills the gap in this context. In particular, it addresses key aspects and reviews the most relevant contributions within the mediasync research space, from different perspectives. Mediasync: Handbook on Multimedia Synchronization is the perfect companion for scholars and practitioners that want to acquire strong knowledge about this research area, and also approach the challenges behind ensuring the best mediated experiences, by providing the adequate synchronization between the media elements that constitute these experiences.

Tvx 16 ACM International Conference on Interactive Experiences for TV and Online Video Tvx 16 Conference Committee, 2016-10-19

**MultiMedia Modeling** Yong Man Ro, Wen-Huang Cheng, Junmo Kim, Wei-Ta Chu, Peng Cui, Jung-Woo Choi, Min-Chun Hu, Wesley De Neve, 2019-12-27 The two-volume set LNCS 11961 and 11962 constitutes the thoroughly refereed proceedings of the 25th International Conference on MultiMedia Modeling, MMM 2020, held in Daejeon, South Korea, in January 2020. Of the 171 submitted full research

papers, 40 papers were selected for oral presentation and 46 for poster presentation; 28 special session papers were selected for oral presentation and 8 for poster presentation; in addition, 9 demonstration papers and 6 papers for the Video Browser Showdown 2020 were accepted. The papers of LNCS 11961 are organized in the following topical sections: audio and signal processing; coding and HVS; color processing and art; detection and classification; face; image processing; learning and knowledge representation; video processing; poster papers; the papers of LNCS 11962 are organized in the following topical sections: poster papers; AI-powered 3D vision; multimedia analytics: perspectives, tools and applications; multimedia datasets for repeatable experimentation; multi-modal affective computing of large-scale multimedia data; multimedia and multimodal analytics in the medical domain and pervasive environments; intelligent multimedia security; demo papers; and VBS papers.

**Applications and Usability of Interactive TV** María J. Abásolo, Gonzalo F. Olmedo Cifuentes, 2022-12-16 This book constitutes thoroughly refereed and revised selected papers from the 10th Iberoamerican Conference on Applications and Usability of Interactive TV, jAUTI 2021, held in Sangolquí, Ecuador, during December 2–3, 2021. The 9 full papers included in this book were carefully reviewed and selected from 25 submissions. They were organized in topical sections as follows: □ Usability and UX; interaction techniques and accessibility; and technologies, services, and applications for interactive

digital TV.

**Applications and Usability of Interactive Television** María José Abásolo, Jorge Abreu, Pedro Almeida, Telmo Silva, 2018-04-20 This book constitutes the refereed proceedings of the 6th Iberoamerican Conference on Applications and Usability of Interactive Television, jAUTI 2017, in Aveiro, Portugal, in October 2017. The 11 full papers presented together with one invited talk paper were carefully reviewed and selected from numerous submissions. The papers are organized in topical sections on Design and Evaluation of IDTV Services and Content; IDTV Content Recommendation; Omnidirectional Video and Video Repositories; IDTV Interaction Techniques and Accessibility.

**Entertainment Computing – ICEC 2018** Esteban Clua, Licinio Roque, Artur Lugmayr, Pauliina Tuomi, 2018-09-05 This book constitutes the refereed proceedings of the 17th International Conference on Entertainment Computing, ICEC 2018, held at the 24th IFIP World Computer Congress, WCC 2018, in Poznan, Poland, in September 2018. The 15 full papers, 13 short papers, and 23 poster, demonstration, and workshop papers presented were carefully reviewed and selected from 65 submissions. They cover a large range of topics in the following thematic areas: digital games and interactive entertainment; design, human-computer interaction, and analysis of entertainment systems; interactive art, performance and cultural computing; entertainment devices, platforms and systems; theoretical foundations and ethical issues;

entertainment for purpose and persuasion; computational methodologies for entertainment; and media studies, communication, business, and information systems.

**Entertainment Computing - ICEC 2015** Konstantinos Chorianopoulos, Monica Divitini, Jannicke Baalsrud Hauge, Letizia Jaccheri, Rainer Malaka, 2015-09-24 This book constitutes the refereed proceedings of the 14th International Conference on Entertainment Computing, ICEC 2015, held in Trondheim, Norway, in September/October 2015. The 26 full papers, 6 short papers, 16 posters, 6 demos and 6 workshops/tutorial descriptions presented were carefully reviewed and selected from 106 submissions. The multidisciplinary nature of Entertainment Computing is reflected by the papers. They focus on computer games; serious games for learning; interactive games; design and evaluation methods for Entertainment Computing; digital storytelling; games for health and well-being; digital art and installations; artificial intelligence and machine learning for entertainment; interactive television and entertainment.

**Marketing Communications** Ze Zook, PR Smith, 2016-02-03 Marketing Communications provides a comprehensive overview of every aspect of marketing communications, from social media, advertising, PR and sponsorship to direct selling and merchandizing. It presents modern marketing communications theories and tools in an accessible way so readers can fully understand the landscape and achieve better results. With a plethora of examples and case studies, as well as online support material for lecturers and students, this

essential textbook will guide students and practitioners through everything they need to know about the changing face of marketing. This fully updated 6th edition of Marketing Communications features more of the underpinning theory whilst building on its impressive reputation as a leading practical textbook on the subject. Case studies and anecdotes from companies such as Campbell's Soup, Spotify, Paypal, Kraft and Nike focus on recent digital developments to bring the latest marketing tools to life. With a particular emphasis on analytics, engagement and integration, it addresses the integrated offline and online with social media approach to reflect the current state of play for marketing communications experts. This edition is also supported by a wealth of online resources, including lecture slides for every chapter and self-tests for students.

**The Official America Online Tour Guide** Tom Lichty, Jennifer Watson, 1998 No publisher description provided for this product.

The Legacy of The X-Files James Fenwick, Diane A. Rodgers, 2023-12-14 The Legacy of The X-Files examines the content and production of the show, its reception, its use of legend and folklore, its contemporary resonance in politics and society of the 21st century, and its impact and legacy on film, television, the Internet and beyond. Having converged with the early widespread use of the Internet, The X-Files became a cultural touchstone of the 1990s, transforming from a cult TV show into a pop cultural phenomenon by the end of the decade. To celebrate the 30th anniversary of The X-Files, this

collection examines the content and production of the show, its reception, its use of legend and folklore, its contemporary resonance in politics and society of the 21st century, and its impact and legacy on film, television, the Internet and beyond. The series' themes of government mistrust, conspiracy, folklore, UFology, and faith are dissected and applied to how the show spirituality resonated with post-Cold War Western society. Contributors to this collection discuss the wide-ranging impact of the television show in popular culture, from Mulder and Scully 'shippers' to the show's slogan entering the contemporary lexicon. The Legacy of The X-Files serves as an all-encompassing, multi-disciplinary, contemporary account of The X-Files, reflecting upon critical, historical, political, and social contexts, and featuring an in-depth and comprehensive introduction making it a vital work for researchers and students alike.

**Autonomous Control for a Reliable Internet of Services** Ivan Ganchev, R. D. van der Mei, Hans van den Berg, 2018-05-30 This open access book was prepared as a Final Publication of the COST Action IC1304 "Autonomous Control for a Reliable Internet of Services (ACROSS)". The book contains 14 chapters and constitutes a show-case of the main outcome of the Action in line with its scientific goals. It will serve as a valuable reference for undergraduate and post-graduate students, educators, faculty members, researchers, engineers, and research strategists working in this field. The explosive growth of the Internet has fundamentally changed the global society. The emergence of

concepts like SOA, SaaS, PaaS, IaaS, NaaS, and Cloud Computing in general has catalyzed the migration from the information-oriented Internet into an Internet of Services (IoS). This has opened up virtually unbounded possibilities for the creation of new and innovative services that facilitate business processes and improve the quality of life. However, this also calls for new approaches to ensuring the quality and reliability of these services. The objective of this book is, by applying a systematic approach, to assess the state-of-the-art and consolidate the main research results achieved in this area.

*Human-Computer Interaction – INTERACT 2019* David Lamas, Fernando Loizides, Lennart Nacke, Helen Petrie, Marco Winckler, Panayiotis Zaphiris, 2019-08-28 The four-volume set LNCS 11746–11749 constitutes the proceedings of the 17th IFIP TC 13 International Conference on Human-Computer Interaction, INTERACT 2019, held in Paphos, Cyprus, in September 2019. The total of 111 full papers presented together with 55 short papers and 48 other papers in these books was carefully reviewed and selected from 385 submissions. The contributions are organized in topical sections named: Part I: accessibility design principles; assistive technology for cognition and neurodevelopment disorders; assistive technology for mobility and rehabilitation; assistive technology for visually impaired; co-design and design methods; crowdsourcing and collaborative work; cyber security and e-voting systems; design methods; design principles for safety/critical

systems. Part II: e-commerce; education and HCI curriculum I; education and HCI curriculum II; eye-gaze interaction; games and gamification; human-robot interaction and 3D interaction; information visualization; information visualization and augmented reality; interaction design for culture and development I. Part III: interaction design for culture and development II; interaction design for culture and development III; interaction in public spaces; interaction techniques for writing and drawing; methods for user studies; mobile HCI; personalization and recommender systems; pointing, touch, gesture and speech-based interaction techniques; social networks and social media interaction. Part IV: user modelling and user studies; user experience; users' emotions, feelings and perception; virtual and augmented reality I; virtual and augmented reality II; wearable and tangible interaction; courses; demonstrations and installations; industry case studies; interactive posters; panels; workshops. The chapter 'Analyzing Accessibility Barriers Using Cost-Benefit Analysis to Design Reliable Navigation Services for Wheelchair Users' is open access under a CC BY 4.0 license.

*Tvx 15 ACM International Conference on Interactive Experiences & Online Video* Tvx 15 Conference Committee, 2015-08-17

**Cultural Ideals of Home** Deborah Chambers, 2020-03-18 Spanning the nineteenth to twenty-first centuries, this book investigates how home is imagined, staged and experienced in western culture. Questions about meanings of 'home'

and domestic culture are triggered by dramatic changes in values and ideals about the dwellings we live in and the dwellings we desire or dread. Deborah Chambers explores how home is idealised as a middle-class haven, managed as an investment, and signified as a status symbol and expression of personal identity. She addresses a range of public, state, commercial, popular and expert discourses about 'home': the heritage industry, design, exhibitions, television, social media, home mobilities and migration, smart technologies and ecological sustainability. Drawing on cross-disciplinary research including cultural history and cultural geography, the book offers a distinctive media and cultural studies approach supported by original, historically informed case studies on interior and domestic design; exhibitions of model homes; TV home interiors; 'media home' imaginaries; multiscreen homes; corporate visions of 'homes of tomorrow' and digital smart homes. A comprehensive and engaging study, this book is ideal for students and researchers of cultural studies, cultural history, media and communication studies, as well as sociology, gender studies, cultural geography and design studies.

**Interactive Storytelling** Rogelio E. Cardona-Rivera, Anne Sullivan, R. Michael Young, 2019-11-12 This book constitutes the refereed proceedings of the 12th International Conference on Interactive Digital Storytelling, ICIDS 2019, held in Little Cottonwood Canyon, UT, USA, in November 2019. The 14 revised full papers and 10 short papers presented together with 19 posters, 1 demo,

and 3 doctoral consortiums were carefully reviewed and selected from 66 submissions. The papers are organized in the following topical sections: Creating the Discipline: Interactive Digital Narrative Studies, Impacting Culture and Society, Interactive Digital Narrative Practices and Applications, Theoretical Foundations, Technologies, Human Factors, Doctoral Consortium, and Demonstrations.

*HCI International 2022 Posters* Constantine Stephanidis, Margherita Antona, Stavroula Ntoa, 2022-06-21 The four-volume set CCIS 1580, CCIS 1581, CCIS 1582, and CCIS 1583 contains the extended abstracts of the posters presented during the 24th International Conference on Human-Computer Interaction, HCII 2022, which was held virtually in June - July 2022. The total of 1276 papers and 275 posters included in the 40 HCII 2021 proceedings volumes was carefully reviewed and selected from 5583 submissions. The posters presented in these four volumes are organized in topical sections as follows: Part I: user experience design and evaluation; visual design and visualization; data, information and knowledge; interacting with AI; universal access, accessibility and design for aging. Part II: multimodal and natural interaction; perception, cognition, emotion and psychophysiological monitoring; human motion modelling and monitoring; IoT and intelligent living environments. Part III: learning technologies; HCI, cultural heritage and art; eGovernment and eBusiness; digital commerce and the customer experience; social media and the metaverse. Part IV: virtual and augmented reality;

autonomous vehicles and urban mobility; product and robot design; HCI and wellbeing; HCI and cybersecurity.

**The Palgrave Handbook of Audiovisual Translation and Media Accessibility**  
Łukasz Bogucki, Mikołaj Deckert, 2020-07-31 This handbook is a comprehensive and up-to-date resource covering the booming field of Audiovisual Translation (AVT) and Media Accessibility (MA). Bringing together an international team of renowned scholars in the field of translation studies, the handbook surveys the state of the discipline, consolidates existing knowledge, explores avenues for future research and development, and also examines methodological and ethical concerns. This handbook will be a valuable resource for advanced undergraduate and postgraduate students, early-stage researchers but also experienced scholars working in translation studies, communication studies, media studies, linguistics, cultural studies and foreign language education.
