The Maximal Subgroups of Positive Dimension in Exceptional Algebraic Groups Martin W. Liebeck, Gary M. Seitz, 2004 In this paper, we complete the determination of the maximal subgroups of positive dimension in simple algebraic groups of exceptional type over algebraically closed fields. This follows work of Dynkin, who solved the problem in characteristic zero, and Seitz who did likewise over fields whose characteristic is not too small. A number of consequences are obtained. It follows from the main theorem that a simple algebraic group over an algebraically closed field has only finitely many conjugacy classes of maximal subgroups of positive dimension. It also follows that the maximal subgroups of sufficiently large order in finite exceptional groups of Lie type are known.

Action Research Ernest T. Stringer,2013-06-20 The Fourth Edition of Ernest T. Stringer's best-selling Action Research offers easy-to-follow, clear guidelines that enable novice practitioner researchers to move comfortably through a process of inquiry and applied research.

Featuring real-life examples and providing effective solutions that foster understanding of research procedures in real-life contexts, the book offers a simple but highly effective model for approaching action research: Look: building a picture and gathering information, Think: interpreting and explaining, and Act: resolving issues and problems. Using his own experience as a guide, Stringer encourages readers to grapple with the broader political and ethical challenges that frame each inquiry. The author's engaging style makes the book especially relevant to those working with children, young adults, or people in community contexts, and is particularly relevant to those dealing with issues of diversity or with marginalized and disenfranchised groups. Clear, concise, and practical,

Stringer's accessible and engaging book is a must for students and professionals in educational, business, health, counseling, and social work settings.

Minority Women Entrepreneurs Mary

Godwyn, Donna Stoddard, 2017-09-08 How does gender and minority status shape entrepreneurial decision-making?

This question seems long overdue since minority women in the US start new businesses at four times the rate of non-minority men and women. This book is about minority women entrepreneurs in the United States. Though these women are thriving as business owners, their stories are very seldom told, and few think of minority women as successful entrepreneurs. Therefore, the first purpose of the book is to give voice and visibility to US minority women business owners. The second purpose is to explain what makes these women different from the standard white male business owners most people are familiar with. Through in-depth interviews and first-hand accounts from minority women entrepreneurs, the authors found that, in innovative and exciting ways, minority women use their outsider status to develop socially conscious business practices that support the communities with which they identify. They reject the idea that business values are separate from personal values and instead balance profits with social good and environmental sustainability. This pattern is repeated in statistical evidence from around the globe that women contribute a much higher percentage of their earnings to social good than do men, but until now there was no clear explanation of why. Using sociological and psychological theories, the authors explain why women, especially minority women, have a tendency to create socially responsible businesses. The innovations provided by the women in this study suggest fresh solutions to economic inequality and humanistic

alternatives to exploitative business policies. This is a radically new, socially integrated model that can be used by businesses everywhere. This book is intended for undergraduate and graduate students of business, sociology, race and gender studies as well as practitioners of entrepreneurship, aspiring entrepreneurs, and all those looking for new examples of holistic, sustainable and socially responsible business practices.
