Paid to Think David Goldsmith,2012-10-23 Have you ever thought about the fact that a craftsman has more and better tools to solve challenges on the job than the leader of a business or organization does?

Leadership tools are usually defined as computers, spreadsheets, data, and even experience, but in reality, leaders need thinking tools that are hard to come by, so they find themselves hunting and pecking for answers in books, at seminars, through on-the-job training programs, from mentors, and at business schools, and still, they're left with gaps. Surely, most leaders are good at what they do, but the daily challenges of their jobs, like accelerating growth, increasing productivity, driving innovation, doing more with less, and balancing work with life don't come with some sort of leadership toolkit...until now. In Paid to Think, international consultant David Goldsmith presents his groundbreaking approach to leadership and management based on research revealing the twelve specific activities that all leaders perform on a daily basis, and he provides you with each activity's accompanying tools and instructions proven to boost your performance and that of your entire organization. Take the uncertainty out of everyday leading, convert ideas to realities, and maximize your intellectual value. Learn how decision makers at some of the world's most successful organizations have already used Paid to Think's universal and easily transferable tools—regardless of their industries, sectors, geographic locations, or management levels—as their greatest advantages in achieving more, earning more, and living more.

*Easy Pay Per Lead Income* Bolakale Aremu,2015-01-18 This short tutorial is a blueprint that shares with you my experiences of how I got to the point of making over \$1000 weekly from PPL(Pay Per Lead) networks. You've probably come across CPA (Cost Per Action) and know how it's damn hard to get approved by the CPA networks. It's sad to learn that some of the most popular CPA networks are no longer accepting new applicants. I know this because I was rejected many times myself and had a very tough time getting approved by them. It's because of this I created this short but very powerful tutorial to teach you how to get accepted easily and make money from a much better network called PPL (Pay Per Lead) network. PPL is better than CPA and it's easier to make money from it if you know what to do. This tutorial teaches you step by step all the techniques to use, the very same ones I use for myself. This isn't some theory or information you can find on Google or anywhere else for that matter that is never going to work. This is a tested and trusted practice that really works! I also provide after-sales support to help you succeed so you really have nothing to worry about!

It is an extremely powerful way for local businesses to generate leads and grow sales. All too often, small business owners get frustrated with Google for a number of reasons. They feel confused, overwhelmed, and frustrated that they don't get consistent results with pay-per-click advertising. These experiences come from a variety of situations; they are spending blindly without results, they generate the wrong type of leads, they don't have the time to spend mastering this complex advertising tool (in addition to running their business), or they're working with an agency that doesn't understand their business or places them in a set and forget relationship. Even worse than all this, many local business owners are preyed upon by commission driven agencies that are bleeding

them dry by taking a high percentage of their marketing budget and putting it in their pocket. This is done without their knowledge by hiding behind sophisticated software and dashboards that mask their true costs. This book is going to break it down for you in simple and easy to understand layman's terms- showing you how you can take control and get the most out of Google Ads. You'll see firsthand how you can control your lead quality, how you can control your cost per lead, and how you have the power to get a positive return on your ad spend. You'll get a proven plan to help you achieve your sales goals along with experienced coaching that will help you take your pay-per-click game to the next level. In This Book You Will Discover 101 Strategies to Improve Lead Quality, Optimize Search Engine Marketing Campaign Performance and Increase Your Return on Ad Spend. So, if you want to take control of your lead cost, generate higher quality leads, improve response rates, and bring in traffic that turns into revenue then you want to get your hands on this book.
