National Park Adventure Guide (63 Park Edition) Nathan Anderson,2021-02
Bark Park Brandi Dougherty,2020-05-12 Series statement from publisher's website.

Gorky Park Martin Cruz Smith,2020-01-28 The “gripping, romantic, and dazzlingly original” (Cosmopolitan) Arkady Renko book that started it all: the #1 bestseller Gorky Park, an espionage classic that begins the series, by Martin Cruz Smith, “the master of the international thriller” (The New York Times). It begins with a triple murder in a Moscow amusement center: three corpses found frozen in the snow, faces and fingers missing. Chief homicide investigator Arkady Renko is brilliant, sensitive, honest, and cynical about everything except his profession. To identify the victims and uncover the truth, he must battle the KGB, FBI, and the New York City police as he pursues a rich, ruthless, and well-connected American fur dealer. Meanwhile, Renko is falling in love with a beautiful, headstrong dissident for whom he may risk everything. “Brilliant...there are enough enigmas within enigmas within enigmas to reel the mind” (The New Yorker) in this wonderfully textured, vivid look behind the Iron Curtain. “Once one gets going, one doesn’t want to stop...The action is gritty, the plot complicated, and the overriding quality is intelligence” (The Washington Post). The first in a classic series, Gorky Park “reminds you just how satisfying a smoothly turned thriller can be” (The New York Times Book Review).

Pippa Park Raises Her Game Erin Yun,2020-02-04 A CONTEMPORARY REIMAGINING

OF GREAT EXPECTATIONS FOR MIDDLE GRADERS Life is full of great expectations for Korean American Pippa Park. It seems like everyone, from her family to the other kids at school, has a plan for how her life should look. So when Pippa gets a mysterious basketball scholarship to Lakeview Private, she jumps at the chance to reinvent herself by following the Rules of Cool. At Lakeview, Pippa juggles old and new friends, an unrequited crush, and the pressure to perform academically and athletically while keeping her past and her family's laundromat a secret from her elite new classmates. But when Pippa begins to receive a string of hateful, anonymous messages via social media, her carefully built persona is threatened. As things begin to spiral out of control, Pippa discovers the real reason she was admitted to Lakeview and wonders if she can keep her old and new lives separate, or if she should even try.

Access for All Andres Lepik, Daniel Talesnik, 2019 As one of the world's megacities, São Paulo has for decades seen an investment in architectural infrastructures that attempt to mitigate its open space shortages as well as fulfill the constant need for recreational, cultural, and sports programs. These buildings and open spaces - which can be public, semi-public, or privately-owned - arguably attempt to create inclusive places for urban society. This exhibition catalogue presents projects at different scales, focusing on their programmatic characteristics rather than the formal qualities usually emphasized in scholarship on Brazilian architecture. While many cities around the world are still chasing the so-called Bilbao Effect - the creation of a monofunctional signature architectural work by a famous architect that can attract tourism - this exhibition catalogue advocates for architectural infrastructure that adds programs of different natures, and that are aimed at social sustainability for local citizens. This aspect of urban growth in São Paulo - quite a vertical and densely-populated city; a city of great resources and also tremendous poverty; a city with high crime rates; a city with severe traffic issues; a city with public-health problems - illustrates how architecture and infrastructure can contribute to a city's urban development in multiple ways.

Saving Central Park Elizabeth Barlow Rogers, 2018-05-15 The story of how one woman's long love affair with New York's Central Park led her to organize its rescue from a state of serious decline, returning it to the beautiful place of recreational opportunity and spiritual sustenance that it is today. Elizabeth Barlow Rogers opens with a quick survey of her early life--a middle-class upbringing in Texas; college at Wellesley, marriage, a master's degree in city planning at Yale. And then her move to New York, where she starts a family and, when she finds being a mother and a housewife is not enough, pours herself into the protection and enhancement of the city's green spaces. Interwoven into her own story is a comprehensive history of Central Park: its design and construction as a scenic masterpiece; the alterations of each succeeding era; the addition of numerous facilities for sports and play; and finally, the anything goes phase of the 1960s and 70s, which was often fun but nearly destroyed the park. The two narratives continue to entwine as she finds a job in the administration of Central Park, founds the Central Park Conservancy, and transforms both the park and herself--a transformation that has led to the writing of her many books, to travels that have taken her to parks and gardens around the world, and to solidifying the prestige of one of New York's most conspicuous landmarks.

The Inhabited Pathway Sebastiano Brandolini,2014 Alberto Ponis was born in Genoa in 1933 and studied at Florence University, where he qualified as an architect in 1960. He worked in London with Erno Goldfinger and Denys Lasdun in 1960 64 under the strong and lasting influence also of the movements of Modernism and New Brutalism then prevailing in the theoretical discourse in British architecture. His own studio Ponis established in 1964 in Palau, on the Italian island of Sardinia, working since on private, public and urban planning commissions. In 1990 he was awarded the INARCH prize for the Village of Stazzo Pulcheddu in Palau. Ponis often refers to the natural conditions and the social history of Sardinia when talking about his work in architecture. Besides of nature and society, he has also extensively studied the stazzo, Sardinia s typical rural building type. This thorough knowledge of conditions, traditions and requirements are the foundation of an oeuvre of more than 300 residential buildings. Each of them deeply rooted in its environment and connected with the land and other dwellings by the sentiero, the path leading to and from the house. Ponis s houses are meant to be summer homes, their inert warmth reflecting the architect s fundamental optimism. They show a natural modesty and simplicity rather than their owner s wealth or status. They express the architect s great formal skills and sensitivity. They are inconceivable without the Sardinian landscape and history and the island seems to have been expecting just these particular buildings, merging naturally with nature. The new book Alberto Ponis Sardinia is the first comprehensive monograph on this highly interesting and original yet little known architect. In five lavishly illustrated sections it documents his biography and early work, his extensive research on Sardinia, eight selected buildings created between 1965 98 that make traceable the evolution of Ponis s work, his philosophy (Thoughts and Forms), and a concluding essay on the essence of his architecture.

Subpar Parks Amber Share,2021-07-13 ****A New York Times Bestseller!**** Based on the wildly popular Instagram account, Subpar Parks features both the greatest hits and brand-new content, all celebrating the incredible beauty and variety of America's national parks juxtaposed with the clueless and hilarious one-star reviews posted by visitors. Subpar Parks, both on the popular Instagram page and in this humorous, informative, and collectible book, combines two things that seem like they might not work together yet somehow harmonize perfectly: beautiful illustrations and informative, amusing text celebrating each national park paired with the one-star reviews disappointed tourists have left online. Millions of visitors each year enjoy Glacier National Park, but for one visitor, it was simply Too cold for me!

Another saw the mind-boggling vistas of Bryce Canyon as Too spiky! Never mind the person who visited the thermal pools at Yellowstone National Park and left thinking, "Save yourself some money, boil some water at home." Featuring more than 50 percent new material, the book will include more depth and insight into the most popular parks, such as Yosemite, Yellowstone, the Grand Canyon, and Acadia National Parks; anecdotes and tips from rangers; and much more about author Amber Share's personal love and connection to the outdoors. Equal parts humor and love for the national parks and the great outdoors, it's the perfect gift for anyone who loves to spend time outside as well as have a good read (and laugh) once they come indoors.

But after a terrible ice storm destroys the pin oak, Stumpy disappears. Arthur Howard's black-and-white illustrations illuminate the companions adventures throughout.

Sigurd Lewerentz, Architect Janne Ahlin, 2014 Sigurd Lewerentz (1885-1975) was initially educated as mechanical engineer in Gothenburg. Yet it was his architectural apprenticeship in Munich 1909-10 that set him on his path as an architect, opening his own office in Stockholm in 1911. Although his built work is relatively small, Lewerentz is revered as one of Sweden's most eminent architects. Cemeteries and sacred buildings became a core part of Lewerentz's oeuvre, including Stockholm's South Cemetery (1914-17), Malmo Eastern Cemetery (1916), St. Mark's Church, Bjorkhagen (1956), and Petri Church, Klippan (1963). In association with Gunnar Asplund, he was also the main architect for the Stockholm International Exhibition (1930), and in collaboration with Erik Lallerstedt and David Hellden he created a masterpiece of functionalist architecture, the Malmo City Theatre (1935). **Sigurd Lewerentz, Architect** is a reprint of the first ever monograph on his work, originally published in English 1987 and long out of print. It tells the story of Lewerentz's life and presents his entire work in text and many photographs, drawings and plans.
