The Unexplainable Disappearance of Mars Patel Sheela Chari, 2021-04-13 Based on the Peabody Award-winning podcast, this tech-filled adventure series pits intrepid Mars Patel and his outcast friends against a brilliant, enigmatic billionaire as they race to figure out why kids are disappearing from their school. Mars Patel's friend Aurora has disappeared! His teachers are clueless. His mom is stressed out about her jobs. But Mars refuses to give up—after all, his own dad disappeared when Mars was a toddler, before he and Ma moved to Puget Sound from India. Luckily, Mars has a group of loyal friends eager to help—smart Toothpick, strong and stylish JP, and maybe-telepathic Caddie. The clues seem to point toward eccentric tech genius (and Mars's hero) Oliver Pruitt, whose popular podcast now seems to be commenting on their quest! But when the friends investigate Pruitt's mysterious, elite school, nothing is as it seems—and anyone could be deceiving them. Slick science, corporate conspiracies, and an endearingly nerdy protagonist make this first book in the series a fresh, exciting sci-fi adventure.

Between Life and Death: From Despair to Hope Kashyap Patel, 2020-08-17 Dr Kashyap Patel is a renowned oncologist in the US who works with terminally ill cancer patients. Through him, we meet Harry, who, after a life full of adventure, is diagnosed with terminal lung cancer. As he stares death in the face, Harry leans on Dr Patel, an expert in understanding the process of death and dying. His questions and fears are addressed through the stories of many other patients that Dr Patel has treated—from the young and vivacious to those who had already lived full lives, from patients who could barely afford their rent to those who had been wildly successful. What ties these stories together is the single thread of the lessons Harry learns along the way, lessons that ultimately enable him to plan his own exit from the world gracefully-dying without fear.

The Trouble with Hating You Sajni Patel, 2020-05-12 A fiercely independent engineer walks out on the man her parents have set her up with -- only to start working side-by-side with him at her job in this laugh-out-loud debut with delicious banter, deep wounds, heartwarming friendships, and a path to love that often feels impossibly hard, and [a payoff] satisfying enough to give you a book hangover the size of Texas (Sonali Dev, USA Today bestselling author of *Recipe for Persuasion*). Liya Thakkar is a successful biochemical engineer, takeout enthusiast, and happily single woman. The moment she realizes her parents' latest dinner party is a setup with the man they want her to marry, she's out the back door in a flash. Imagine her surprise when the same guy shows up at her office a week later -- the new lawyer hired to save her struggling company. What's not surprising: he's not too thrilled to see her either after that humiliating fiasco. Jay Shah looks good on paper...and off. Especially if you like that whole gorgeous, charming lawyer-in-a-good-suit thing. He's also infuriating. As their witty office banter turns into late-night chats, Liya starts to think he might be the one man who truly accepts her. But falling for each other means exposing their painful pasts. Will Liya keep running, or will she finally give love a real chance?

Government Gangsters Kash Pramod Patel, 2023-09-26 "A brilliant roadmap highlighting every corrupt actor, to ultimately return our agencies and departments to work for the American People...we will use this blueprint to help us take back the White House and remove these Gangsters from all of Government!" —Donald J. Trump The highest levels of government have been infiltrated by an anti-democratic Deep State that can be defeated by refocusing our national security mission and relentlessly defending the truth. A sinister cabal of corrupt law enforcement personnel, intelligence agents, and military officials at the highest levels of government plotted to

overthrow a president. Even after they failed, they continue to secretly pull the levers of power without any accountability to the American people. This isn't the synopsis of a fictional spy thriller. This is what is actually happening in the United States government. In *Government Gangsters*, Kash Patel—a former top official in the White House, the Department of Defense, the Intelligence Community, and the Department of Justice—pulls back the curtain on the Deep State, revealing the major players and tactics within the permanent government bureaucracy, which has spent decades stripping power away from the American people and their elected leaders. Based on his firsthand knowledge, Patel reveals how we can defeat the Deep State, reassert self-government, and restore our democracy.

Kaikeyi Vaishnavi Patel, 2022-04-26 An instant New York Times bestseller and Tiktok sensation, Vaishnavi Patel's stunning debut *Kaikeyi* reimagines the life of the infamous queen from Indian epic the Ramayana... The only daughter of a king, Kaikeyi watches as her mother is banished and her own worth is reduced to what marriage alliance she can secure. Although she was raised on stories of the might and benevolence of the gods, her prayers for help go unanswered. She turns to her mother's library and discovers a magic that is hers alone. With this power, Kaikeyi transforms herself from an overlooked princess into a warrior, diplomat and favoured queen, determined to carve a better world for herself and the women around her. But when evils from her childhood stories threaten her world, the path she has forged clashes with the destiny the gods have chosen for her family. Kaikeyi must decide if resistance is worth the destruction it will wreak - and what legacy she intends to leave behind. A must for readers of historical and mythological retellings such as Madeline Miller's *Circe* and Jennifer Saint's *Ariadne*, this powerful debut weaves a tale of an extraordinary woman determined to leave her mark in a world where gods and men dictate the shape of things to come. Praise for *Kaikeyi*: 'Mythic retelling at its best' R. F. Kuang, author of *The Poppy War* 'Utterly captivating from start to finish' Genevieve Gornichec, author of *The Witch's Heart* 'Brave, compassionate and powerful' Tasha Suri, author of *The Jasmine Throne* 'A lyrical and evocative retelling, full of power and grace' Ava Reid, author of *The Wolf and the Woodsman* 'Compulsively readable and infinitely compassionate' Roshani Chokshi, author of *The Gilded Wolves* 'A thought-provoking, nuanced new look at one of humanity's most foundational stories' S. PADDY & PATEL N. D. Patel, 2019-09-24 This book presents ground-breaking evidence of an Indian presence and influence in Eire from 1500 BC to 300 AD. It reveals the earliest ancestry common to both Irish and Indians through historical, geographical, linguistic and archaeological evidences. The book is the first of its kind to include translations of Gaelic to Gujarati and then to English. This is the authors own translation as none of it is found in or taken from other textbooks. In his preface the late Professor King has written "The present writer is able to say that the proposition made by Doctor Patel that the earliest ancestors of the Irish were the Hindus of the western coasts of India and that his transliteration from Gaelic to Gujarati to English are credible and entirely possible." and "It is with

great delight that in keeping with the traditions of the British, European, North American and Indian/Pakistani Universities in which I stand, I recommend this fine piece of work to the reader, leaving him or her to make up their own minds and enjoy the process.

Stuffed and Starved Raj Patel, 2012-06-05 Completely updated and revised edition of one of the most widely-praised food books of recent years. It's a perverse fact of modern life: There are more starving people in the world than ever before, while there are also more people who are overweight. To find out how we got to this point and what we can do about it, Raj Patel launched a comprehensive investigation into the global food network. It took him from the colossal supermarkets of California to India's wrecked paddy-fields and Africa's bankrupt coffee farms, while along the way he ate genetically engineered soy beans and dodged flying objects in the protestor-packed streets of South Korea. What he found was shocking, from the false choices given us by supermarkets to a global epidemic of farmer suicides, and real reasons for famine in Asia and Africa. Yet he also found great cause for hope—in international resistance movements working to create a more democratic, sustainable and joyful food system. Going beyond ethical consumerism, Patel explains, from seed to store to plate, the steps to regain control of the global food economy, stop the exploitation of both farmers and consumers, and rebalance global sustenance.

Wof: Vallabhbhai Patel Sardar Patel, 2017-10 Vallabhbhai Patel, popularly known as Sardar Patel, was one of India's towering leaders, whose contribution to the Indian Republic is immense. Inspired by Mahatma Gandhi to join the freedom struggle, Patel was at the forefront of the Quit India movement, and was arrested by the British a number of times. After Independence, he served as India's first home minister and deputy prime minister. A successful lawyer, he used his legendary negotiation skills to unite the 550 princely states and colonial provinces under the Union of India, to create the nation we know today. The speeches and writings collected here showcase Vallabhbhai Patel's unique vision for his beloved country—his staunch belief in communal harmony, benefits of freedom for all citizens and in peace and cooperation between different regions.

We Need to Build Eboo Patel, 2022-05-10 From the former faith adviser to President Obama comes an inspirational guide for those who seek to promote positive social change and build a more diverse and just democracy. The goal of social change work is not a more ferocious revolution; it is a more beautiful social order. It is harder to organize a fair trial than it is to fire up a crowd, more challenging to build a good school than it is to tell others they are doing education all wrong. But every decent society requires fair trials and good schools, and that's just the beginning of the list of institutions and structures that need to be efficiently created and effectively run in large-scale diverse democracy. *We Need to Build* is a call to create those institutions and a guide for how to run them well. In his youth, Eboo Patel was inspired by love-based activists like John Lewis, Martin Luther King Jr., Badshah Khan, Mahatma Gandhi, Mother Teresa, Dorothy Day, Abraham Joshua Heschel, and Thich Nhat Hanh. Their example, and a timely challenge to build the change he wanted to see, led to a life engaged in the particulars of building, nourishing, and sustaining an institution that seeks to promote positive social change—Interfaith America. Now, drawing on his twenty years of experience, Patel tells the stories of what he's learned and how, in the process, he came to construct as much as critique and collaborate more than oppose. His challenge to us is clear: those of us committed to refounding America as a just and inclusive democracy need to defeat the things we don't like by building the things we do.

Stuffed And Starved Raj Patel, 2007 For those with enough money—and that's most of us in wealthier countries—life is good. We can eat almost anything we want, regardless of where it comes from, what season it is or how much it costs. The world is our dish, laden

with more foods than we've ever seen in history and more calories than we know what to do with. A continent away, there are more bloated bellies, but this time from malnutrition—seemingly due to a scarcity of food. But these two contrasting worlds are linked, deeply and inextricably. In a timely look at the entire global food chain, *Stuffed and Starved* asks us to think about the way our food comes to us, to understand how our supermarket shopping makes us complicit in denying freedom to the world's poorest and to recognize how we ourselves are poisoned by our choices. Raj Patel, an author uniquely qualified to take a long, broad view of world food production, looks at food systems—the machine most of us don't even know exists—and the web made up of corporations, the World Bank, the World Trade Organization, farmers' groups, government agencies and corporate lobbyists. From farm to fork, Patel travels to rural collectives in Brazil, investigates the all-powerful distribution networks, serves up the specific journeys of coffee, soy and high-fructose corn syrup, and visits the kitchens of fast-food restaurants. What he uncovers is the shocking story of commercial greed and helpless hunger that is a key ingredient in everything we eat. *Stuffed and Starved* is one of the most shocking investigations into the “haves” feeding off the “have-nots” and a compelling look at how we all suffer the consequences of a food system cooked to a corporate recipe.

Inflamed Rupa Marya, Raj Patel, 2021-08-03 Raj Patel, the New York Times bestselling author of *The Value of Nothing*, teams up with physician, activist, and co-founder of the Do No Harm Coalition Rupa Marya to reveal the links between health and structural injustices--and to offer a new deep medicine that can heal our bodies and our world. The Covid pandemic and the shocking racial disparities in its impact. The surge in inflammatory illnesses such as gastrointestinal disorders and asthma. Mass uprisings around the world in response to systemic racism and violence. Rising numbers of climate refugees. Our bodies, societies, and planet are inflamed. Boldly original, *Inflamed* takes us on a medical tour through the human body—our digestive, endocrine, circulatory, respiratory, reproductive, immune, and nervous systems. Unlike a traditional anatomy book, this groundbreaking work illuminates the hidden relationships between our biological systems and the profound injustices of our political and economic systems. Inflammation is connected to the food we eat, the air we breathe, and the diversity of the microbes living inside us, which regulate everything from our brain's development to our immune system's functioning. It's connected to the number of traumatic events we experienced as children and to the traumas endured by our ancestors. It's connected not only to access to health care but to the very models of health that physicians practice. Raj Patel, the renowned political economist and New York Times bestselling author of *The Value of Nothing*, teams up with the physician Rupa Marya to offer a radical new cure: the deep medicine of decolonization. Decolonizing heals what has been divided, reestablishing our relationships with the Earth and one another. Combining the latest scientific research and scholarship on globalization with the stories of Marya's work with patients in marginalized communities, activist passion, and the wisdom of Indigenous groups, *Inflamed* points the way toward a deep medicine that has the potential to heal not only our bodies, but the world.

Where There is No Psychiatrist Vikram Patel, 2003 Even though mental illnesses are common and cause great suffering in every part of the world, many health workers have a limited understanding about mental health and are less comfortable dealing with mental

illness. This book is a practical manual for mental health care for the community health worker, the primary care nurse, the social worker and the primary care doctor, particularly in developing countries. After giving the reader a basic understanding of mental illness, the book goes on to describe more than 30 clinical problems associated with mental illness and uses a problem-solving approach to guide the reader through their assessment and management. Mental health issues as they arise in specific health care contexts are described, for example in a refugee camp, a school health programme or with people suffering from AIDS, as well as in mental health promotion. The final section combines quick reference information for common problems and it also includes chapters for the reader to personalise the manual for a particular location, for example, by entering local information on voluntary agencies, the names and costs of medicines and words in the local language for emotional symptoms.
