*Deal with Your Debt* Liz Weston, 2013-02-19 Struggling with debt? Get realistic help that's actually useful, from Liz Weston, one of the most popular and respected personal finance experts! Today, people struggling with debt have far fewer options: lenders are stingier, which makes it harder to avert disaster, or to recover from setbacks like foreclosure, short sales, or bankruptcy. (Meanwhile, people with good credit have more options than ever, including some of the lowest interest rates in decades.) You need an up-to-date guide that can help you assess options, find help, discover opportunities, and take action that works. Liz Weston's *Deal with Your Debt*, Updated and Revised Edition is that guide. Weston reveals why most conventional wisdom about debt is just dead wrong. For most people, it's simply impractical to pay off every dime of debt, and live forever debt free. In fact, doing that can leave you a lot poorer in the long run. You're more likely to give up, or pay off the wrong debts. You could leave yourself too little flexibility to survive a financial crisis. You could neglect saving for retirement. You might even wind up in bankruptcy -- just what you're trying to avoid! For most people, it's smarter to control and manage debt effectively. In this extensively updated guide, Weston shows how to do that. You'll learn which debts can actually help build wealth over time, and which are simply toxic. You'll find up-to-date, real-world strategies for assessing and paying off debt, money-saving insights on which debts to tackle first, and crucial information about everything from debt consolidation loans to credit scores and credit counseling. Weston offers practical guidelines for assessing how much debt is safe -- and compassionate, realistic guidance if you've gone beyond the safety zone. If you've ever worried about debt, you'll find the new edition of *Deal with Your Debt* absolutely indispensable.

**Top 10 Secrets for Managing Credit Cards and Paying Bills Successfully** Therese M. Shea, 2013-07-15 Most teens learn about managing credit and other financial matters from their parents. But with the average American family carrying more than \$7, 000 in credit card debt, teens clearly need additional sources of information about personal finance. In this book, the author shares ten simple rules, or secrets, for managing bills successfully and avoiding the debt trap. *Pay It Down!* Jean Chatzky, 2009-10-07 Jean Chatzky has been working with viewers of NBC's Today show for a series on how to get out of debt once and for all. Her method, both on TV and in this book, is simple yet powerful: the key is saving just \$10 a day that you currently waste. It doesn't sound like much—a movie ticket or lunch for two at McDonald's— but \$10 really can take you from debt to wealth in just a few years. And because it

doesn't feel like an impossible goal, people are more likely to stick with Chatzky's plan than an extreme regimen of spending cutbacks. Chatzky is focusing on debt because it's the single biggest threat to our financial health. The average American family has sixteen credit cards and high-rate debt of more than \$8000, not even counting car loans and mortgages. They pay more than \$1000 a year in interest alone. Debt makes people feel depressed and overwhelmed, leaving them without enough money for the truly important things in life—education, retirement, owning a home, feeling secure. Chatzky, one of America's most popular personal finance experts, writes in down-to-earth, woman-next-door language about how to get started right away, without giving up the things that truly give you pleasure. She offers practical, accessible strategies to help readers find the money to pay off their bills, lower their interest rates, and improve their credit scores. Featuring real-life examples of people featured on her Today show series, *Pay It Down* can transform debtors into future millionaires.

**Deal with Your Debt** Liz Weston,2005 Most people carry debt for most of their adult lives. Yet, most books on debt focus mainly on how to pay it all off, and live forever without it. Too often, following that advice leads only to failure. People either give up, or pay off the wrong kinds of debt. They strand themselves with too little flexibility to survive a financial crisis -- and land in bankruptcy court. They neglect saving for retirement, homes, or college, and end up poorer than they might have been. For most people, it's more realistic -- and smarter -- to control and manage debt effectively, rather than eliminating it completely. Debt Smart shows how. Award-winning personal finance columnist Liz Weston explains the rules and explodes the myths surrounding debt. Discover the crucial role debt can play in a portfolio, identifying debts that actually contribute to wealth and flexibility, while avoiding or eliminating "toxic" debts. Weston presents effective strategies for evaluating, monitoring, and paying every form of debt, from credit cards and mortgages to student and auto loans. She offers practical guidelines for how much debt one should take on. Find realistic (and often surprising) guidance on everything from home equity loans and 401K borrowing to small business loans.
