Image Makers Image Takers Anne Celine Jaeger,2010-11-02 For professionals and beginners alike: a behind-the- scenes look at how photographers of world stature approach their work, and what it is that makes them succeed. This essential guide draws on in-depth interviews with established photographers from the fields of fashion, art, portraiture, documentary photography, and advertising as well as comments from picture editors, curators, agency directors, and publishers who reveal what they look for when choosing an image. The book first focuses on photographers' working practices. What made the photographer start taking pictures? How did he or she develop a signature style? What is the process involved in going from concept to shoot? How important is postproduction? Then the book turns to selection. How does a picture editor decide which photographer to commission for the next fashion spread? What kind of photograph is worthy of being hung in a gallery? What advice would an art book publisher give a budding photographer? Whether it is the question of what to look for in an image, views on cropping, or the pros and cons of color versus black and white, the shapers of taste give acute and useful accounts of their methods. This updated edition includes five new interviews: Pascal Dangin, who pioneered a revolutionary digital scanning technique; Fabrice Dall'Anese, a celebrated French portrait photographer for Vanity Fair, GQ, Elle, and others; Jörg Colberg, creator of the photography blog, Conscientious; Jihad Nga, a self-taught photographer whose focus has recently shifted from photojournalism to fine art photography; and Tim Barber, who launched tinyvices.com in 2005, an online gallery and image archive.

The Image Maker Avis Cole Attaway LMFT,2018-07-03 We all begin life with dreams. We believe in magic, like Santa Claus and the Tooth Fairy. Nothing seems to be out of our reach. Over time, however, we learn differently. We are told to stop dreaming and to get our head out of the clouds. We are told that if we want something, we just need to work hard for it. But even with hard work and persistence, those things we desire often remain elusive and just out of reach. We try to think positivelyand still nothing changes. Life begins to feel like something that appears to work for others, but not for us. We may even begin to think that we might be cursed, because nothing we do seems to turn out as we had hoped. Or perhaps those dreams have come true, yet we dont feel as happy or contented as we had expected. Something seems to prevent us from experiencing any joy or satisfaction in life. Life is not what we had imagined. Imagining is the key. We can create the life of our dreams through the correct use of our mind, and construct a new way of being that feels authentic and joyful. The Image Maker will lead you into explorations of your life from every angle and encourage your examination of the conscious and subconscious beliefs that are currently running your life. Then, with this information in hand, you will be ready to make new choices that will start you on the path of your dreams

Once the pages of this story touched my hands, I could not let go. -Mark Foreman ...the book is at its best when the author's use their creativity to integrate themes of science or to explore motives and other dimensions, adding richness to the world they've created and layers to our understanding of the true Story of stories. -Dr. Richard Olsen This face-paced and thought-provoking tale is a thoroughly entertaining read! -Leanne Hillary
