Complete Guide to High Dynamic Range Digital Photography Ferrell McCollough,2008 It's the latest and hottest technique, made possible only through digital. High Dynamic Range photography is the process of taking several pictures of a scene at various exposures, then merging them into one file. So the entire photo can look crisp and detailed, from highlights to midtones to shadows and photographers needn't sacrifice any part of their image. And the best way to master this exciting technology is with this thorough, easy-to-follow, and visually spectacular guide. No other title does justice to these cutting-edge techniques, which actually take the viewer into worlds far beyond normal photography—sometimes even beyond normal human perception. Ferrell McCollough, a widely respected photographer, pushes the boundaries and inspires others to pursue their artistic vision, too. The amazing results simply can't be achieved any other way.

PHOTO ART THERAPY Jerry L. Fryear,Irene E. Corbit,1992-01-01 PHOTO ART THERAPY: A JUNGIAN PERSPECTIVE illuminates and guides the reader through new possibilities for art therapy practice, approached by the authors as a creative interaction with different artistic media and therapeutic methods. Although the book is based on Jungian theory and practice, the authors carefully explore cooperation with other therapeutic perspectives, all of which are in keeping with Jung's belief in transcendent universals and multifaceted therapeutic practices. The book is divided into four sections: Self-Understanding, Alleviating Distress and Symptoms, Group Therapy, and Discussion. Wherever possible and practical, photo art therapy work done by clients as illustrations of the concepts is included. The text not only demonstrates innovative ways of combining artistic media but allows clients to articulate the inner workings of the therapeutic process through an engaging series of dialogues and narrations. The book establishes a twofold landmark in elucidating art therapy's close and vital connections to both phototherapy and the discipline of Jungian psychotherapy.

The Endings Caitlin Cronenberg,Jessica Ennis,2018-09-04 Featuring some of today's most beloved actors, these piercing photographic vignettes capture female characters in the throes of powerful emotional transformations. Photographer Caitlin Cronenberg and art director Jessica Ennis collected stories of heartbreak, relationship endings, and new beginnings—fictional but often inspired by real life—and set out to convey the raw emotions that are exposed in those most vulnerable of states. Collaborating with celebrated talents such as Julianne Moore, Keira Knightley, and Gugu Mbatha-Raw, Cronenberg and Ennis developed each character, built her world, and then photographed as she lived the role before the camera. The resulting collection is a bold look at the experience of losing or leaving love and will speak to anyone who appreciates art, photography, and the strength of facing emotional depths head-on.
