

Planet Dignities

Emil Lips

Essential Dignities J. Lee Lehman, 1989-01-01 In this exciting new book, Dr. Lehman recovers an important ancient aspect of astrology which has become misunderstood and diluted; rulerships. By attempting to simplify astrology, contemporary sources have completely obscured the essential differences between planet, sign, and house. While the novice may benefit from this simplification, much of the old logic of the rulership system is covered up. By researching ancient manuscripts and sources, the ancient system of essential dignities or planetary rulerships is recovered and made available once again to the contemporary astrologer. What was nearly lost is given new power and the potential for understanding. A wealth of information is presented in a clear and concise way with many accurate charts.

Horary Astrology: Plain and Simple Anthony Louis, 1998 Here is the best how-to guide for the intermediate astrologer on the art of astrological divination. Horary astrology is the best method for getting answers to questions of pressing personal concern: Will I ever have children? Should I buy that lakefront property? What happened to my car keys? When used wisely, horary acts like a trusted advisor to whom you can turn in times of trouble.

The Jewel of Annual Astrology Martin Gansten, Balabhadra Daivajña, 2020-08-03 The Jewel of Annual Astrology is an encyclopaedic treatise on Tājika or Sanskritized Perso-Arabic astrology, dealing particularly with the casting and interpretation of anniversary horoscopes. Authored in 1649 CE by Balabhadra Daivajña, court astrologer to Shāh Shujā' – governor of Bengal and second son of the Mughal emperor Shāh Jahān – it casts light on the historical development of the Tājika school by extensive quotations from earlier works spanning five centuries. With this first-ever scholarly edition and translation of a Tājika text, Martin Gansten makes a significant contribution not only to the study of an important but little known knowledge tradition, but also to the intellectual historiography of Asia and the transmission of horoscopic astrology in the medieval and early modern periods.

APOCATASTASIS (Paperback) Emil Lips, 2016-03-04 Strokes of genius come rarely in life. This is one of those. APOCATASTASIS* is an extraordinary work. In simple, clear language, Lips takes the reader to a deeper understanding of the planets, their dignities and debilities, and on to a world formula that brings order to chaos and that will change our world-view. The experienced teacher Heisenberg would only examine the work of his pupils when the result was simple and aesthetically beautiful. The result presented by Lips is simple and beautiful. His astrological research has enabled him to discover the law that thinkers of all cultures have been searching for since time immemorial. The principles of his symmetrical theory are now seen to be inevitable. * not to be confused with the Christian or Stoic meaning of this term, is the astrological teaching of the eternal cycle of the celestial rulers (planets) and their rulership over all things and the zodiac signs.

A Tiny Universe Joy Usher, 2018-05-31 A Tiny Universe is a textbook which is based on Thema Mundi, a symbolic chart of the planets positions at the beginning of humankind's existence. Thema Mundi has existed as the teaching tool for astrological techniques since Hellenistic times and traditional sources from Greek, Persian, Arabic and Hebrew origins used the mythical representation of the Birth-chart of the Universe as a model for their evolving theories on astrology over the centuries. A Tiny Universe explores the seven original planets and their meanings and discusses the planets role, both in general through the time periods of life, and specifically through the astrology chart. The judgement of a planets condition under the terms of the Essential and Accidental Dignities is featured and the Friendships and Enmities which exist between various planets is discussed in the book. Thema Mundi embraces the process of life which begins with the four qualities, leads to the roots which we call the elements, and completes its journey at the twelve zodiac signs. The final chapters highlight the importance of the twelve houses which set the planets into specific areas of an individual's life through the astrology chart. A Tiny Universe takes a modern look at a very old chart as Thema Mundi introduces the planets, the qualities, the signs, and the houses, to the reader who is interested in astrology from the novice astrologer, to the practitioner, who wishes to gain a deeper understanding of the origins of their craft.

Delineation with Astrodynes Ken Stone, 2009-08 Discusses planetary power & harmony, planets,

signs & houses, aspects, temperament, health, vocation, compatibility, progressions, & overall delineation of the chart, all from the perspective of astrodynes. This method has allowed a greater precision in interpretation of birth charts the method mathematically determines the relative power in a horoscope so much of the guesswork is taken out of chart interpretation. A number of examples illustrate the author concepts.

Astrology Kevin Burk,2001 In *Astrology: Understanding the Birth Chart*, Kevin Burk takes you step-by-step from the core basics to the finer complexities of chart interpretation while avoiding sidetracks into obscure techniques and fuzzy thinking. As a teacher, Burk also understands that a real grasp of the subject entails more than just learning the techniques-it also involves grasping the underlying principles that make those techniques valid. *Astrology: Understanding the Birth Chart* is designed to be useful to all students of astrology, from beginners to more advanced practitioners, and will help you develop an integrated, synthesized approach to understanding the birth chart. You will discover how classical astrology can enrich your understanding of the planets, signs, and houses. You will explore the meaning of the Lunar Nodes, eclipses, the angles, retrograde planets, and aspect patterns. You will also learn how to identify key themes in the chart, and how to relate the different aspects and elements together to gain a holistic understanding of the birth chart-and of the individual. An up-to-date listing of astrological organizations and software programs is included that offers a wealth of resources for any astrologer. In short, this is a well-designed course that provides a solid foundation for anyone who is interested in practicing astrology quickly and with confidence. While many books at this level simply give you a set of techniques and ready-made interpretations, this book will give you a deeper grasp of an art and science that has its expression in the world around us, but its roots in the invisible world of primal origins.

Tarot Decoded Elizabeth Hazel,2004-05-01 Most readers interested in tarot own a couple of different decks as well as some tarot cookbooks that explain the meaning of the cards and their symbolism--like Cliff Notes for tarot. These tarot tools result in fairly standard, mundane readings. But there is another level to tarot--a level that can turn an ordinary tarot reader into a true adept. *Tarot Decoded* transforms ordinary tarot readings into readings that are profound and even surprising by explaining the use and significance of tarot dignitaries. Tarot dignitaries are the interaction of the cards with each other in a spread and within a range of correspondences. Tarot author Elizabeth Hazel presents a concise, useable system for working with tarot dignities to add incredible depth to readings. One card placed next to another might not have a readily apparent connection--but interpreting tarot dignities could make it very clear that one card enhances, or hinders, the meaning of another. The same is true for tarot neighborhoods within a spread as well as the entire reading. Using the *Tarot Decoded* system for working with tarot dignities can take anyone to the next level of tarot reading. The book offers a progressive look at the cards, their dignities, and their correspondences. With Hazel's advice and clear examples--and a little practice--readings take on a new depth, integration, and power.

The Pluto-Janus connection, Self-development and evolution.

Horary Astrology William Lilly,2021-07-09 Horary Astrology, the chief subject in this work. may be speedily learned by any person of even moderate abilities; and may, as far as regards its elementary difficulties, be mastered in a few days' study. It may be well understood, and reduced to constant practice in less than a quarter of a year, and no one will find himself at a loss for occasions to test its reality or its utility; for his own avocations, and the affairs of his friends, will offer these almost daily. If a proposition of any nature be made to any individual, about the result of which he is anxious, and therefore uncertain whether to accede to it or not, let him but note the hour and minute when it was first made, and erect a figure of the heavens, as herein taught, and his doubts will be instantly resolved. He may thus, in five minutes, learn infallibly whether the affair will succeed or not; and, consequently, whether it is prudent to adopt the offer made or not. If he examine the sign on the 1st house of the figure, the planet therein, or the planet ruling the sign, will exactly describe the party making the offer, both in person and character; and this may at once convince the inquirer for truth of the reality of the principles of the science.

An Introduction to Astrology William Lilly,2023-12-23 This book is one of the most famous post-classical astrological works. The author William Lilly obviously has very good instincts. His famous prediction of the Great Fire of London in 1666 was so accurate that some people suspected that he was his initiator, and he was later found not guilty. Lilly also uses astrology in medical practice. This book discusses the use of astrology in diagnosing diseases and determining whether patients will die or get better. This book was first published in 1647 as Christian astrology.

The Influence of the Stars: A book of old world lore Rosa Baughan,2021-05-18 This book is a monograph on astrology, containing the results of years of research. Among all disciplines that have attracted the attention of the world at any time, there is no one older than astrology. But until recently, this generation never seemed to care about the basis for this belief to be supported for so many years. In the past ten years—perhaps as a response to our long-repressed realism—a new interest in these old-world beliefs has emerged, and this book was written to satisfy this interest.

Planetary Powers Patti Tobin Brittain,2011-05 Planetary Powers is a comprehensive book on the Morin Method of Horoscope Interpretation. It begins with examples of the fundamental principles and steadily advances to the full techniques. Each principle and technique is illustrated with examples. Each of the book's sections focuses on a specific factor of horoscope interpretation. The Morin Method is a practical and useful set of rules that results in accurate chart interpretation. Familiarity with the *Astrologia Gallica*, the works of John-Baptiste Morin, although desirable, is unnecessary in order to use

the Morin Method of Horoscope Interpretation. Section I covers planetary powers, including theory of determinations, houses, signs, planets, essential dignities and debilities, natural and acquired analogy, and analogy of the planets with the houses. Section II explains the cosmic state of the planets in relationship with the houses. Topics covered are benefic and malefic planets, dispositors, peregrine planets, determination through house position and rulership, cause and effect, conjunctions, and determining combination by analogy. Section III discusses the Morin Method regarding determination by actual location, empty house judgment, affairs signified by the houses, determination and evaluation of the effect of a planet in a house, the houses of life and death, and the power of aspects. The book concludes with numerous charts for study. To my knowledge this book is the best available instruction manual for the Morin Method.-James Herschel Holden, translator of eleven books of the Astrologia Gallica series by John-Baptiste Morin

Horary Astrology Re-Examined Barbara Dunn, 2011-12-16 Horary Astrology Re-examined is a detailed and highly informative book, demonstrating clearly and unambiguously that traditional methods are applicable to all astrology. There is no division between different 'branches'. Barbara Dunn examines the methods by which astrologers of the past evaluated planetary strengths in order to make a judgement on a Question, Nativity, Election or any other type of chart. These evaluations provide a platform for judgement today, in just the same way as they did over a thousand years ago. For all charts, the process of evaluation is broadly the same, what Coley calls the 'short comprehensive and approved rules of Art'. The focus of this work is Questions and the aim practical rather than philosophical.
