V. K. Subramanian

Asteroids in Synastry Emma B. Donath, 1977 Though individual asteroids or planetoids orbiting between Mars and Jupiter may be small, they are bound to exert influences in the horoscope. In light of this conclusion, they must also exert the same type of cross chart influence in the area of relationships. With this premise, Emma Belle Donath wrote *Asteroids in Synastry*. Using her vast store of mythological as well as astrological lore, she tells the myths of the four major asteroids, as well as giving keyword lists and rulerships for each. In the body of the book she gives delineation of the asteroids using the most accepted forms of synastry (person A's planets in person B's chart and vice versa). In addition, she gives some of the major aspect configurations between charts, and takes a brief look at composite charts and contact cosmograms. Several example charts are used to illustrate asteroid use in this manner. This is the definitive text for using asteroids in synastry.

Delineation with Astrodynes Ken Stone, 2009-08 Discusses planetary power & harmony, planets, signs & houses, aspects, temperament, health, vocation, compatibility, progressions, & overall delineation of the chart, all from the perspective of astrodynes. A number of examples illustrate the author concepts.

The Complete Node Book Kevin Burk, 2003 This book is the first comprehensive guide to the Moon's nodes--probably the most misunderstood points in astrology. The nodes are not planets, but the points on your birth chart where the orbit of the Moon around the Earth crosses the ecliptic. The nodes are the key to understanding your spiritual purpose for this lifetime. The South Node reveals the lessons, talents, and abilities you mastered in past lives, while the North Node shows you how to

best use your past-life skills for spiritual growth, happiness, and success in this life. The Complete Node Book presents a new and empowering perspective on the nodes. It defines and analyzes the specific lessons and challenges presented by each of the 144 possible placements of the nodes. Both sign and house placement of the nodes are considered for extraordinarily insightful and accurate interpretations. For beginning astrologers, this guidebook provides easy-to-find personal interpretations and a free birth chart offer. For advanced astrologers, it will serve as the definitive reference manual on the Moon's nodes.

Planets in Synastry E. W. Neville, 1990 At its simplest level, synastry is the examination of the interaction of two astrological charts. Since questions about the relationship are perhaps the ones most often asked of the astrologer, the art of synastry is a basic skill to practice astrology at any but

the most casual level. Planets in Synastry takes the reader through the steps of this complex process. Individual phases of a relationship are set out and a method for analysis of each phase is described. It focuses not only on the analysis of synastry, but on the translation of the insights into real life applications.

Postcolonial Astrology Alice Sparkly Kat, 2021-05-18 Tapping into the political power of magic and astrology for social, community, and personal transformation. In a cross-cultural approach to understanding astrology as a magical language, Alice Sparkly Kat unmask the political power of astrology, showing how it can be channeled as a force for collective healing and liberation. Too often, magic and astrology are divorced from their potency and cultural contexts: co-opted by neoliberalism,

used as a force of oppression, or distilled beyond recognition into applications that belie their individual and collective power. By looking at the symbolic and etymological histories of the sun, moon, Saturn, Venus, Mercury, Mars, and Jupiter, we can trace and understand the politics of magic-- and challenge our own practices, interrogate our truths, and reshape our institutions to build better frameworks for communities of care. Fearless, radical, and fresh, Sparkly Kat's Postcolonial Astrology ushers in a new wave of astrology revival, refusing to apologize for its magickism and connecting its power to the spirituality and politics we need now. Intersectional, inclusive, and geared towards queer and POC communities, it uses our historical and collective constructs of the planets, sun, and moon to re-chart our subconscious history, redefine the body in the world, and assert our politics of the personal, in astrology and all things.
