H DARREL RUTKIN

🔍 **Essential Dignities** J. Lee Lehman, 1989-01-01 In this exciting new book, Dr. Lehman recovers an important ancient aspect of astrology which has become misunderstood and diluted; rulerships. By attempting to simplify astrology, contemporary sources have completely obscured the essential differences between planet, sign, and house. While the novice may benefit from this simplification, much of the old logic of the rulership system is covered up. By researching ancient manuscripts and sources, the ancient system of essential dignities or planetary rulerships is recovered and made available once again to the contemporary astrologer. What was nearly lost is given new power and the potential for understanding. A wealth of information is presented in a clear and concise way with many accurate charts.

🔍 **Using Dignities in Astrology** Charles Obert, 2018-04-16 This is a practical guide to the detailed use of essential and accidental dignities in traditional western astrology.

🔍 **The Testament of Astrology ~3~** Oskar Adler, Amy Shapiro, Zdenka Orenstein, 2011-07-01 The World of the Planets and Man offers 21 lectures in two parts ...Part One: The experience of world rhythm as messenger between time and eternity: planets as mediators between zodiac and man; Pythagorean triangle and music of the spheres; the numbers 3, 7 and 12, Caduceus and Rosicrucian cosmogony, Geocentric & heliocentric perspectives; the planets’ polarity and sexuality; dignities, the 7 holy planets, phoenix; teachings of Ptolemy, planetary symbols; the individual in the concert of the stars; Sun and Moon as poles of self, eclipses, 24 quarter-moon positions; “burden of the cross”; natal Moon in each sign, relative to Sun positions. Part Two: Mercury through Pluto; planetary dignities, in elements, signs and in aspect to each planet; the outer planets’ challenges; transcending and imminent planets; music as analogy for planets’ “tones;” the cosmic school of life in 7-year periods related to Saturn and Uranus; eternity-background of Neptune, interplay of “self-concentration and self-immolation.” Mercury related to “Hermes Trismegistos and Smaragdine Tablet; copula between subject and object, perception expressed in logic, inductive, deductive, artistic and moral reasoning. Venus juxtaposed with Mars, Jupiter juxtaposed and in contrast with Saturn; the meanings of Uranus, Neptune and Pluto; why Uranus carries “dangers” for immature souls, ego-stability and self-relation. Neptune, as the cosmic and transcendental experience of the self; the planet of “Meta” is expressed in 4 forms; meta-ethics (Fire), metaphysics (Earth), meta-logics (Air) and meta-psychics (Water) signs; Uranus-Neptune aspects and the qualities of generations. The Pluto-Janus connection, self-development and evolution.

🔍 **Apocatastasis (Paperback)** Emil Lips, 2016-03-04 Strokes of genius come rarely in life. This is one of those. Apocatastasis* is an extraordinary work. In simple, clear language, Lips takes the reader to a deeper understanding of the planets, their dignities and debilities, and on to a world formula that brings order to chaos and that will change our world-view. The experienced teacher Heisenberg would only examine the work of his pupils when the result was simple and aesthetically beautiful. The result presented by Lips is simple and beautiful. His astrological research has enabled him to discover the law that thinkers of all cultures have been searching for since time immemorial. The principles of his symmetrical theory are now seen to be inevitable. * not to be confused with the Christian or Stoic meaning of this term, is the astrological teaching of the eternal cycle of the celestial rulers (planets) and their rulership over all things and the zodiac signs.

🔍 **A Tiny Universe** Joy Usher, 2018-05-31 A Tiny Universe is a textbook which is based on Thema Mundi, a symbolic chart of the planets positions at the beginning of humankind's existence. Thema Mundi has existed as the teaching tool for astrological techniques since Hellenistic times and traditional sources from Greek, Persian, Arabic and Hebrew origins used the mythical representation of the birth-chart of the universe as a model for their evolving theories on astrology over the centuries. A Tiny Universe explores the seven original planets and their meanings and discusses the planets role, both in general through the time periods of life, and specifically through the astrology chart. The judgement of a planets condition under the terms of the Essential and Accidental Dignities is featured and the friendships and enmities which exist between various planets is discussed in the book. Thema Mundi embraces the process of life which begins with the four qualities, leads to the roots which we call the elements, and completes its journey at the twelve zodiac signs. The final chapters highlight the importance of the twelve houses which set the planets into specific areas of an individual's life through the astrology chart. A Tiny Universe takes a modern look at a very old chart as Thema Mundi introduces the planets, the qualities, the signs, and the houses, to the reader who is interested in astrology from the novice astrologer, to the practitioner, who wishes to gain a deeper understanding of the origins of their craft.

🔍 **Horary Astrology: Plain and Simple** Anthony Louis, 1998 Here is the best how-to guide for the intermediate astrologer on the art of astrological divination. Horary astrology is the best method for getting answers to questions of pressing personal concern: Will I ever have children? Should I buy that lakefront property? What happened to my car keys? When used wisely, horary acts like a trusted advisor to whom you can turn in times of trouble.

🔍 **Science and Key of Life** Alvidas, 1904

🔍 **The Jewel of Annual Astrology** Martin Gansten, Balabhadra Daivaj🔍 a, 2020-08-03 The Jewel of Annual Astrology is an encyclopaedic treatise on T🔍 jika or Sanskritized Perso-Arabic astrology, dealing particularly with the casting and interpretation of anniversary horoscopes. Authored in 1649 CE by Balabhadra Daivaj🔍 a, court astrologer to Sh🔍 h Shuj🔍 🔍 – governor of Bengal and second son of the Mughal emperor Sh🔍 h Jah🔍 n – it casts light on the historical development of the T🔍 jika school by extensive quotations from earlier works spanning five centuries. With this first-ever scholarly edition and translation of a T🔍 jika text, Martin Gansten makes a significant contribution not only to the study of an important but little known knowledge tradition, but also to the intellectual historiography of Asia and the transmission of horoscopic astrology in the medieval and early modern periods.

🔍 **The Elements of Astrology** Luke Dennis Broughton, 1906

🔍 **Delineation with Astrodynes** Ken Stone, 2009-08 Discusses planetary power & harmony, planets, signs & houses, aspects, temperament, health, vocation, compatibility, progressions, & overall delineation of the chart, all from the perspective of Astrodynes. This method has allowed a greater precision in interpretation of birth charts the method mathematically determines the relative power in a horoscope so much of the guesswork is taken out of chart interpretation. A number of examples illustrate the author concepts.

🔍 **Earning Astrology** Damian Sharp, 2005-10-01 Examines the ancient art of astrology, providing insight into suns, planets, houses, and aspects, and describes how to accurately read an astrological chart.

🔍 **Planetary Powers** Patti Tobin Brittain, 2011-05 Planetary Powers is a comprehensive book on the Morin Method of horoscope interpretation. It begins with examples of the fundamental principles and steadily advances to the full techniques. Each principle and technique is illustrated with examples. Each of the book’s sections focuses on a specific factor of horoscope interpretation. The Morin Method is a practical and useful set of rules that results in accurate chart interpretation. Familiarity with the Astrologia Gallica, the works of John-Baptiste Morin, although desirable, is unnecessary in order to use the Morin Method of horoscope interpretation. Section I covers planetary powers, including theory of determinations, houses, signs, planets, essential dignities and debilities, natural and acquired analogy, and analogy of the planets with the houses. Section II explains the cosmic state of the planets in relationship with the houses. Topics covered are benefic and malefic planets, dispositors, peregrine planets, determination through house position and rulership, cause and effect, conjunctions, and determining combination by analogy. Section III discusses the Morin Method regarding determination by actual location, empty house judgment, affairs signified by the houses, determination and evaluation of the effect of a planet in a house, the houses of life and death, and the power of aspects. The book concludes with numerous charts for study. To my knowledge this book is the best available instruction manual for the Morin Method.-James Herschel Holden, translator of eleven books of the Astrologia Gallica series by John-Baptiste Morin

🔍 **Tarot Decoded** Elizabeth Hazel, 2004-05-01 Most readers interested in tarot own a couple of different decks as well as some tarot cookbooks that explain the meaning of the cards and their symbolism--like Cliff Notes for tarot. These tarot tools result in fairly standard, mundane readings. But there is another level to tarot--a level that can turn an ordinary tarot reader into a true adept. Tarot Decoded transforms ordinary tarot readings into readings that are profound and even surprising by explaining the use and significance of tarot dignitaries. Tarot dignitaries are the interaction of the cards with each other in a spread and within a range of correspondences. Tarot author Elizabeth Hazel presents a concise, useable system for working with tarot dignities to add incredible depth to readings. One card placed next to another might not have a readily apparent connection--but interpreting tarot dignities could make it very clear that one card enhances, or hinders, the meaning of another. The same is true for tarot neighborhoods within a spread as well as the entire reading. Using the Tarot Decoded system for working with tarot dignities can take anyone to the next level of tarot reading. The book offers a progressive look at the cards, their dignities, and their correspondences. With Hazel’s advice and clear examples--and a little practice--readings take on a new depth, integration, and power.

🔍 **Warnock’s Horary Case Book 2nd Edition** Christopher Warnock, 2009-12-02 Warnock’s Horary Case Book contains over over 40 real horary questions, with the chart of the question shown in traditional square charts with complete essential dignities, aspects, horary considerations, planetary day and hour, fixed stars, planetary speeds, antiscions and contrantiscions. The actual predictions as written in advance are provided along with results for all questions. Topics include relationships, romance and marriage, work and career, moving, house buying and sales, legal questions and timing. Included in Warnock’s Horary Case Book are general introductory comments on contemporary traditional horary practice, a discussion of practical issues arising for each topic and a listing of sources for each type of questions. Warnock’s Horary Case Book is required reading for the Renaissance Astrology Horary Astrology course and is invaluable for laying out clearly the process of actual horary delineation on real questions for real clients!

Astrology for Dummies shows the reader how to use that accumulated wisdom to identify strengths and weaknesses, discover creative abilities, understand relationships, and make the most of the times in which we live. Using an abundance of real-life examples, author Rae Orion offers an incisive account of each sign and planet, taking the reader far beyond the daily horoscope and illuminating the birth chart in all its individuality

🔗 **SAPIENTIA ASTROLOGICA: ASTROLOGY, MAGIC AND NATURAL KNOWLEDGE, CA. 1250-1800**H Darrel Rutkin,2019-04-24 This book explores the changing perspective of astrology from the Middle Ages to the Early Modern Era. It introduces a framework for understanding both its former centrality and its later removal from legitimate knowledge and practice. The discussion reconstructs the changing roles of astrology in Western science, theology, and culture from 1250 to 1500. The author considers both the how and the why. He analyzes and integrates a broad range of sources. This analysis shows that the history of astrology—in particular, the story of the protracted criticism and ultimate removal of astrology from the realm of legitimate knowledge and practice—is crucial for fully understanding the transition from premodern Aristotelian-Ptolemaic natural philosophy to modern Newtonian science. This removal, the author argues, was neither obvious nor unproblematic. Astrology was not some sort of magical nebulous hodge-podge of beliefs. Rather, astrology emerged in the 13th century as a richly mathematical system that served to integrate astronomy and natural philosophy, precisely the aim of the “New Science” of the 17th century. As such, it becomes a fundamentally important historical question to determine why this promising astrological synthesis was rejected in favor of a rather different mathematical natural philosophy—and one with a very different causal structure than Aristotle’s.

🔗 **PLANETS AND THEIR EFFECTS** Saket Shah,2020-02-26 UNDERSTANDING PLANETS & THEIR EFFECTS: ... Each planet emanates certain energy while moving through the zodiac circle. Some planets move faster like Sun, Moon, Mercury, Mars and Venus, these are called inner planets and they affect us in a more personal and rapid manner, influencing our daily life, impulses and mood. All planets in solar system are revolving around Sun in a predefined pattern. That's how we know when to wake up and when to go to bed. Planets however govern a lot more than just occurrence of day and night or eclipses and tides. Planets have a direct impact on us, despite being several light years away. While the position of planets does not dictate our everyday actions, it does have a profound and close influence on our life and destiny. UNDERSTANDING PLANETS & THEIR EFFECTS: Much like nobody forces Moon to orbit Earth, humans are also under no force to act in a certain way but everything in the universe is correlated and works in sync so naturally, the movement of planets affects our actions as a result, much like our actions affect the environment. Human body is in fact made of elements present in the universe. The structure of our brain is very much similar to the structure of universe. Everything that happens to the universe happens to us. Our own magnetic field aligns with the Earth's magnetic field. Each object in the universe, be it humans, Earth, planets and stars in our galaxy move in a precise symphony so we have to connect ourselves to these energy sources to receive the vibrations and function better. Each planet emanates certain energy while moving through the zodiac circle. Some planets move faster like Sun, Moon, Mercury, Mars and Venus, these are called inner planets and they affect us in a more personal and rapid manner, influencing our daily life, impulses and mood. The outer planets move slowly in the sky, some even take as much as 2.5 years to change a sign. These include Jupiter, Saturn, Rahu and Ketu and these planets have a more profound and long-lasting impact on us, unlike say Moon. Astrological significance of planets: Every planet rules a zodiac sign except Rahu and Ketu, which are in fact not actual planets but two reference points in the sky. Rahu and Ketu are the points where the paths of the Sun and Moon intersect with each other. Rahu is the north lunar node, the head of the dragon as per mythology and Ketu is the south lunar node. The qualities of the zodiac signs somewhat align with the characteristics of the planets. For instance, impulsive and active Aries is ruled by fiery Mars, dreamy Pisces is ruled by spiritual Jupiter, emotional Cancer is ruled by motherly Moon while confident Leo is ruled by masculine Sun.

🔗 **ABRAHAM IBN EZRA'S INTRODUCTIONS TO ASTROLOGY** Shlomo Sela,2017-05-22 The present volume offers a critical edition of the Hebrew texts, accompanied by English translation and commentary, of Reshit 📖 okmah (Beginning of Wisdom) and Mishpeṭ📖 ei ha-Mazzalot (Judgments of the Zodiacal Signs) by Abraham Ibn Ezra (ca. 1089–ca. 1161).

🔗 **THE TEXT-BOOK OF ASTROLOGY** Alfred John Pearce,2006-08 The Text-Book of Astrology, written by noted English astrologer Alfred John Pearce, was first published as a combined edition in London in 1911. It includes the author's individual books on: Genethliacal Astrology Mundane Astrology Astro-Meteorology Medical Astrology Elections This classic work is filled with numerous examples and its original publication was praised in the the Spiritualist: Even for those who desire only to obtain a general knowledge of the subject, or at most be able to cast and read an astrological figure, Mr. Pearce's book may be recommended as easily intelligible, and containing much interesting matter, besides the process that will be chiefly useful to the student whose aims are more ambitious. To the latter it is invaluable. It is enriched with many interesting notices of nativities illustrating the different rules and doctrines of the science.
