**A Tiny Universe's Companion** Joy Usher, 2018-05-31 A Tiny Universe's Companion accompanies A Tiny Universe, a textbook on astrology which is based on one version of the Birth-Chart of the Universe known as Thema Mundi. Companion expands on the first book by exploring a number of techniques which were refined by astrologers several centuries ago, but have since lost their significance in modern times. Practices such as the division between day and night which creates the accidental dignity of Planetary Sect, and the forgotten rule of Contention (munakara) which warns of the danger of crossing boundaries, are both reminders of the impact of Sect on the seven original planets. A first century predictive system originating in Persia called Firdaria has been re-introduced in the past few years and is once more gaining in popularity. Firdaria relies heavily on the principles of Sect to direct the individual's lifespan via different planetary periods along with the sequencing of planets according to the Chaldean Order. This method is examined in detail in the final chapters of Companion using modernized interpretations of text from 1st Century astrologer Vettius Valens, and Johannes Schoener from the 16th Century C.E. Planets' rulership over the twelve houses is a cornerstone of traditional astrology's chart interpretation and a ruling planet's condition determines its success or failure in managing the affairs of its house. Issues such as mediocre quality, troublesome relationships, poor placement, or lack of sight (aversion) suggest stress for the planet and indicate difficult repercussions in the areas of life for which the ruling planet is responsible. Patterns which normally lie unseen or dormant within the chart become animated through rulership, and with the reintroduction of lost models, the chart, and life on Earth once more become reflections of the larger Universe.

*Using Dignities in Astrology* Charles Obert, 2018-04-16 This is a practical guide to the detailed use of essential and accidental dignities in traditional western astrology.

*The Dignity Doctrine* Mark Coleman, 2020 In his third book, The Dignity Doctrine: Pursuing Rational Relations in an Irrational World, award-winning author Mark C. Coleman lays out a pragmatic framework for how humanity can attain a more peaceful, just, and sustainable world. His perspective and real-life examples of how to accomplish this are drawn from his family's triumph over challenging personal experiences and his career as a consultant for practitioners of sustainability in business. Coleman explores the role of business and consumers in addressing our human-induced ecological degradation, the crisis of climate change, and both the threat and salvation from advanced technologies like artificial intelligence. During this time of great insecurity about the future, he concludes we must transform our attitudes toward our individual freedoms and privilege to successfully navigate our precarious relationship with each other and the earth's precious resources. Coleman tackles tough existential questions to arrive at a deeper understanding of our life's purpose as consumers and caretakers of all living beings on planet Earth and ways we can reconcile deep rifts in our relationships with each other during this perilous time. He believes the possibility of the permanent loss of our planet's life-sustaining ecologic resources as a result of the errors of our human-built environment calls all of us to engage in an active pursuit to discover who we are and why we are here. The Dignity Doctrine aims to provide an alternative to the irrational, uncivil political discourse and social conflicts happening throughout the world--a much needed, more tempered call to action to achieve more rational relationships necessary for people to work together toward a more intentional future and higher purpose. Coleman beckons readers to reinvent their true relationship with all life forms from a more enlightened perspective of the meaning of human dignity. His logical framework offers a way to create positive change in our life to help us attain more meaningful and dignified relationships with each other and our planet.

**Llewellyn's Complete Book of Astrology** Kris Brandt Riske, 2010-09-08 The easiest way to learn astrology is to start with yourself. Your astrological birth chart is a powerful tool for gaining a deeper understanding of your unique gifts, talents, challenges, and life's purpose. As you

begin to decipher the wealth of information in your own birth chart, you'll experience astrology in a personally meaningful way—which makes it easier to understand and remember. Once you learn the basics of astrology, you'll be able to read the birth charts of yourself and others. This friendly guidebook is the most complete introduction to astrology available. Popular astrologer Kris Brandt Riske presents the essentials of astrology in a clear, step-by-step way, paying special attention to three areas of popular interest: relationships, career, and money. She explains the meaning of the planets, zodiac signs, houses, and aspects, and how to interpret their significance in your chart. Over 30 illustrations, including the birth charts of several famous people—Al Gore, Oprah Winfrey, Brad Pitt, and Tiger Woods, to name just a few—add a helpful visual dimension to your learning experience. Practical and positive, Llewellyn's Complete Book of Astrology offers techniques for using astrology to identify the qualities you seek in an ideal mate, realize your career and financial potential, calculate your luck, and discover your inner strength.

Global Democracy and Human Self-Transcendence Glen T. Martin, 2019-01-15 This volume examines the dynamics of self-transcendence for both individuals and humanity as a whole. In doing so, it illuminates the definitive relationship between self-transcendence and global democracy. Drawing upon a vast literature of philosophy, psychology, and religion, ancient and modern, East and West, this book reveals the power of human futurity in actualizing our higher potential. It represents a real breakthrough in understanding our emerging new era in the evolution of humanity. It describes our transition from personal consciousness to global consciousness. The book includes chapters on the fundamental ideas that animate our self-understanding and define our common humanity. Through careful scholarship, it examines the dynamics of human dignity, freedom, love, community, intrinsic rights, and global ethics. It explores each of these concepts as a dimension of our human temporality as we envision and move into an ever-transcending future, a future that includes a World Parliament and planetary democracy. In our time of apparent hopelessness and despair, this volume reveals the grounds for a powerful hope that we can establish one world civilization of peace, justice, freedom, and sustainability. It makes a truly unique contribution, not found elsewhere in today's literature, revealing the astonishing dignity and potential of being human. It is essential reading for all those concerned for the future of humanity and our precious planet Earth.

**Sapientia Astrologica: Astrology, Magic and Natural Knowledge, ca. 1250-1800** H Darrel Rutkin, 2019-04-24 This book explores the changing perspective of astrology from the Middle Ages to the Early Modern Era. It introduces a framework for understanding both its former centrality and its later removal from legitimate knowledge and practice. The discussion reconstructs the changing roles of astrology in Western science, theology, and culture from 1250 to 1500. The author considers both the how and the why. He analyzes and integrates a broad range of sources. This analysis shows that the history of astrology—in particular, the story of the protracted criticism and ultimate removal of astrology from the realm of legitimate knowledge and practice—is crucial for fully understanding the transition from premodern Aristotelian-Ptolemaic natural philosophy to modern Newtonian science. This removal, the author argues, was neither obvious nor unproblematic. Astrology was not some sort of magical nebulous hodge-podge of beliefs. Rather, astrology emerged in the 13th century as a richly mathematical system that served to integrate astronomy and natural philosophy, precisely the aim of the “New Science” of the 17th century. As such, it becomes a fundamentally important historical question to determine why this promising astrological synthesis was rejected in favor of a rather different mathematical natural philosophy—and one with a very different causal structure than Aristotle's.

**Tarot Decoded** Elizabeth Hazel, 2004-05-01 Most readers interested in tarot own a couple of different decks as well as some tarot cookbooks that explain the meaning of the cards and their symbolism--like Cliff Notes for tarot. These tarot tools result in fairly standard, mundane readings. But there is another level to tarot--a level that can turn an ordinary tarot reader into a true adept. Tarot Decoded transforms ordinary tarot readings into readings that are profound and even surprising by explaining the use and significance of tarot dignitaries. Tarot dignitaries are the interaction of

the cards with each other in a spread and within a range of correspondences. Tarot author Elizabeth Hazel presents a concise, useable system for working with tarot dignities to add incredible depth to readings. One card placed next to another might not have a readily apparent connection--but interpreting tarot dignities could make it very clear that one card enhances, or hinders, the meaning of another. The same is true for tarot neighborhoods within a spread as well as the entire reading. Using the Tarot Decoded system for working with tarot dignities can take anyone to the next level of tarot reading. The book offers a progressive look at the cards, their dignities, and their correspondences. With Hazel's advice and clear examples--and a little practice--readings take on a new depth, integration, and power.

**Astrological Roots** Joseph Crane, 2009-07-15 This is the first systematic presentation of Hellenistic astrology to the modern astrological world, and as such it uncovers rigorous techniques that have been lost to us for centuries. How exactly did ancient astrologers assess a chart for fame, career, and parents, love, and happiness? This book surveys ancient depictions of planets, affiliations between the planets and the zodiac, lots, houses or places, aspects, orientality, and fixed stars. The final chapters survey predictive systems used by ancient astrologers. Ancient natal and predictive techniques are applied to the charts and lives of over forty well-known historical and contemporary figures. Students and professional astrologers will find this book a treasure of astrological insight, technique, and new interpretative possibilities. Not only will you gain knowledge of how ancient astrologers practiced their trade, but you will also have new tools that apply to modern life.

Astrology For Dummies Rae Orion, 2020-01-07 What can the starry skies tell you about yourself and others? More than you might imagine. For over four thousand years, people have watched the skies, correlating the movements of the Sun, the Moon, and the planets with human affairs. Astrology for Dummies shows the reader how to use that accumulated wisdom to identify strengths and weaknesses, discover creative abilities, understand relationships, and make the most of the times in which we live. Using an abundance of real-life examples, author Rae Orion offers an incisive account of each sign and planet, taking the reader far beyond the daily horoscope and illuminating the birth chart in all its individuality and complexity. Astrology for Dummies examines the time-honored ways astrology helps us understand ourselves and others. From how to map and interpret individual horoscopes to building and reading birth charts, Astrology For Dummies provides you with the tools to apply the art of astrology to your everyday life. Explore the long, multi-cultural, occasionally bloody history of astrology Discover useful advice about romance, career, and wellness Find the creative potential to be found in every sign and every birth chart Unravel the mysteries behind Mercury retrograde and other celestial phenomena Delve into the horoscopes of dozens of famous (and infamous) people, both past and present Investigate different ways to align yourself with the cosmos. Astrology hasn't been around for millennia for nothing. It's a practical tool, a symbolic language, a way to expand awareness, a means to increase empathy, and an exploration that touches the soul. Whether you want to learn about yourself, understand others, or glimpse the opportunities and challenges that lie ahead, the answers are here — and in the stars!

**The Dignity of Human Nature. An Expository Discourse [on Ps. Viii. 3-8].** George NICHOLSON (B.A., Northampton.), 1858

The Jewel of Annual Astrology Martin Gansten, Balabhadra Daivajña, 2020-08-03 The Jewel of Annual Astrology is an encyclopaedic treatise on Tājika or Sanskritized Perso-Arabic astrology, dealing particularly with the casting and interpretation of anniversary horoscopes. Authored in 1649 CE by Balabhadra Daivajña, court astrologer to Shāh Shujā' - governor of Bengal and second son of the Mughal emperor Shāh Jahān - it casts light on the historical development of the Tājika school by extensive quotations from earlier works spanning five centuries. With this first-ever scholarly edition and translation of a Tājika text, Martin Gansten makes a significant contribution not only to the study of an important but little known knowledge tradition, but also to the intellectual historiography of Asia and the transmission of horoscopic astrology in the medieval and early modern periods.

**Astrology for Initiates** Papus,1996-11-01 Papus (1865-1916), lived during a period when an interest in mystery traditions peaked in Europe. This work is a translation of his resulting writings with an introduction that places Papus in a historical perspective. It also includes explanatory notes and supplementary material.

**How to Read Cosmodynes** Doris Chase Doane,2009-08 How to Read Cosmodynes fills an important need in the astrological field. Many know of this method of measuring the relative power of the planets, signs and houses, but few know how to use it in their daily astrological practice. Yet it can be the key to seemingly inexplicable factors in an individual horoscope. Cosmodyne patterns indicate how delays, obstacles and confusion can be avoided. They point to where the energy-expenditure should be directed, how it should be channeled, and the associations which will enhance the demonstration of success. Once you experiment with the use of cosmodynes, you will never give them up. Probably you'll wonder how you managed to do without them for so long.

**The Relative Strength of Signs and Planets** Colin James III.,1978

*Dictionary of Astrological Terms and Explanations* A. E. Partridge,2008-04-01 From ALEPH to ZODIACAL CONSTELLATIONS, this volume is a concise and lucid explanation of important Astrological terms. It offers a brief glossary and explanation of the technical terms employed within the field. All students should be familiar with these definitions, which are of primary importance in the study of Astrology. [Facsimile reprint of the 1932 edition.]

*The Origins of Planetary Ethics in the Philosophy of Russian Cosmism* A. Bezgodov,K. Barezhev,2019-01-28 In this book, Aleksandr V. Bezgodov and Konstantin V. Barezhev formulate planetary ethics—the most important part of the philosophy of the Planetary Project. Planetary ethics represent the moral basis and value code for building a biocompatible, harmonious, and manageable civilization. They analyze the moral and ethical views of those Russian cosmists who belonged to the natural science branch of this unique philosophical, scientific, and cultural phenomenon. Looking at the world through the prism of a planetary-cosmic consciousness, cosmists developed a system of biocentric and humanistic values. Russian cosmism is a spiritual rebellion of life against chaos, death, and limitation. A combination of science, philosophy, poetry, and a certain utopianism extended on a universal scale makes Russian cosmism a prologue to the modern nonclassical, science-based worldview that emphasizes synergy and globalism. Back in the late nineteenth to early twentieth century, cosmists focused on a united humanity and the principles of a close relationship between man and the universe. This monograph lays the groundwork for the planetary ethics that originated in the philosophy of Russian cosmism. The monograph continues the series of books of the Planetary Project, Planetary Project: From Sustainable Development to Managed Harmony and Planetary Rent as an Instrument for Solving Global Problems.

*Horary Astrology* Anthony Louis,2021-02-08 Find What's Lost with the Power of Horary Astrology 45+ Sample Charts and Real-World Examples With nothing more than a sincerely asked question, horary astrology can help you locate anything that has been lost. Renowned astrologer Anthony Louis shares dozens of charts taken from astrological literature and his own practice, complete with in-depth explanations of how to read them. Covering a wide variety of situations, from misplaced cell phones to missing persons, these charts help practitioners of all levels to improve their skills. Sharing the well-established methods of influential astrologers, such as seventeenth-century author William Lilly, this book delves deeply into the most helpful ways to work with the relevant houses and aspects. You'll discover revelatory ideas for exploring planetary keywords, retrograde signifiers, combustion, colors, lunar nodes, and much more. Horary Astrology also presents excerpts from classic astrological works and insights from contemporary astrologers, making it your go-to resource for reaping the practical benefits of this exciting approach to astrology.

**Beyond Cosmopolitanism** Ananta Kumar Giri,2017-10-27 Considering the different traditions of cosmopolitan thinking and experimentation,

this cutting edge volume examines the contemporary revival of cosmopolitanism as a response to the challenges of living in an interdependent world. Through a unique multidisciplinary approach, it takes the debate beyond the one-sided universalism of the Euro-American world and explores the multiverse of transformations which confront cosmopolitanism. The collection highlights central questions of cosmopolitan responsibility, global citizenship and justice as well as the importance of dialogue among civilizations, cultures, religions and traditions. Exploring the ethical and political dimensions of globalization, it outlines the pathways of going beyond cosmopolitanism by striving for a post-colonial cosmopolis characterized by global justice, trans-civilizational dialogues and dignity for all.

APOCATASTASIS (Paperback) Emil Lips, 2016-03-04 Strokes of genius come rarely in life. This is one of those. APOCATASTASIS\* is an extraordinary work. In simple, clear language, Lips takes the reader to a deeper understanding of the planets, their dignities and debilities, and on to a world formula that brings order to chaos and that will change our world-view. The experienced teacher Heisenberg would only examine the work of his pupils when the result was simple and aesthetically beautiful. The result presented by Lips is simple and beautiful. His astrological research has enabled him to discover the law that thinkers of all cultures have been searching for since time immemorial. The principles of his symmetrical theory are now seen to be inevitable. \* not to be confused with the Christian or Stoic meaning of this term, is the astrological teaching of the eternal cycle of the celestial rulers (planets) and their rulership over all things and the zodiac signs.

*The Hand Reveals* Dylan Warren-Davis, 2021-03-31 Cheiromancy is the art of handreading in which all aspects of a person's hand are considered in order to gain an accurate picture of their inner nature. Cheiromancy is distinct from the fortune telling of palmistry. What has come down to us as palmistry today is a rather degenerate and effete form of this ancient discipline. The word cheiromancy comes from the Greek chir meaning 'hand' and manteia meaning 'divination', literally meaning 'divination through the hand'. The Hand Reveals is written as a practical guide to reading hands; it is not merely theoretical. As various points are described, through out the book, try to apply this knowledge at every opportunity to find confirmation of the ideas. There is a considerable amount of knowledge and information compressed into these pages, and even the most diligent student would have difficulty in digesting it in one reading. It is recommended that you refer back as often as necessary to go the material you have read, to allow your understanding of cheiromancy to grow gradually. Originally published in 1990 this edition has been revised and updated with new material.
