*Learn to Play Chess Like a Boss* Patrick Wolff, 2019-09-17 Stop playing like a pawn and start playing like the king You already know just how enjoyable--and and challenging--the game of chess can be. For those who play, chess leads to a lifetime of fun. But how do you make the first move to learn the rules and transform from a pawn to a king? The path to a perfect checkmate is in your hands! In the pages of this book, you'll find an introduction to all the chess pieces including their strengths and weaknesses, tips on how to protect your pieces and prevent their capture, and guidance on when to attack and defend like a boss. *Defending Under Pressure* Steve Hrop, 2022-01-07 The seconds tick down relentlessly toward zero just as your game approaches the critical stage. Your higher-rated opponent is putting your game under severe pressure, so extreme accuracy is needed to hang tough and avoid falling into a losing position. What do you do now - should you exchange pieces to relieve the pressure, lash out with a sacrifice, probe for weaknesses in the opponent's camp, or maybe just give up and get a lesson on how to bring the point home? The answer is... none of these! At such do-or-die moments, says Steve Hrop, the first thing to do is to sit on your hands and take a few deep breaths. In *Defending Under Pressure* and *Managing Your Emotions at the Chessboard*, the author uses critical moments from his own tournament games (most of them against players rated above 2200) to describe the difficulties of thinking straight when the enemy is at the gates, and then outlines methods and techniques to clear your head, evaluate the position, and find your way to the best move. Techniques include how to avoid redundant pieces that critically limit your mobility; when visualization is more important than calculation: and freeze-framing positions to eliminate blunders. Save the draw - or turn a looming defeat into an astonishing victory - with the tips in this practical training manual!

The author also identifies an overlooked checkmate pattern - Capablanca's Mate - that aspiring attackers can add to the standard catalogue in Renaud and Kahn's The Art of the Checkmate. As Del Rosario shows, Capablanca has inspired not only generations of players, but also many of the classics of chess literature.Easy to read but chock-full of advice for study and practical play, Capablanca: A Primer of Checkmate fills a gaping hole in our understanding of the third World Champion.
