Frankenstein Sam Ita, 2010 With its riveting blend of horror and science fiction, *Frankenstein* has gripped the public's imagination since its publication in 1818. Now Sam Ita, the genius of paper engineering and art, transforms Mary Shelley's tragic masterpiece into an unforgettable, stunning, and accessible pop-up book. For the third time, Ita—who created the magnificent *Moby Dick* and *20,000 Leagues Under the Sea* pop-ups—successfully captures the rich, dark drama of his source through amazing images. The entire story unfolds almost cinematically, in a potent mix of graphic novel panels and spectacular three-dimensional designs. The gothic building where Dr. Frankenstein carries out his sinister experiment rises high on the page as a scaffold, complete with a rope noose, emerges threateningly; and the misunderstood, rageful monster looms large and menacing, ready to destroy all in his path. This is pure visual magic, and a wonderful way to experience a classic.

The pop-up illustrations by Dave Ember are in the style of the WPA 1930s posters. 13 of these historic posters are faithfully reproduced in the book, courtesy of the Library of Congress. Fascinating park action springs to life in cleverly designed mini-booklet pops. See two bear cubs scrambling up a tree to safety, an alligator charging its prey, a dory boat crashing through the rapids of the Colorado River, a red jammer tour bus coming out of a mountain tunnel, Old Faithful Geyser erupting 13 inches above the page, and a mother Grizzly rising up to defend her cubs. The beauty of our national parks comes to life in these pages. You and your family will be inspired to visit our national parks.
