**Building a Windows HTPC** Terry Walsh, 2014-02-02 Building a Windows Home Theatre PC is We Got Served's definitive guide to planning, building, installing and using a Windows-based home theatre PC. If you're serious about streaming and managing your music and movies collection, then a Home Theatre PC (HTPC) puts you firmly in control. Sure, you can stream media on Connected TVs, Blu-ray players and other receivers but you have limited opportunities to customise and tailor those offerings to your needs, your family's needs and the needs of your home. Depending on your choice, you get these services, miss out on those services and are reliant on a benevolent manufacturer to continue adding new apps and maintaining existing apps. But a HTPC with a small footprint - powerful and silent hardware running slick, easy to manage media center software is not a dream. It's available for you today. Right now. You can build the hardware you want, install the services you prefer and play the media you love. In this 513 page guide, we walk you step by step through creating a first-class, small and mighty HTPC - you'll plan the specifications, components and form factor you need, select the hardware and learn how to assemble a barebones kit (such as our reference build, an Intel NUC HTPC) or build a PC from scratch. From there, we deep dive into maximising performance of your HTPC through tweaking motherboard settings and installing Intel's Rapid Start and Smart Connect management applications. We'll install the latest release of Windows and configure the operating system for HTPC use, tailoring settings to support DTS and Dolby Digital audio, then enhancing video support for Blu-ray disc. With support for Blu-ray on board, you'll be guided through advanced topics like region unlocking and DVD/Blu-ray ripping to a choice of formats, including MKV, BDMV and ISO for streaming in your favourite media center software. We install USB and Network TV Tuners for configuring Live and Recorded TV and use DVBLINK to integrate our channels and EPG into a variety of popular media applications. If you think we're done, then hold on! The guide takes a detailed look at configuring a universal remote control (the Logitech Harmony Hub) for use with our HTPC and look at various ways to download and manage music, video and TV metadata for our media collection. You'll learn the basics of popular file downloaders SABnzbd and uTorrent and we wrap up with a comprehensive review of leading media center packages Plex Media Server and XBMC. Building a Windows Home Theatre PC is packed with tips, tricks and tutorials to help you build a kick-ass home theatre PC that will last you for years to come!

*Organic Solid-State Lasers* Sébastien Forget, Sébastien Chénais, 2013-07-03 Organic lasers are broadly tunable coherent sources, potentially compact, convenient and manufactured at low-costs. Appeared in the mid 60's as solid-state alternatives for liquid dye lasers, they recently gained a new dimension after the demonstration of organic semiconductor lasers in the 90's. More recently, new perspectives appeared at the nanoscale, with organic polariton and surface plasmon lasers. After a brief reminder to laser physics, a first chapter exposes what makes organic solid-state organic lasers specific. The laser architectures used in organic lasers are then reviewed, with a state-of-the-art review of the performances of devices with regard to output power, threshold, lifetime, beam quality etc. A survey of the recent trends in the field is given, highlighting the latest developments with a special focus on the challenges remaining for achieving direct electrical pumping of organic semiconductor lasers. A last chapter covers the applications of organic solid-state lasers.

**Texts from Mittens** Angie Bailey, 2015-03-31 Texts from Mittens is a series of text message conversations between a snappy, self-absorbed housecat named Mittens and his long-suffering human, a single woman who works away from home during the day. Mittens relentlessly hassles his human all day long, while only taking breaks to watch Judge Judy, hang with his best friend Stumpy, complain about the antics of Drunk Patty the neighbor, ask Grandma for money to buy useless items from QVC, and harass the "filthy beast" dog, Phil. Angie Bailey is an award-winning writer and blogger, humorist, and professional member of the Cat Writers' Association. Her primary blog, Catladyland, has won many awards, and her humor writing is featured nearly daily on Catster.com, one of the most popular cat sites on the Web. She loves to photograph her cats in silly poses and sleeps with one eye open. And yes, she has three cats. "Each installment of Texts From Mittens is like a little gift to brighten your day!" –Kate Benjamin, Hauspanther founder and co-author of Catification with Jackson Galaxy Texts From Mittens makes me wish my cat had thumbs! This is a hilarious book; Angie Bailey has done it again!" –Jeremy Greenberg, Author of Sorry I Barfed on Your Bed We all knew that cats were hilarious, but Ms. Bailey's sardonic cat quips really take their mannerisms, attitude and occasional apathy to another level. –Susan Michals, Curator of

Upgrading and Repairing PCs Scott Mueller, 2000 Upgrading and Repairing PCs, Linux Edition addresses Linux-specific hardware issues that do not arise with Windows or DOS. Based on Upgrading and Repairing PCs, 11th Edition, this book covers Linux information such as system requirements, installation and setup, drive partitioning, kernel parameters, memory, and compatibility between Linux and components and components with each other. While Windows has a slick installation that automatically determines most of the hardware in a PC, Linux users still must struggle to identify, configure, and install the hardware in their PCs. This book is an essential reference to understand how your PC hardware works, how it interacts with Linux, and how to troubleshoot, repair, and upgrade the components in a Linux system.

*Run, Rose, Run* James Patterson, Dolly Parton, 2024-07-23 From America's most beloved superstar and #1 New York Times bestselling author James Patterson comes a thriller about a young singer-songwriter on the rise--and on the run--and determined to do whatever it takes to survive. A new singer arrives in Nashville. She calls herself AnnieLee Keyes, and she has more beauty, talent, and ambition than most -- and a dangerous past that she's running from. Her performance of original songs at open-mic night at the Cat's Paw Saloon downtown transfixes Ethan Blake, back-up musician for country star Ruthanna Ryder. Ruthanna may have retired--for deeply personal reasons--but that doesn't mean she's stopped writing music. Every day, she records songs she'll never release. When Ruthanna hears AnnieLee sing, the legend decides to help the ingenue. But a boost from a mega-star like Ruthanna may spotlight the talented newcomer's secret. Now AnnieLee may not live long enough to realize her dreams of stardom--or for the world to learn her true identity.
