Addiction and the Making of Professional Careers Griffith Edwards,Thomas F. Babor,2012-03-15 The misuse of drugs continues to cause suffering and worldwide economic turmoil. In response to these problems, many have devoted their lives to preventing the misuse of mind-altering substances. *Addiction and the Making of Professional Careers* focuses on the need for enhanced understanding of professional careers in the addiction field. The spectrum of professionals involved is wide and includes treatment personnel of every kind. Some of the questions examined here include: Why do some people decide to dedicate their lives to responding to drug problems? How do and should we select, train, mentor, support, inspire, and nurture the young career

aspirant? What makes for the most effective use of talent? Is every personal case different or can general conclusions be reached? After a foreword by William Miller and an introduction by Griffith Edwards, the book includes interviews with Joseph Brady, Louis Harris, Conan Kornetsky, and Robert DuPont, all of whom were pioneers in the behavioral pharmacological analysis of addiction. Commentary chapters are written by Kerstin Stenius, Ilana Crome, Peter Anderson, and Jonathan Chick.

Peer Coaching to Enrich Professional Practice, School Culture, and Student Learning Pam Robbins, 2015-05-19 How can educators work together more effectively to improve professional practice in a way that enhances student performance? The answer, says author Pam Robbins, involves combining collaborative activities and peer coaching—teachers supporting teachers. This book describes how any school can implement these proven practices and experience positive changes in teaching, school culture, and learning. Robbins explains how to develop a collaborative, learning-focused culture and build trust among colleagues; offers strategies for participating in difficult conversations that yield useful feedback; clarifies how to develop, sustain, and evaluate peer coaching efforts; and showcases exemplary peer coaching practices used in real schools. She also includes coaching tools, scenarios, process guidelines, and reflection questions that make it easier to transfer these ideas into a school setting. Peer coaching offers a job-embedded learning strategy; it's a valuable structure for supporting

schoolwide and districtwide priorities such as analyzing data, improving instruction, integrating technology, and implementing standards. In short, it creates an effective way to support the growth of every teacher and enrich learning processes in any school. Pam Robbins is a former teacher, coach, director of professional development, and school leader. She consults with high-performing and low-performing districts and designs and conducts workshops on leadership, school culture, organizational change, mentoring, and peer coaching.

With a focus on the experience of multilingual professionals, the author's position is that such professionals, exemplified by those who have relocated internationally, deploy their unique linguistic, cultural and intercultural repertoires in their work. Find Your Fantastic; Today's Guide to Personal and Professional Satisfaction! MS Marcea Weiss, 2016-08-12 I may as well tell you right now, because you'll discover it for yourself as you read ahead, that I think life is a great place. It offers all sorts of opportunities, adventures and new experiences to discover. Yes, difficult times are sure to pop up from time to time, but I also believe that they serve a purpose both personally and professionally. Personally, being backed against a wall, is sometimes the only experiences that forces us to choose a direction in contrast to going with the flow or being knocked down. When you are backed into a corner, life requires you to make a decision and take action to clear a new path and

direction. Professionally, the same is true. Tough situations require that we make a decision or die (professionally). It can make it easier to gain buy in from the team, along the lines of the proverbial burning platform, and can make the path and need for change, sometimes unpleasant, but clear. Clear can be refreshing. I often wonder why more people and organizations don't take advantage of all that life has to offer. They seem to be buying time, keeping their head down, just trying to get by. I affectionately refer to these people as potatoes, and hope to find opportunity to help them off of their coach in the future. I'm not saying, by the way, that I am perfect and have explored every possible path to determine to reach my optimal level of performance and potential, but I've made a continuous effort and celebrate the results and experiences that come from this every day. How does one best use this book? By reading and doing. Try on thing new in your life from each chapter and be open to where it takes. I welcome you to the new world of our shared commitment to help you to Find your Fantastic ! Now, let's get started.

Rise to the Top Stacey Hawley, 2014-09-22 More than ever, women are achieving outstanding levels of professional success. Whether CEOs, board members, entrepreneurs, or high performers, women are a game-changing force in the global economy. But women want and need to be paid appropriately for their contributions—no matter what rung of the ladder they're on. activists to corporate America. Rise to the Top: Discusses how companies approach compensation—the compensation game and its many players plus women’s roles in that process Highlights the integral role that personality type plays in how women are perceived in the workplace and how their work style affects their paycheck Reveals the four female “powerhouse personality types” and shares specific strategies on how women can leverage these work styles to earn more money and rewards Whatever your level of accomplishment or position, Rise to the Top will help you earn what you deserve!

The Army's Professional Military Ethic in an Era of Persistent Conflict Don M. Snider, 2009 This essay offers a proposal for the missing constructs and language with which we can more precisely think about and examine the Army's Professional Military Ethic, starting with its macro context which is the profession's culture. We examine three major long-term influences on that culture and its core ethos, thus describing how they evolve over time. We contend that in the present era of persistent conflict, we are witnessing dynamic changes within these three influences. In order to analyze these changes, we introduce a more detailed framework which divides the Ethic into its legal and moral components, then divide each of these into their institutional and individual manifestations. Turning from description to

analysis, we also examine to what extent, if any, recent doctrinal adaptations by the Army (FM 3-0, 3-24, and 6-22, etc.) indicate true evolution in the essential nature of the profession's Ethic. Then, we present what we believe to be the most significant ethical challenge facing the Army profession -- the moral development of Army leaders, moving them from 'values to virtues' in order that they, as Army professionals, can consistently achieve the high quality of moral character necessary to apply effectively and, in a trustworthy manner, their renowned military-technical competencies.--P. x

Meaningful Work Mike W. Martin,2000-03-16 As commonly understood,

professional ethics consists of shared duties and episodic dilemmas--the responsibilities incumbent on all members of specific professions joined together with the dilemmas that arise when these responsibilities conflict. Martin challenges this consensus paradigm as he rethinks professional ethics to include personal commitments and ideals, of which many are not mandatory. Using specific examples from a wide range of professions, including medicine, law, high school teaching, journalism, engineering, and ministry, he explores how personal commitments motivate, guide, and give meaning to work.
