📖 **ADDICTION AND THE MAKING OF PROFESSIONAL CAREERS** GRIFFITH EDWARDS, THOMAS F. BABOR, 2012-03-15 The misuse of drugs continues to cause suffering and worldwide economic turmoil. In response to these problems, many have devoted their lives to preventing the misuse of mind-altering substances. Addiction and the Making of Professional Careers focuses on the need for enhanced understanding of professional careers in the addiction field. The spectrum of professionals involved is wide and includes treatment personnel of every kind. Some of the questions examined here include: Why do some people decide to dedicate their lives to responding to drug problems? How do and should we select, train, mentor, support, inspire, and nurture the young career aspirant? What makes for the most effective use of talent? Is every personal case different or can general conclusions be reached? After a foreword by William Miller and an introduction by Griffith Edwards, the book includes interviews with Joseph Brady, Louis Harris, Conan Kornetsky, and Robert DuPont, all of whom were pioneers in the behavioral pharmacological analysis of addiction. Commentary chapters are written by Kerstin Stenius, Ilana Crome, Peter Anderson, and Jonathan Chick.

📖 **MAKING OF A THERAPIST** LOUIS J. COZOLINO, 2004-06-29 Lessons from the personal experience and reflections of a therapist. The difficulty and cost of training psychotherapists properly is well known. It is far easier to provide a series of classes while ignoring the more challenging personal components of training. Despite the fact that the therapist’s self-insight, emotional maturity, and calm centeredness are critical for successful psychotherapy, rote knowledge and technical skills are the focus of most training programs. As a result, the therapist’s personal growth is either marginalized or ignored. The Making of a Therapist counters this trend by offering graduate students and beginning therapists a personal account of this important inner journey. Cozolino provides a unique look inside the mind and heart of an experienced therapist. Readers will find an exciting and privileged window into the experience of the therapist who, like themselves, is just starting out. In addition, The Making of a Therapist contains the practical advice, common-sense wisdom, and self-disclosure that practicing professionals have found to be the most helpful during their own training. The first part of the book, ‘Getting Through Your First Sessions,’ takes readers through the often-perilous days and weeks of conducting initial sessions with real clients. Cozolino addresses such basic concerns as: Do I need to be completely healthy myself before I can help others? What do I do if someone comes to me with an issue or problem I can’t handle? What should I do if I have trouble listening to my clients? What if a client scares me? The second section of the book, ‘Getting to Know Your Clients,’ delves into the routine of therapy and the subsequent stages in which you continue to work with clients and help them. In this context, Cozolino presents the notion of the ‘good enough’ therapist, one who can surrender to his or her own imperfections while still guiding the therapeutic relationship to a positive outcome. The final section, ‘Getting to Know Yourself,’ goes to the core of the therapist’s relation to him- or herself, addressing such issues as: How to turn your weaknesses into strengths, and how to deal with the complicated issues of pathological caretaking, countertransference, and self-care. Both an excellent introduction to the field as well as a valuable refresher for the experienced clinician, The Making of a Therapist offers readers the tools and insight that make the journey of becoming a therapist a rich and rewarding experience.

📖 **PEER COACHING TO ENRICH PROFESSIONAL PRACTICE, SCHOOL CULTURE, AND STUDENT LEARNING** PAM ROBBINS, 2015-05-19 How can educators work together more effectively to improve professional practice in a way that enhances student performance? The answer, says author Pam Robbins, involves combining collaborative activities and peer coaching—teachers supporting teachers. This book describes how any school can implement these proven practices and experience positive changes in teaching, school culture, and learning. Robbins explains how to develop a collaborative, learning-focused culture and build trust among colleagues; offers strategies for participating in difficult conversations that yield useful feedback; clarifies how to develop, sustain, and evaluate peer coaching efforts; and showcases exemplary peer coaching practices used in real schools. She also includes coaching tools, scenarios, process guidelines, and reflection questions that make it easier to transfer these ideas into a school setting. Peer coaching offers a job-embedded learning strategy; it’s a valuable structure for supporting schoolwide and districtwide priorities such as analyzing data, improving instruction, integrating technology, and implementing standards. In short, it creates an effective way to support the growth of every teacher and enrich learning processes in any school. Pam Robbins is a former teacher, coach, director of professional development, and school leader. She consults with high-performing and low-performing districts and designs and conducts workshops on leadership, school culture, organizational change, mentoring, and peer coaching.

📖 **THE INTERCULTURAL PROFESSIONAL** FIONA O’NEILL, 2020-08-18 This book considers what is at stake for professionals whose work increasingly involves communicating in linguistically and culturally diverse contexts, and argues for the need to better understand the crucial role of languages and cultures in the modern workplace. With a focus on the experience of multilingual professionals, the author’s position is that such professionals, exemplified by those who have relocated internationally, deploy their unique linguistic, cultural and intercultural repertoires in their work. This book examines the ways in which professionals interpret and manage their experience of working within and across languages and cultures in ways that create affordances for them, their professional practice, and those who depend on their knowledge and expertise. It will be relevant to undergraduate and postgraduate students undertaking studies in applied linguistics, sociolinguistics, intercultural education and professional communication in any discipline.

📖 **FIND YOUR FANTASTIC; TODAY’S GUIDE TO PERSONAL AND PROFESSIONAL SATISFACTION!** MS MARCEA WEISS, 2016-08-12 I may as well tell you right now, because you’ll discover it for yourself as you read ahead, that I think life is a great place. It offers all sorts of opportunities, adventures and new experiences to discover. Yes, difficult times are sure to pop up from time to time, but I also believe that they serve a purpose both personally and professionally. Personally, being backed against a wall, is sometimes the only experiences that forces us to choose a direction in contrast to going with the flow or being knocked down. When you are backed into a corner, life requires you to make a decision and take action to clear a new path and direction. Professionally, the same is true. Tough situations require that we make a decision or die (professionally). It can make it easier to gain buy in from the team, along the lines of the proverbial burning platform, and can make the path and need for change, sometimes unpleasant, but clear. Clear can be refreshing. I often wonder why more people and organizations don’t take advantage of all that life has to offer. They seem to be buying time, keeping their head down, just trying to get by. I affectionately refer to these people as potatoes, and hope to find opportunity to help them off of their coach in the future. I’m not saying, by the way, that I am perfect and have explored every possible path to determine to reach my optimal level of performance and potential, but I’ve made a continuous effort and celebrate the results and experiences that come from this every day. How does one best use this book? By reading and doing. Try on thing new in your life from each chapter and be open to where it takes. I welcome you to the new world of our shared commitment to help you to find your fantastic! Now, let’s get started.

📖 **The Army’s Professional Military Ethic in an Era of Persistent Conflict** Don M. Snider,2009 This essay offers a proposal for the missing constructs and language with which we can more precisely think about and examine the Army’s Professional Military Ethic, starting with its macro context which is the profession’s culture. We examine three major long-term influences on that culture and its core ethos, thus describing how they evolve over time. We contend that in the present era of persistent conflict, we are witnessing dynamic changes within these three influences. In order to analyze these changes, we introduce a more detailed framework which divides the Ethic into its legal and moral components, then divide each of these into their institutional and individual manifestations. Turning from description to analysis, we also examine to what extent, if any, recent doctrinal adaptations by the Army (FM 3-0, 3-24, and 6-22, etc.) indicate true evolution in the essential nature of the profession’s Ethic. Then, we present what we believe to be the most significant ethical challenge facing the Army profession -- the moral development of Army leaders, moving them from ‘values to virtues’ in order that they, as Army professionals, can consistently achieve the high quality of moral character necessary to apply effectively and, in a trustworthy manner, their renowned military-technical competencies.--P. x

📖 **Meaningful Work** Mike W. Martin,2000-03-16 As commonly understood, professional ethics consists of shared duties and episodic dilemmas--the responsibilities incumbent on all members of specific professions joined together with the dilemmas that arise when these responsibilities conflict. Martin challenges this consensus paradigm as he rethinks professional ethics to include personal commitments and ideals, of which many are not mandatory. Using specific examples from a wide range of professions, including medicine, law, high school teaching, journalism, engineering, and ministry, he explores how personal commitments motivate, guide, and give meaning to work.
