To Serve and Protect Bruce L. Benson, 1998-08 In his provocative analysis, Benson (economics, Florida State U.; The Independent Institute, Oakland, CA) argues for contracting out and other controversial private justice options as preferable to government's pervasive and misguided criminal justice role. Why the timing may be right is the theme of the preface by Marvin Wolfgang, Director of the U. of Pennsylvania's Sellin Center for Studies in Criminology and Criminal Law. The Austrian School of the series title favors less government economic control. Annotation copyrighted by Book News, Inc., Portland, OR

Failure to Protect Pamela Samuels Young, 2019-10-22 The author of the award-winning thriller *Anybody's Daughter* is back with an addictive legal thriller that tackles bullying and its devastating aftermath. What Really Goes on Behind School Doors? When the classroom is no longer a safe space for her child, the outraged mother of a bullied nine-year-old is determined to seek justice for her daughter. An ambitious school principal, however, is far more concerned about protecting her career than getting to the truth. She flat out denies any knowledge of the bullying and prefers to sweep everything under the rug. But just how low will she go? Enter hard-charging attorneys Angela Evans and Jenny Ungerman. From the start, the two lawyers face more than an uphill battle. As the case enters the courtroom, the attorneys fight hard to expose the truth. But will a massive coverup hinder their quest for justice?

Who Do You Serve, Who Do You Protect? Maya Schenwar, Joe Macaré, Alana Yu-lan Price, 2016-05-30 Essays and reports examining the reality of police violence against Black and brown communities in America. What is the reality of policing in the United States? Do the police keep anyone safe and secure other than the very wealthy? How do recent police killings of young Black people in the United States fit into the historical and global context of anti-blackness? This collection of reports and essays (the first collaboration between Truthout and Haymarket Books) explores police violence against Black, brown, indigenous, and other marginalized communities, miscarriages of justice, and failures of token accountability and reform measures. It also makes a compelling and provocative argument against calling the police. Contributions cover a broad range of issues including the killing by police of Black men and women, police violence against Latino and indigenous communities, law enforcement's treatment of pregnant people and those with mental illness, and the impact of racist police violence on parenting. There are also specific stories such as a Detroit police conspiracy to slap murder convictions on young Black men using police informant, and the failure of Chicago's much-touted Independent Police Review Authority, the body supposedly responsible for investigating police misconduct. The title *Who Do You Serve, Who Do You Protect?* is no mere provocation: the book also explores alternatives for keeping communities safe. Contributors include William C. Anderson, Candice Bernd, Aaron Cantú, Thandi Chimurenga, Ejeris Dixon, Adam Hudson, Victoria Law, Mike Ludwig, Sarah Macaraeg, and Roberto Rodriguez. Praise for *Who Do You Serve, Who Do You Protect?* "With heartbreaking, glass-sharp prose, the book catalogs the abuse and destruction of Black, native, and trans bodies. And then, most importantly, it offers real-world solutions." -Chicago Review of Books "A must-read for anyone seeking to understand American culture in the present day." -Xica Nation "This brilliant collection of essays, written by activists, journalists, community organizers and survivors of state violence, urgently confronts the

criminalization, police violence and anti-Black racism that is plaguing urban communities. It is one of the most important books to emerge about these critical issues: passionately written with a keen eye towards building a world free of the cruelty and violence of the carceral state.” —Beth Richie, author of *Arrested Justice: Black Women, Violence, and America’s Prison Nation*

Theirs to Protect Stasia Black, 2018-04-05 In the New Republic, every woman must marry five men. It's the law. Welcome to the apocalypse. Nix never put his name in the marriage raffle for a reason. He doesn't need a woman. There aren't that many to go around anyway after a genetically engineered virus wiped out 90% of the female population. He has his job as head of the Security Squadron and it's all he need. He looks out for the township. He protects the few women there are left. But when his name is called to be one of the five husbands to the woman rescued from the badlands, he doesn't speak up to correct the error. Because Audrey's like no one he's ever met before. Fiasty. That's the name for her. Not like so many of the women they've brought back before. She's not broken. She might be just the woman to handle a rough, brutal man like him. Sharing her with four other men is a small price to pay. In fact, the closer they all grow, the more Nix realizes he might finally have again what he lost so long ago—a real family. But when outside forces threaten everything he holds dear, Nix will be forced to face his deepest, darkest fear. When Audrey's life is endangered, will he be able to save the woman he's just learned how to love?

Protect and Defend Richard North Patterson, 2003-08-12 On a cold day in January, President-elect Kerry Kilcannon takes the oath of office—and within days makes his first, most important move: appointing a new Chief Justice of the Supreme Court. Kilcannon's choice is a female judge with a brilliant record. And a secret. While the Senate spars over Caroline Masters's nomination, an inflammatory abortion rights case is making its way toward the judge—and will explode into the headlines. Suddenly, the most divisive issue in America turns the President's nomination into all-out war. And from Judge Masters to a conservative, war-hero senator facing a crisis of conscience and a fifteen-year-old girl battling for her future, no one will be safe.

Serve 'N' Protect Tee O'Fallon, 2021-09-20 Ambushed and left for dead, U.S. Secret Service K-9 Officer Markus York is on the mend and laying low in a safe house while his team tracks down his attacker. But Markus isn't good at sitting still. Even with his K-9, Ghost, for company, he gets restless and decides now is the perfect time to do some repairs around the house...and inadvertently tears open his wounds. Fresh out of a bad relationship that ended after a car accident left her with limited mobility, freelance accountant Cassidy Morgan has sworn off men.

At least, that's the plan. Until a frantically barking dog leads her to a neighbor's house where she finds a mysterious man out cold and bleeding on the floor...and mumbling things like "no, they'll find me" when she tries to call an ambulance. Yeah, that's not at all concerning. Despite Markus's surly attitude, Cassidy senses there's something else at work beneath his rugged, keep-your-distance exterior. Whatever it is, it's sexy as hell. With someone still trying to kill him, Markus doesn't want an innocent to get hurt, let alone take care of him. If only his dog wasn't crazy in love with her. If only the chemistry between Markus and Cassidy didn't explode whenever they were in the same room. If only Cassidy wasn't a target now, too.

Planetary Health Samuel Myers, Howard Frumkin, 2020-08-13 Human health depends on the health of the planet. Earth's natural systems—the air, the water, the biodiversity, the climate—are our life support systems. Yet climate change, biodiversity loss, scarcity of land and freshwater, pollution and other threats are degrading these systems. The emerging field of planetary health aims to understand how these changes threaten our health and how to protect ourselves and the rest of the biosphere. *Planetary Health: Protecting Nature to Protect Ourselves* provides a readable introduction to this new paradigm. With an interdisciplinary approach, the book addresses a wide range of health impacts felt in the Anthropocene, including food and nutrition, infectious disease, non-communicable disease, dislocation and conflict, and mental health. It also presents strategies to combat environmental changes and its ill-effects, such as controlling toxic exposures, investing in clean energy, improving urban design, and more. Chapters are authored by widely recognized experts. The result is a comprehensive and optimistic overview of a growing field that is being adopted by researchers and universities around the world. Students of public health will gain a solid grounding in the new challenges their profession must confront, while those in the environmental sciences, agriculture, the design professions, and other fields will become familiar with the human consequences of planetary changes. Understanding how our changing environment affects our health is increasingly critical to a variety of disciplines and professions. *Planetary Health* is the definitive guide to this vital field.

An outraged United Nations condemns the attacks while Iran swears vengeance against Israel and her chief backer: the USA. Enter Lebanese master terrorist Imad Mukhtar, who has spent the past decade picking his targets and preparing his cells for this exact moment. All he needs to launch his strike against America is approval from Iran's Supreme Council. With the US on high alert, the President calls on the one man ruthless enough to counter the fanatical terrorist: Mitch Rapp, America's terrorist hunter and one-man wrecking crew. Rapp tracks Mukhtar across Europe to America, where they are pitted against each other. But only one of them can survive . . . Praise for the Mitch Rapp series 'Sizzles with inside information and CIA secrets' Dan Brown 'A cracking, uncompromising yarn that literally takes no prisoners' The Times 'Vince Flynn clearly has one eye on Lee Child's action thriller throne with this twist-laden story. . . instantly gripping' Shortlist 'Action-packed, in-your-face, adrenalin-pumped super-hero macho escapist fiction that does exactly what it says on the label' Irish Independent 'Mitch Rapp is a great character who always leaves the bad guys either very sorry for themselves or very dead' Guardian 'Vince Flynn is Tom Clancy on speed. Protecting Those Who Serve Institute of Medicine, Committee on Strategies to Protect the Health of Deployed U.S.

Forces,2000-11-04 Since the Gulf War ended in 1991, various constituencies, including a significant number of veterans, speculate that unidentified risk factors led to chronic, medically unexplained illnesses, and these constituencies challenge the depth of the military's commitment to protect the health of deployed troops. Despite general concurrence in findings to support these claims, few changes have been made at the field level. The most important recommendations remain unimplemented, despite the compelling rationale for urgent action. Protecting Those Who Serve illuminates these recommendations and government-developed plans that remain inactive due to a lack of authority within the Department of Defense, while describing the dangers that may result from failure to protect our forces in the field.

Humanitarian Intervention and the Responsibility to Protect Cristina Gabriela Badescu, 2010-11-23 This book explores attempts to develop a more acceptable account of the principles and mechanisms associated with humanitarian intervention, which has become known as the 'Responsibility to Protect' (R2P). Cases of genocide and mass violence have raised endless debates about the theory and practice of humanitarian intervention to save innocent lives. Since the humanitarian tragedies in Rwanda, Burundi, Bosnia, Kosovo and elsewhere, states have begun advocating a right to undertake interventions to stop mass violations of human rights from occurring. Their central concern rests with whether the UN's current regulations on the use of force meet the challenges of the

post-Cold War world, and in particular the demands of addressing humanitarian emergencies. International actors tend to agree that killing civilians as a necessary part of state formation is no longer acceptable, nor is standing by idly in the face of massive violations of human rights. And yet, respect for the sovereign rights of states remains central among the ordering principles of the international community. How can populations affected by egregious human rights violations be protected? How can the legal constraints on the use of force and respect for state sovereignty be reconciled with the international community's willingness and readiness to take action in such instances? And more importantly, how can protection be offered when the Security Council, which is responsible for authorizing the use of force when threats to international peace and security occur, is paralyzed? The author addresses these issues, arguing that R2P is the best framework available at present to move the humanitarian intervention debate forward. This book will be of interest to students of the responsibility to protect, war and conflict studies, human security, international organisations, security studies and IR in general.
