Inside Asylum Bureaucracy: Organizing Refugee Status Determination in Austria Julia Dahlvik,2018-04-03 This open access monograph provides sociological insight into governmental action on the administration of asylum in the European context. It offers an in-depth understanding of how decision-making officials encounter and respond to structural contradictions in the asylum procedure produced by diverging legal, political, and administrative objectives. The study focuses on structural aspects on the one hand, such as legal and organisational elements, and aspects of agency on the other hand, examining the social practices and processes going on at the frontside and the backside of the administrative asylum system. Coverage is based on a case study using ethnographic methods, including qualitative interviews, participant observation, as well as artefact analysis. This case study is positioned within a broader context and allows for comparison within and beyond the European system, building a bridge to the international scientific community. In addition, the author links the empirical findings to sociological theory. She explains the identified patterns of social practice in asylum administration along the theories of social practices, social construction and structuration. This helps to contribute to the often missing theoretical development in this particular field of research. Overall, this book provides a sociological contribution to a key issue in today's debate on immigration in Europe and beyond. It will appeal to researchers, policy makers, administrators, and practitioners as well as students and readers interested in immigration and asylum.

Rethinking Film Festivals in the Pandemic Era and After Marijke de Valck,Antoine Damiens,2023-02-05 This is an open access book. This edited collection aims to document the effects of Covid-19 on film festivals and to theorize film festivals in the age of social distancing. To some extent, this crisis begs us to consider what happens when festivals can't happen; while films have found new (temporary) channels of distribution (most often in the forms of digital releases), the festival format appears particularly vulnerable in pandemic times. Imperfect measures, such as the move to a digital format, cannot recapture the communal experience at the very core of festivals. Given the global nature of the pandemic and the diversity of the festival phenomenon, this book features a wide range of case studies and analytical frameworks. With contributors including established scholars and frontline festival workers, the book is conceived as both a theoretical endeavour and a practical exploration of festival organizing in pandemic times.
