Permanent Record Edward Snowden,2019-09-17 *NEW YORK TIMES BESTSELLER* Edward Snowden, the man who risked everything to expose the US government's system of mass surveillance, reveals for the first time the story of his life, including how he helped to build that system and what motivated him to try to bring it down. In 2013, twenty-nine-year-old Edward Snowden shocked the world when he broke with the American intelligence establishment and revealed that the United States government was secretly pursuing the means to collect every single phone call, text message, and email. The result would be an unprecedented system of mass surveillance with the ability to pry into the private lives of every person on earth. Six years later, Snowden reveals for the very first time how he helped to build this system and why he was moved to expose it. Spanning the bucolic Beltway suburbs of his childhood and the clandestine CIA and NSA postings of his adulthood, *Permanent Record* is the extraordinary account of a bright young man who grew up online—a man who became a spy, a whistleblower, and, in exile, the Internet's conscience. Written with wit, grace, passion, and an unflinching candor, *Permanent Record* is a crucial memoir of our digital age and destined to be a classic.

The Eternal Criminal Record James B. Jacobs,2015-02-09 For 60 million Americans a criminal record overshadows everything else about their identity. On Record Beverley Diamond,2021-05-12 Musical media and the audio recording industry have an important and complex history in Newfoundland and Labrador: professional musicians, community songwriters, local institutions, and even politicians have gone on record. The result is a widespread body of work that undercuts the idea of recorded music as a cultural commodity and deepens the province's tradition of cultural activism. Drawing on contemporary testimony and over fifty years of interviews, *On Record* explores how recording projects have served as sonic signatures, forms of protest, homage, or parody of the foibles of those in power. Beverley Diamond examines how audio recording in Newfoundland and Labrador has been shaped not merely by creative individuals, but by such events as resettlement, residential schools, the cod moratorium, technological change, and disasters that have befallen those who live and work on the North Atlantic. A chapter by ethnomusicologist and musician Mathias Kom examines the widespread response to a unique annual challenge to make an audio recording. Spanning both commercial and community-oriented initiatives, this book reflects the vibrant, socially engaged, and resilient nature of communities that value simultaneously and equally the highest professional standards and the creative potential of every citizen. Encompassing music from both settler and Indigenous communities, *On Record* redefines the culture of a province that has most often been associated with traditional music, demonstrating that recording goes beyond the creation of a commodity: it responds to the present and to constructs of public memory.
