Adversarial and Uncertain Reasoning for Adaptive Cyber Defense Sushil Jajodia,George Cybenko,Peng Liu,Cliff Wang,Michael Wellman,2019-08-30 Today's cyber defenses are largely static allowing adversaries to pre-plan their attacks. In response to this situation, researchers have started to investigate various methods that make networked information systems less homogeneous and less predictable by engineering systems that have homogeneous functionalities but randomized manifestations. The 10 papers included in this State-of-the Art Survey present recent advances made by a large team of researchers working on the same US Department of Defense Multidisciplinary University Research Initiative (MURI) project during 2013-2019. This project has developed a new class of technologies called Adaptive Cyber Defense (ACD) by building on two active but heretofore separate research areas: Adaptation Techniques (AT) and Adversarial Reasoning (AR). AT methods introduce diversity and uncertainty into networks, applications, and hosts. AR combines machine learning, behavioral science, operations research, control theory, and game theory to address the goal of computing effective strategies in dynamic, adversarial environments.

This edition is fully-updated to cover Exadata 5-2 and Oracle Database 12c. If you're new to Exadata, you'll soon learn that it embodies a change in how you think about and manage relational databases. A key part of that change lies in the concept of offloading SQL processing to the storage layer. In addition there is Oracle's engineering effort in creating a powerful platform for both consolidation and transaction processing. The resulting value proposition in the form of Exadata has truly been a game-changer. Expert Oracle Exadata, 2nd Edition provides a look at the internals and how the combination of hardware and software that comprise Exadata actually work. Authors include Martin Bach, Andy Colvin, and Frits Hoogland, with contributions from Karl Arao, and built on the foundation laid by Kerry Osborne, Randy Johnson, and Tanel Poder in the first edition. They share their real-world experience gained through a great many Exadata implementations, possibly more than any other group of experts today. Always their goal is toward helping you advance your career through success with Exadata in your own environment. This book is intended for readers who want to understand what makes the platform tick and for whom—how it does what it is does is as important as what it does. Reimaging Doctoral Education as Adult Education Tom Heaney,Dianne Ramdeholl,2015-10-05 This volume looks at graduate education, specifically the doctorate, through the lens of adult education practice. Students in doctoral programs are, after all, adults. Building on principles of adult learning, the authors provide examples of academic excellence achieved through the incorporation of best practices in adult education, including: practical suggestions for democratically negotiating the curriculum, best practices for nurturing responsible action for social justice, ways of encouraging collaborative and noncompetitive learning and research, and support in shifting paradigmatic assumptions beyond the Eurocentric frame. This is the 147th volume of the Jossey Bass series New Directions for Adult and Continuing Education. Noted for its depth of coverage, it explores issues of common interest to instructors, administrators, counselors, and policymakers in a broad range of education settings, such as colleges and universities, extension programs, businesses, libraries, and museums.

Reimaging Africa Adeyinka Adewale,Stefan Schepers,2023-10-13 This book, through a politico-historical analysis, aims to provide a more balanced perspective regarding the nature of Africa's relations with other global regions. It emphasizes the sophisticated nature of pre-colonial African politico-historical commentaries often overlooked or simplified. As such, the narrative avoids the usual misrepresentations which impress that African-European interactions are a history of European actions in an Africa generally devoid of anything similar to the cultures, institutions and abilities of Europe. Further, it contests the historical narrative that indigenous Africans have had no real active role vis-à-vis an assertive, dominating Europe in historical times. Within this book, the contestation of such narratives with evidence-based counter perspectives is of particular benefit for our current educational, social and political contexts.

Can Women Re-Image the Church? Rosemary Chinnici,2004-06-23 'Can Women Re-Image the Church?' is a bold and provocative exploration for women within the church who feel alienated by traditional patriarchal

theology. This book speaks of a new vision, a new way of thinking that incorporates the voices and thoughts of women within a theological world that understands and supports them. Through a process called re-imagining, author Rosemary Chinnici separates the reality of the feminine experience from the centuries-old and sometimes stilted beliefs that have been handed down to us. She uses the principles of psychology that include women's voices and sets them in dialogue with feminist theology. According to Chinnici, every woman has the right and the authority to use her own experience as the basis for re-imagining. It is an ongoing and dynamic revelation that offers a positive gift to the community. This work details the lives of four women. Each tells her own story, examines her own experience, and speaks her own voice as she recognizes how and where traditional theology has shortchanged her. In this examination of their crisis-filled moments and subsequent anger, guilt, and alienation, the reader is able to experience firsthand what the re-imagining process involves. This fine and accessible book is an indispensable resource for spiritual seekers willing to uncover and integrate into daily life the powerful insights of women in the church.

Reimagining Pre-Service Teachers' Practical Knowledge Ge Wei, 2022-07-29 Drawing from the discourse of practice-oriented teacher education, this book investigates the state of pre-service teachers' practical knowledge in mainland China, providing insights into the reform of initial teacher education programmes for teacher educators. Conducting empirical studies at a university in Beijing, involving 400 pre-service teachers, the author investigates factors influencing pre-service teachers' practical knowledge. Five innovative methodologies, namely concept mapping, visual metaphors, video analysis, epistemic network analysis, and formative interventions are employed to make pre-service teachers' practical knowledge visible, helping to increase our theoretical understanding of practical knowledge and proposing practical guidelines for the reorganisation of initial teacher education. While the study is grounded in mainland China, the methodological thinking and theoretical discussions can inspire international scholars and teacher educators, and therefore contribute to the global reform of teacher education.

Reimagining Your "Black Pearl" Future Jennifer Nartey (Nana Akua) ,Darryl (Kwabena) Moore, This book delves into questions ranging from 1) how to fulfill livelihood and lifestyle goals, milestones, objectives, plus “bucket list” desires from a Spirit-filled perspective; and 2) why it is critical to write a robust plan and design a roadmap for attaining each tangible livelihood, lifestyle, and aspirational aim that persists as wishful thinking or dormant in your mind, soul, or spirit. As you read this book, reflect on its context. Be an enthusiastic DOER of its exercises. You will learn the significance of shifting from entrenched skepticism to living in Faith's Divine atmosphere and exercising the limitless power of prayer. These esteem-building actions changed both authors' modus operandi toward reimagining their realistic expectations and preparing to bring their near-term attainable objectives to fruition. Applying this resource helps you actualize your GOD-inspired dreams through the boundless power of the Holy Ghost. As your virtual coach, this book details proven methods for 1) pivoting your posture, 2) reimagining your future, 3) activating your giftedness, and ultimately 4) realizing your best life sooner than otherwise would be possible. This book's foundational content is the Holy Bible. Its framing resources are built on meaningful learnings from Darryl's odyssey as a certified Program Management Professional (PgMP®) employed as a Competency Enrichment Instructor. The symphonic benefits of this resource are based on Jennifer's authenticity, kindness, charm, and people-engaging skills as an artistic, professional beautician, and entrepreneur. “But God.” Jennifer and Darryl understand the power of unity, the glue of this book. Jennifer and Darryl live 6,025 miles apart, branched by an ocean between two exceptional continents. Their countries of birth are as far apart in ideology and cultural norms as the “East is from the West.” Jennifer's parents and grandparents are of nearly 100% African origin. She was born, nurtured, and educated in the West African nation of Ghana. Comparatively, according to his chromosomal data authenticated by specimen samples mailed to three independent DNA testing laboratories, Darryl's genetic signature is about 58% originating in West and Southwest African nations and approximately 42% originating in Great Britain and Northwest European countries. The shared thread between the authors is their unwavering belief in the Gospel of Jesus Christ, as elaborated in the New Testament of Our Lord and Savior Jesus Christ. GOD chose both authors for this moment to put into common words the essence of “Unity of Faith” globally through an African citizen residing in a robust community of Ghana's capital city and an African-American living in metropolitan New Orleans, U.S.A, ninety miles from the State of Louisiana's capital city. Their piercing words aim to inspire you to uplift this crusade in prayer.

Contrary to popular belief, church teaching on key issues has evolved in the past, and Ralph makes the case that it should again. Ralph works through some of the most vexing questions in the church today, from homosexuality to contraception, outlining key scriptural references for each issue, exploring the history of church teaching, then looking for ways these teachings might evolve.
