The Right Matthew Continetti, 2023-05-23 A superb and ambitious (New York Times) intellectual and political history of the last century of American conservatism When most people think of modern conservatism, they think of Ronald Reagan. Yet this narrow view leaves many to question: How did Donald Trump win the presidency? And what is the future of the Republican Party? In *The Right*, Matthew Continetti gives a sweeping account of movement conservatism's evolution, from the Progressive Era through the present. He tells the story of how conservatism began as networks of intellectuals, developing and institutionalizing a vision that grew over time, only to see their creation buckle under new pressures from national populist movements. Drawing out the tensions between the desire for mainstream acceptance and the pull of extremism, Continetti argues that the more one studies conservatism's past, the more one becomes convinced of its future. Updated with a new epilogue, *The Right* is essential reading for anyone looking to understand American conservatism.

Right Jana Aston, 2016 Everly has been obsessed with her brother's friend since she was a child and she plans on having a future with him. She meets his older brother and doesn't feel any sparks fly, at first, but this new interest may be the *Right One*.

Right of Way Angie Schmitt, 2020-08-27 The face of the pedestrian safety crisis looks a lot like Ignacio Duarte-Rodriguez. The 77-year old grandfather was struck in a hit-and-run crash

while trying to cross a high-speed, six-lane road without crosswalks near his son's home in Phoenix, Arizona. He was one of the more than 6,000 people killed while walking in America in 2018. In the last ten years, there has been a 50 percent increase in pedestrian deaths. The tragedy of traffic violence has barely registered with the media and wider culture. Disproportionately the victims are like Duarte-Rodriguez—immigrants, the poor, and people of color. They have largely been blamed and forgotten. In *Right of Way*, journalist Angie Schmitt shows us that deaths like Duarte-Rodriguez's are not unavoidable "accidents." They don't happen because of jaywalking or distracted walking. They are predictable, occurring in stark geographic patterns that tell a story about systemic inequality. These deaths are the forgotten faces of an increasingly urgent public-health crisis that we have the tools, but not the will, to solve. Schmitt examines the possible causes of the increase in pedestrian deaths as well as programs and movements that are beginning to respond to the epidemic. Her investigation unveils why pedestrians are dying—and she demands action. *Right of Way* is a call to reframe the problem, acknowledge the role of racism and classism in the public response to these deaths, and energize advocacy around road safety. Ultimately, Schmitt argues that we need improvements in infrastructure and changes to policy to save lives. *Right of Way* unveils a crisis that is rooted in both inequality and the undeterred reign of the automobile in our cities. It challenges us to imagine and demand safer and

more equitable cities, where no one is expendable.

Reading the Right Books Lee Edwards, 2009 The things I want to know are in books, Abraham Lincoln wrote, and so he read. Good books are rightly addictive, enticing the dedicated reader to open more books, and gain more knowledge, and come closer to wisdom. The more one reads, John Adams observed, the more one sees we have to read. Books contain the ideas, make the arguments, and preserve the history necessary for the maintenance and perpetuation of liberty. *Reading the Right Books* is a practical list of thoughtful and accessible books-not the classics but solidly good books-recommended to provide a general framework around which the reader can build a firmer structure of political knowledge. Edited and annotated by Lee Edwards, the Distinguished Fellow in Conservative Thought at The Heritage Foundation, *Reading the Right Books* is a guide for intelligent, conservative-minded readers who want to prepare themselves for a public life of thought and action, and to seek to know more about politics, public policy and modern conservative thought, as well as literature, economics, religion, history, and statesmanship.

Doing Agile Right Darrell Rigby, Sarah Elk, Steve Berez, 2020-05-26 Agile has the power to transform work--but only if it's implemented the right way. For decades business leaders have been painfully aware of a huge chasm: They aspire to create nimble, flexible enterprises. But their day-to-day reality is silos, sluggish processes, and stalled innovation. Today, agile is hailed as the essential bridge across this chasm, with the

potential to transform a company and catapult it to the head of the pack. Not so fast. In this clear-eyed, indispensable book, Bain & Company thought leader Darrell Rigby and his colleagues Sarah Elk and Steve Berez provide a much-needed reality check. They dispel the myths and misconceptions that have accompanied agile's rise to prominence--the idea that it can reshape an organization all at once, for instance, or that it should be used in every function and for all types of work. They illustrate that agile teams can indeed be powerful, making people's jobs more rewarding and turbocharging innovation, but such results are possible only if the method is fully understood and implemented the right way. The key, they argue, is balance. Every organization must optimize and tightly control some of its operations, and at the same time innovate. Agile, done well, enables vigorous innovation without sacrificing the efficiency and reliability essential to traditional operations. The authors break down how agile really works, show what not to do, and explain the crucial importance of scaling agile properly in order to reap its full benefit. They then lay out a road map for leading the transition to a truly agile enterprise. Agile isn't a goal in itself; it's a means to becoming a high-performance operation. Doing Agile Right is a must-have guide for any company trying to make the transition--or trying to sustain high agility.

Making the Match Teri S. Lesesne, 2003 Explains how teachers and librarians can steer students to the literature they love by focusing on three key areas: knowing the readers, knowing the books, and

knowing the strategies to motivate students to read.

The Radio Right Paul Matzko, 2020 By the early 1960s, and for the first time in history, most Americans across the nation could tune their radio to a station that aired conservative programming from dawn to dusk. People listened to these shows in remarkable numbers; for example, the broadcaster with the largest listening audience, Carl McIntire, had a weekly audience of twenty million, or one in nine American households. For sake of comparison, that is a higher percentage of the country than would listen to conservative talk radio host Rush Limbaugh forty years later. As this Radio Right phenomenon grew, President John F. Kennedy responded with the most successful government censorship campaign of the last half century. Taking the advice of union leader Walter Reuther, the Kennedy administration used the Internal Revenue Service and the Federal Communications Commission to pressure stations into dropping conservative programs. This book reveals the growing power of the Radio Right through the eyes of its opponents using confidential reports, internal correspondence, and Oval Office tape recordings. With the help of other liberal organizations, including the Democratic National Committee and the National Council of Churches, the censorship campaign muted the Radio Right. But by the late 1970s, technological innovations and regulatory changes fueled a resurgence in conservative broadcasting. A new generation of conservative broadcasters, from Pat Robertson to Ronald Reagan, harnessed the

power of conservative mass media and transformed the political landscape of America--

Wrong Lp Lovell, 2015-06-02 Tor My life was mapped out and planned to perfection. I knew exactly what I wanted and where I was going, until I was thrust into his world and ripped from mine. In the blink of an eye everything shattered, proving to be nothing more than a cheap illusion. Now I'm living in this twisted form of hell, where enemies and friends are one and the same. I thought I wanted perfection. Now I don't know what I want - perhaps not even my own freedom. Jude I'm the definition of wrong. I'm violent, I'm greedy, and I stop at nothing to win. I'm a notorious bookie and in my game paying with your life is not just a figure of speech. You lose, I collect. I take whatever you have. She's collateral for a debt, and if that debt's not paid someone will die. This should be just business, so why can't I kill her? Everything is not always as it seems. Lust. Blood. Lies. Nothing this wrong should feel so right.

Revolutionaries for the Right Kyle Burke, 2018-04-13 Freedom fighters. Guerrilla warriors. Soldiers of fortune. The many civil wars and rebellions against communist governments drew heavily from this cast of characters. Yet from Nicaragua to Afghanistan, Vietnam to Angola, Cuba to the Congo, the connections between these anticommunist groups have remained hazy and their coordination obscure. Yet as Kyle Burke reveals, these conflicts were the product of a rising movement that sought paramilitary action against communism worldwide. Tacking between the United

States and many other countries, Burke offers an international history not only of the paramilitaries who started and waged small wars in the second half of the twentieth century but of conservatism in the Cold War era. From the start of the Cold War, Burke shows, leading U.S. conservatives and their allies abroad dreamed of an international anticommunist revolution. They pinned their hopes to armed men, freedom fighters who could unravel communist states from within. And so they fashioned a global network of activists and state officials, guerrillas and mercenaries, ex-spies and ex-soldiers to sponsor paramilitary campaigns in Asia, Africa, and Latin America. Blurring the line between state-sanctioned and vigilante violence, this armed crusade helped radicalize right-wing groups in the United States while also generating new forms of privatized warfare abroad.

The Do-Right Lisa Sandlin, 2015-10-05 Winner of the 2015 Dashiell Hammett Prize and 2016 Shamus Award 1959. Delpha Wade killed a man who was raping her. Wanted to kill the other one too, but he got away. Now, after fourteen years in prison, she's out. It's 1973, and nobody's rushing to hire a parolee. Persistence and smarts land her a secretarial job with Tom Phelan, an ex-roughneck turned neophyte private eye. Together these two pry into the dark corners of Beaumont, a blue-collar, Cajun-influenced town dominated by Big Oil. A mysterious client plots mayhem against a small petrochemical company-why? Searching for a teenage boy, Phelan uncovers the weird lair of a serial killer. And Delpha – on a weekend outing –

looks into the eyes of her rapist, the one who got away. The novel's conclusion is classic noir, full of surprise, excitement, and karmic justice. Sandlin's elegant prose, twisting through the dark thickets of human passion, allows Delpha to open her heart again to friendship, compassion, and sexuality. Lisa Sandlin's story Phelan's First Case was anthologized in Lone Star Noir and was later re-anthologized in Akashic's Best of the Noir series, USA Noir. The Do-Right is her first full-length mystery. Lisa was born in Beaumont, currently lives and teaches in Omaha, Nebraska, and summers in Santa Fe, New Mexico.

Get Your House Right Marianne Cusato, Ben Pentreath, Richard Sammons, Leon Krier, 2011-08-09
"[A] much needed book both for homeowners who want a beautiful and well proportioned house and for the professionals who help them to realize that dream." –Sarah Susanka, FAIA, architect and author of The Not So Big series and Home by Design Even as oversized McMansions continue to elbow their way into tiny lots nationwide, a much different trend has taken shape. This return to traditional architectural principles venerates qualities that once were taken for granted in home design:

structural common sense, aesthetics of form, appropriateness to a neighborhood, and even sustainability. Marianne Cusato, creator of the award-winning Katrina Cottages, has authored and illustrated this definitive guide to what makes houses look and feel right—to the eye and to the soul. She teaches us the language and grammar of classical architecture, revealing how balance, harmony, and detail all contribute to creating a home that will be loved rather than tolerated. And she takes us through the dos and don'ts of every element of home design, from dormers to doorways to columns. Integral to the book are its hundreds of elegant line drawings—clearly rendering the varieties of lintels and cornices, arches and eaves, and displaying “avoid” and “use” versions of the same elements side by side. “This ‘Rosetta stone’ of design will guarantee Cusato a place in the history of twenty-first century American architecture.” —The Philadelphia Inquirer

“[Cusato] provides a vision of how we live together and build on our planet, and points out the consequences of flawed building practices not only to our environment, but to our spirit and our soul.” —Michael Lykoudis, Dean, University of Notre Dame School of Architecture

Something's Not Right Wade Mullen, 2020 A beacon of truth and wisdom for the abused and a help in their healing. --Scot McKnight and Laura Barringer, authors of *A Church Called Tov* Reading this book . . . will change you forever, for the better. --Rachael Denhollander, speaker, victim advocate, and author of *What Is a Girl Worth?* Sincerely thoughtful, incredibly practical, and

truly compassionate book on abusive systems and the consequences of cover-ups. --Christina Edmondson, PhD, cohost of Truth's Table podcast Am I the only one who sees this--am I just imagining things? Is something wrong with me . . . or could this be abuse? Maybe you don't know for sure: all you know is something feels off when you think about a certain relationship or interaction with an institution or organization. You feel alone and confused--but calling it abuse feels extreme and unsettling, a label for what happens to other people but not you. Yet you can't shake the feeling: something's not right. In his debut book, researcher and advocate Wade Mullen introduces us to the groundbreaking world of impression management--the strategies that individuals and organizations utilize to gain power and cover up their wrongdoings. Mullen reveals a pattern that accompanies many types of abuse, almost as if abusers are somehow reading from the same playbook. If we can learn to decode these evil methods--if we can learn the language of abuse--we can help stop the cycle and make abusers less effective at accomplishing destruction in our lives. Something's Not Right will help you to identify and describe tactics that were previously unidentifiable and indescribable, and give you the language you need to move toward freedom and create a safer future for yourself and others.

The Right Fight John Kennedy Vaughan, 2018-09-18
From the author of Shields of Strength, "a gift that could radically change every interaction and relationship you have" (Reg Lloyd, Pastor, Praise Church, Beaumont TX). What is the opposite of

love? Many would say hate, but studying the Bible reveals that it is actually fear. Fear leads us to make harmful decisions and live unproductive, unhappy, and unfruitful lives. Love is the key to a fruitful life, but love must be more than a feeling. Love must be an action, a choice. Choosing love over fear is the most powerful choice we can make. Kenny Vaughan brings this timeless discussion back to the forefront of our spiritual exploration by teaching us to view life as a fruit-bearing tree. When we feed the roots with love, the tree flourishes, and we enjoy the blessings that grow upon it. If we deprive our roots, however—if we allow fear to cut us off from love—then the whole tree withers and dies. Utilizing both Scripture and anecdotes from modern life, *The Right Fight* teaches us how to tend our roots, grow our fruit, and, through the grace of God, cast fear out for good. “The Right Fight will hold your attention and challenge your perspective and application of love.”—Reg Lloyd, Pastor, Praise Church, Beaumont TX

It's Legal but It Ain't Right Nikos Passas, Neva R. Goodwin, 2010-02-22 Many U.S. corporations and the goods they produce negatively impact our society without breaking any laws. We are all too familiar with the tobacco industry's effect on public health and health care costs for smokers and nonsmokers, as well as the role of profit in the pharmaceutical industry's research priorities. *It's Legal but It Ain't Right* tackles these issues, plus the ethical ambiguities of legalized gambling, the firearms trade, the fast food industry, the pesticide industry, private security

companies, and more. Aiming to identify industries and goods that undermine our societal values and to hold them accountable for their actions, this collection makes a valuable contribution to the ongoing discussion of ethics in our time. This accessible exploration of corporate legitimacy and crime will be important reading for advocates, journalists, students, and anyone interested in the dichotomy between law and legitimacy. Nikos Passas is Professor in the College of Criminal Justice at Northeastern University. Neva Goodwin is Co-director of the Global Development and Environment Institute at Tufts University.

Right and Wrong Charles Fried, 1978

The News from Spain Joan Wickersham, 2012-10-09 A San Francisco Chronicle and NPR Best Book of the Year The author of the acclaimed memoir *The Suicide Index* returns with a virtuosic collection of stories, each a stirring parable of the power of love and the impossibility of understanding it. Spanning centuries and continents, from eighteenth-century Vienna to contemporary America, Joan Wickersham shows, with uncanny exactitude, how we never really know what's in someone else's heart—or in our own.

The Public Library , 2014-05-27 A gorgeous visual celebration of America's public libraries including 150 photos, plus essays by Bill Moyers, Ann Patchett, Anne Lamott, Amy Tan, Barbara Kingsolver, and many more. Many of us have vivid recollections of childhood visits to a public library: the unmistakable musty scent, the excitement of checking out a stack of newly discovered books. Today, the more than 17,000

libraries in America also function as de facto community centers offering free access to the internet, job-hunting assistance, or a warm place to take shelter. And yet, across the country, cities large and small are closing public libraries or curtailing their hours of operation. Over the last eighteen years, photographer Robert Dawson has crisscrossed the country documenting hundreds of these endangered institutions. The Public Library presents a wide selection of Dawson's photographs— from the majestic reading room at the New York Public Library to Allensworth, California's one-room Tulare County Free Library built by former slaves. Accompanying Dawson's revealing photographs are essays, letters, and poetry by some of America's most celebrated writers. A foreword by Bill Moyers and an afterword by Ann Patchett bookend this important survey of a treasured American institution.
