**Remedies of Astrological Science** Tilak Raj, Very often it is asked as to what is the use of astrology? Can the malefic result of planets be glozed? Suppose a man starts from home with an umbrella if he knows that it will rain today. He cannot prevent the rain but he can save himself to some extent with the umbrella. Likewise, we try to lessen the malefic effect of the harmful planets by Tantra, Mantra, Yantras, gems, worship or Jap if we know by Astrology that the period ahead is not auspicious. Different methods of remedies have been mentioned in this book. Learned astrologers prescribe various remedies to curb evil effects of planets. Some scholars advise to wear gems while others prescribe mantras. There are scholars who stress on Yantra-pooja or wearing Rudraksha. Some of them go for propitiating planets or for that matter tantrik remedies. This book explains that one should seek remedies for which planets and what type of remedies should be prescribed. Lal Kitab remedies have also been discussed in this book. One form of remedy can be to worship the planets by chanting their mantras. Recommendation of establishing Navgrah yantras is also very popular. The objective of establishing important yantras is also mentioned in this book. Those who do not know the mantras of planets they can learn the important mantra of concerned from this book. If a planet is strongly placed in one's chart in that case the benefic effects of that planet can be multiplied by wearing its gem. This book also helps in selecting the appropriate gem for the native. Method of wearing gem has also been explained. This book in one of its chapters talks about the use of rare tantric items. *Delineating a Horoscope* Raj Kumar, Astrology is a great science based on sound principles and theory of karma through cycles of rebirth. A horoscope is basically a map of zodiac indicating position of planets in various signs/ Nakshatra at the time and place of birth. The delineation of a chart is the science and art of deciphering it as per the knowledge, intuition of the astrologer and divine help available to him. Therefore the first requisite is to have sound knowledge of nature and characteristics of houses, signs, Nakshatra and planets and their inter-relation. Next comes the basic tools like dasha, transit, yoga and divisional chart and their application in delineating a horoscope. Lagna is the single most important factor in delineating a horoscope. It is the very being of the native, his élan vital & basic potential. Unless the seed of a specific quality or event is contained in this basic potential, other planetary indications will not find suitable opportunities for manifestation. Lagna also determines the numbering of houses with lagna being the first. With the change in lagna, the significations of any planet will change drastically, as his house & lordship changes, although the sign & constellation of the planet remain unchanged.

**Remedies of Palmistry** Tilak Raj, Objective of Palmistry is to give accurate predictions about future but its utility lies in the correct and effective solutions to our problems. Here in this book of AIFAS the readers are informed with all the remedial measures. Astrologer gives remedies on the basis of his knowledge of reading a horoscope whereas a palmist recommends remedies on the basis of his interpretation of shape of hand and fingers with lines and mounts on palm. Different methods of remedies are recommended in this book. This book talks about the remedies like worshipping the planet, prescription of yantras of

planets alongwith mantras, gems and rudraksha. This books also talks about rare tantrik items with the use of which one can enhance his / her destiny. **Planet Mars Secrets** Saket Shah, 2020-01-05 In a Vedic Astrology Horoscope, the positions and effect of 9 heavenly bodies are carefully examined. These are the seven planets - Sun, Moon, Mars, Mercury, Jupiter, Venus and Saturn along with two nodes - Rahu and Ketu. Each planet has a long list of significations which are further divided into the direction, metals, age, nature, elements, body part / body system, colors, rulership of zodiac signs and the host of other attributes which a good Astrologer has to keep in mind at the time of making the calculations and giving the forecast. While all planets are given equal attention but it is Mars which is given special attention to check for suddenness in giving bad results - if it is a malefic. At the time of

matching the Horoscopes for marriage purposes, it is the presence or absence of Manglik feature which is checked before anything else. So let us go a little deeper into the nature, functioning, and mode of operation of Mars in a Horoscope. Is it always to be feared or does it have the power to give also? Mars is the fourth planet from the Sun. It is called Mangal in Hindi, Kujja in Sanskrit. West has named it after the Roman God of War. Mars is also referred to as the Red Planet because of its reddish appearance as seen from Earth. Similarly all the planets are divided into 4 elements of nature - Fire, Earth, Air and Water. Mars is supposed to be a fiery planet. As the story goes in the Vedic system, Mars is the commander-in-chief of the celestial army. It is therefore, quite natural to associate Mars with action & raw energy, after all it is fiery, hot red and fast (compared to Jupiter and Saturn it is a much faster planet orbiting the Sun).

*Charisma of Planets: Timing Events* Raj Kumar, Astrological analysis has two components. The first is the deduction of likely trends in the life of a native. This determines the basic promise of a horoscope. The second, and more important, is to determine the time when the relevant events, according to the promise, would happen. The first part requires astrological knowledge & calculations etc; while for the second part great perception, synthesis, intuition and divine help are required. Astrology is basically the art & science of deciphering the characteristics & impulses gathered by various planets by their position/ movement and their synthesis. It is the basic characteristics of planets as modified by various impulses/ vibrations which they receive and then imparts on the native. Essentially one has to understand planets- their relationship with houses, signs & Nakshatra and their roles as lords of sign/ houses, Nakshatra or its subdivisions, as dasha lords or their day to day transit with respect to their natal position or standard specific points like natal Moon, natal ascendant or dasha lords. This not only helps in understanding the basic promises, but the timing of their fructification as well.

**Planets and Their Effects** Saket Shah, 2020-02-26 Understanding planets & their effects: ... Each planet emanates certain energy while moving through the zodiac circle. Some planets move faster like Sun, Moon, Mercury, Mars and Venus, these are called inner planets and they affect us in a more personal and rapid manner, influencing our daily life, impulses and mood. All planets in solar system are revolving around Sun in a predefined pattern. That's how we know when to wake up and when to go to bed. Planets however govern a lot more than just occurrence of day and night or eclipses and tides. Planets have a direct impact on us, despite being several light years away. While the position of planets does not dictate our

everyday actions, it does have a profound and close influence on our life and destiny. Understanding planets & their effects: Much like nobody forces Moon to orbit Earth, humans are also under no force to act in a certain way but everything in the universe is correlated and works in sync so naturally, the movement of planets affects our actions as a result, much like our actions affect the environment. Human body is in fact made of elements present in the Universe. The structure of our brain is very much similar to the structure of universe. Everything that happens to the Universe happens to us. Our own magnetic field aligns with the Earth's magnetic field. Each object in the Universe, be it humans, Earth, planets and stars in our galaxy move in a precise symphony so we have to connect ourselves to these energy sources to receive the vibrations and function better. Each planet emanates certain energy while moving through the zodiac circle. Some planets move faster like Sun, Moon, Mercury, Mars and Venus, these are called inner planets and they affect us in a more personal and rapid manner, influencing our daily life, impulses and mood. The outer planets move slowly in the sky, some even take as much as 2.5 years to change a sign. These include Jupiter, Saturn, Rahu and Ketu and these planets have a more profound and long-lasting impact on us, unlike say Moon. Astrological significance of planets: Every planet rules a zodiac sign except Rahu and Ketu, which are in fact not actual planets but two reference points in the sky. Rahu and Ketu are the points where the paths of the Sun and Moon intersect with each other. Rahu is the north lunar node, the Head of the dragon as per mythology and Ketu is the south lunar node. The qualities of the zodiac signs somewhat align with the characteristics of the planets. For instance, impulsive and active Aries is ruled by fiery Mars, dreamy Pisces is ruled by spiritual Jupiter, emotional Cancer is ruled by motherly Moon while confident Leo is ruled by masculine Sun.

**Gemstones: Magic or Science?** Himanshu Shangari, Gemstones are scientific devices and they transfer energies of specific planets into the body of the wearer. Planet SUN Secrets Saket Shah,2020-01-05 The Sun god has two arms, he is seated on the pedestal of lotus; both of his hands are embellished with lotus flowers. There is a beautiful golden crown, on his head and a garland of gems around his neck. His radiance is just like the interior part of a lotus flower and he is mounted on the chariot pulled by seven horses. The Sun god is also known as 'Savita', which means - one who creates, 'SAVITA SARVASYA PRASAVITA' (Nirukta -10/31). According to the Rigveda the Sun god situated at the centre of the solar system is an inspirer of all, pervader of the internal parts and an embodiment of almighty god. According to the 'Markandeya Puran' Sun is the embodiment of Brahma, the world originates from the Sun and is established in it. The Sun is the appearance of all the matters and elements and is the eternal almighty. This very God 'Bhaskar' creates nurtures and annihilates the world respectively in the form of lord Brahma, Lord Vishnu & Lord Shiva. Sun is the supreme deity amongst all the nine planets. When Brahma manifested himself by breaking the egg, then he pronounced 'OM'. This Omkar itself is the supreme soul and the very physique of Sun god. The four Vedas emerged from all the four mouths of lord Brahma, which were glowing by their own radiance. The powerful radiance emanating from the 'Omkar' covered the radiance of the Vedas and ultimately all of them unified. This very Vedic appearance of 'Omkar' is the sun god. This radiant sun was the first manifested during the times of creation, hence it was called 'Aditya'. Once the demons, the titans and the monsters unitedly fought with the deities and snatched their power and authority after defeating them. 'Aditi' - the mother of the deities did worship of sun god to get protection from this calamity. Being pleased with her the sun god took incarnation as her son and established the eternal path of the Veda after defeating the enemies of the deities. He is called Aditya also for this reason. The complexion of Sun god is red. His vehicle is a chariot. There is only one wheel in his chariot which is called 'Samvatsar'. The wheel of his chariot has 12 spokes, which symbolise the twelve months. The wheel has six circumferences, which symbolize the six seasons, and three 'Naves' which is symbolise of the three four-months. The sages (rishi) and all the celestial supernatural beings like 'Gandharva', 'Apsara', 'Nag' yaksha and the deities' move along with him doing his worship. The wheel, power, a loop and a hook are the weapons of sun god. His great-phase (Mahadasha) last for six years. The Sun is considered as a high planet, till the tenth degree, in the zodiac of Aries. Lord Shiva is considered to be the deity of the Sun. To get his blessings and for his pacification, performance of 'Arghya'

(pouring water facing the sun in the morning should be done and also the text of Harivansh purana should be listened to. Ruby should be worn on the body and donation of wheat, cow along with a calf, raw-sugar (gur), copper, gold and red-clothes should be made to the brahmins

*Secrets of Planets* Saket Shah, 2021-10-31 Dear Reader, The whole process of spiritual practice during the initial steps consists of neutralising karma and gaining poise. The inequalities of past karma manifest as the inequalities of the mentality, personality and behaviour of man. Behaviour is only a response of the person to environment in terms of his own habit or past karma. This response also forms the basis of his future karma. Every step is subject to correction until poise is gained, “poise in food, expression and behaviour” is the path of yoga according to the Bhagavad Gita. Every planet in every sign in house represents our past life karma. To understand that first we need to understand the planets in astrology. This book is all about describing planets in astrology to give indepth knowledge and wisdom to the person to experience and learn fundamentals of astrology. Regards, Saket Shah
