**International Symposium On Solid Ionic and Ionic-Electronic Conductors** R. D. Armstrong, 2013-10-22 Solid Ionic and Ionic-Electronic Conductors presents a selection of papers gathered from the International Conference on Solid Ionic and Ionic-Electronic Conductors, held in Rome in September 1976. The collection emphasizes studies on lithium ion conductors and solid electrolytes. The conference covers a broad range of topics on solid ionic and ionic-electronic conductors. A considerable amount of papers are written on Li-ion conductors, where topics on conductivity data for several lithium ion conductors; new Li-ion conductors with several different structure types; and the crystal structure of a group of ternary copper compounds of the composition CuTeX are presented. Papers dealing with investigations and applications of solid electrolytes are also substantial and cover topics on iodine diffusion and gettering in solid electrolyte batteries; the application of solid electrolytes to the thermodynamic study of some alkaline earths silicates; and properties and applications of sulfate-based solid electrolytes. Electronics engineers, physicists, researchers, materials engineers, and businessmen in the electronics industry will find the contents of the book insightful.

Francogallia François Hotman, Ralph E. Giesey, 2010-06-10 For at least two centuries after its first appearance in 1573 Hotman's Francogallia influenced the way in which men regarded the European past and appraised the validity of political institutions. The intricate collation of the variorum Latin readings by Professor Giesey here demonstrates that nearly half the complete work consists of material added by Hotman to later editions in such a manner as substantially to modify the argument and balance of the original Francogallia. This definitive Latin edition contains a facing English translation by Professor Salmon, and a joint introduction in which the editors discuss the genesis and development of the text, which can no longer be regarded as written in response to the massacre of St Bartholomew. The editors analyse the discordant elements in Hotman's thought as his Calvinist background, his fundamentalism in both constitutional and religious doctrine and his ambivalent attitude to his profession as an eminent jurist.
