How to Write the Perfect Sales Page (Even If You're Not a Copywriter): The 12-Step Sales Page Template Nathan Fraser,2019-03-20 Stop wasting money, sending traffic to a webpage that doesn't convert. Stop paying expensive copywriters who may or may not have any idea what they're doing. Stop staring at a blank screen, frustrated and clueless when it comes to writing your own sales page. In the past, these were your only options. All of that's about to change. My name's Nathan Fraser and I'm a direct response copywriter. That means I write sales letters and advertisements with a focus on persuading people to buy. As more and more business moves to the internet, it means I'm also writing a lot more sales pages. Over the years, I've developed a formula for laying out sales pages that seems to work every time. The 12-Step Sales Page Template is that formula. I've used this template to bring in hundreds of thousands of dollars in sales for myself and my clients. It's worked for selling software, services, products, online courses and anything else you can imagine. I've taken lessons passed on from the masters of copywriting and applied it to how things get sold on the internet; namely, sales pages. This easy-to-follow guide breaks down how a sales page should function, step-by-step. In it, you'll discover: - How to grab attention with your headlines - How to keep people reading with your hooks- Why orange tennis balls are easier to sell than green ones (and how to use that information to make more sales of your own)- 10 different ways to write bullets that people can't ignore- Where the exact perfect place to put your Buy Now button is- A list of deal-killing words you never want to include on your sales page- 3 ways to increase the perceived value of your offer by adding a little bit of scarcity- How to make complete strangers feel comfortable with handing you their money- And a whole lot more This is the guide I wish I'd had when I first started selling things on the internet. If you've got an online business or an online store, this template will help you start pulling in more sales. Read it. Implement it. Start living the life of an online entrepreneur, today.

The 10 Deadly Sins Of A Product Launch Dr. Ope Banwo, The 10 Avoidable Mistakes Of A Product Launch That Will Cost You Money, Destroy Your Brand Credibility, And Make You Cry... how to turn them around for a 6-figure product launch online. I am glad to share important knowledge on 10 deadly sins of the 6-figure product launch. In this course, we're going to be talking about the avoidable mistakes of a product launch that will cost you money, destroy your brand credibility and literally make you cry. These are lessons I learned from my very first product launch where we made \$365,000 in five days and yet I still ended up crying like a baby because I made so many cardinal sins during that product launch. We could have made a million dollars easy, in that five day period, but I ended up in tears at the end of the day because the mistakes were just too many. We were lucky we still ended up with \$365,000. Many people who had to go through the same mistakes, basically, died up in the marketplace and they could never rise again. I will encourage you to get this book if you want to be in the product launch business, if you want to launch a product, either as an internet marketer, a business owner or an entrepreneur, all this applies.

Sales Page Ralph Lucero,2014-09-27 Before you begin the attempt to build a successful list or create a powerful salespage, you will want to start with a rigorous introduction to landing pages. In stark contrast to undifferentiated, unfocused home pages, landing pages focus specifically on capturing leads for a newsletter or making sales for a specific product – and make no attempt to give visitors a different option. Guerrilla Publishing Derek Murphy, 2017-01-24 TRAIN THE INTERNET TO SELL BOOKS FOR YOU Book marketing doesn't need to be an exhausting hamster wheel of promotion and publicity. Put your book sales on autopilot... so you can focus on writing your next bestseller. FAST AND EFFECTIVE BOOK MARKETING This book is a crash course on some of the more creative book marketing strategies I've discovered in my first year of publishing fiction. It will provide simple, actionable, measurable steps to publishing a high quality book quickly, doing only as much marketing as is necessary to launch your book like a rock star, and keep it selling enough to support you while you write another. I only mention the things I actually use, that I know work, and ignore options that don't get results. We'll discuss paid advertising, release strategies, pricing and pre-orders, book giveaways, how to target your audience, viral exposure and press coverage, marketing hacks, and how to reach your first \$1000 on Kindle. LAUNCH BIG EVEN IF YOU'RE STARTING SMALL Guerrilla is a style of warfare intended to surprise and harass enemies. It can also mean using unconventional and usually inexpensive means to generate interest or raise concern among the public. That's basically how I'll use it: book marketing strategies from the trenches to help you win the publishing war. However, instead of surprise and harass I will focus on surprise and delight. First you need to show up and get in front of the right people. Then you need to surprise and delight them. You need to be remarkable enough to be noticed. Few authors are using these strategies (yet) so it's relatively easy to outrank your competition, get more visibility and reach new readers.
