How to Write the Perfect Sales Page (Even If You're Not a Copywriter): The 12-Step Sales Page Template Nathan

Fraser, 2019-03-20 Stop wasting money, sending traffic to a webpage that doesn't convert. Stop paying expensive copywriters who may or may not have any idea what they're doing. Stop staring at a blank screen, frustrated and clueless when it comes to writing your own sales page. In the past, these were your only options. All of that's about to change. My name's Nathan Fraser and I'm a direct response copywriter. That means I write sales letters and advertisements with a focus on persuading people to buy. As more and more business moves to the internet, it means I'm also writing a lot more sales pages. Over the years, I've developed a formula for laying out sales pages that seems to work every time. The 12-Step Sales Page Template is that formula. I've used this template to bring in hundreds of thousands of dollars in sales for myself and my clients. It's worked for selling software, services, products, online courses and anything else you can imagine. I've taken lessons passed on from the masters of copywriting and applied it to how things get sold on the internet; namely, sales pages. This easy-to-follow guide breaks down how a sales page should function, step-by-step. In it, you'll discover: - How to grab attention with your headlines - How to keep people reading with your hooks- Why orange tennis balls are easier to sell than green ones (and how to use that information to make more sales of your own)- 10 different ways to write bullets that people can't ignore- Where the exact perfect place to put your Buy Now button is- A list of deal-killing words you never want to include on your sales page- 3 ways to increase the perceived value of your offer by adding a little bit of scarcity- How to make complete strangers feel comfortable with

handing you their money- And a whole lot more This is the guide I wish I'd had when I first started selling things on the internet. If you've got an online business or an online store, this template will help you start pulling in more sales. Read it. Implement it. Start living the life of an online entrepreneur, today.

The 10 Deadly Sins Of A Product Launch Dr. Ope Banwo, The 10 Avoidable Mistakes Of A Product Launch That Will Cost You Money, Destroy Your Brand Credibility, And Make You Cry... how to turn them around for a 6-figure product launch online. I am glad to share important knowledge on 10 deadly sins of the 6-figure product launch. In this course, we're going to be talking about the avoidable mistakes of a product launch that will cost you money, destroy your brand credibility and literally make you cry. These are lessons I learned from my very first product launch where we made \$365,000 in five days and yet I still ended up crying like a baby because I made so many cardinal sins during that product launch. We could have made a million dollars easy, in that five day period, but I ended up in tears at the end of the day because the mistakes were just too many. We were lucky we still ended up with \$365,000. Many people who had to go through the same mistakes, basically, died up in the marketplace and they could never rise again. I will encourage you to get this book if you want to be in the product launch business, if you want to launch a product, either as an internet marketer, a business owner or an entrepreneur, all this applies.

Put Your Creativity Into Action Joshua Garfunkel, Put your creative process into action If you want to be the best, focus on your most valuable asset: the power of your creative mind. The importance of inspiration and the creative spirit has never been greater. To live a life full of inspiration and fulfillment, we must first grasp where and

Humans are reduced to little more than automatons when they lack originality. This book offers a comprehensive understanding of the totality of the creative process and guides how to put your creative process to action. Main points of this book: · Strategies to polish your creativity · Be creative on-demand, step-by-step approach · Add value to ideas and turn them into financial assets · Boost creativity with the power of lateral thinking · Break free from old ways of thinking with creative challenging This book is too simple and clear to find creativity hiding inside you. Guerrilla Publishing Derek Murphy,2017-01-24 **TRAIN THE INTERNET TO SELL BOOKS FOR YOU** Book marketing doesn't need to be an exhausting hamster wheel of promotion and publicity. Put your book sales on autopilot... so you can focus on writing your next bestseller. **FAST AND EFFECTIVE BOOK MARKETING** This book is a crash course on some of the more creative book marketing strategies I've discovered in my first year of publishing fiction. It will provide simple, actionable, measurable steps to publishing a high quality book quickly, doing only as much marketing as is necessary to launch your book like a rock star, and keep it selling enough to support you while you write another. I only mention the things I actually use, that I know work, and ignore options that don't get results. We'll discuss paid advertising, release strategies, pricing and pre-orders, book giveaways, how to target your audience, viral

exposure and press coverage, marketing hacks, and how to reach your first \$1000 on Kindle. **LAUNCH BIG EVEN IF YOU'RE STARTING SMALL** Guerrilla is a style of warfare intended to surprise and harass enemies. It can also mean using unconventional and usually inexpensive means to generate interest or raise concern among the public. That's basically how I'll use it: book marketing strategies from the trenches to help you win the publishing war. However, instead of surprise and harass I will focus on surprise and delight. First you need to show up and get in front of the right people. Then you need to surprise and delight them. You need to be remarkable enough to be noticed. Few authors are using these strategies (yet) so it's relatively easy to outrank your competition, get more visibility and reach new readers.

Squeeze Page Blueprint Anthony Ekanem, 2016-09-27 Before you begin the attempt to build a successful list or create a powerful sales page, you will want to start with a rigorous introduction to Squeeze Pages. In stark contrast to undifferentiated, unfocused home pages, Squeeze Pages focus specifically on capturing leads for a newsletter or making sales for a specific product – and make no attempt to give visitors a different option. Another common word that is often used to describe Squeeze Page, is squeeze page (or lead capture page in some circles). A squeeze page is a page designed to get names and email addresses. Usually, however, a squeeze page is usually a smaller type of Squeeze Page, which usually has an opt-in form in sight when the page loads. So what is important to learn in an introduction to Squeeze Pages? First, it is important to recognize that all successful marketers use these. If you plan to sell a product over the Internet, you will

want to use one, too, rather than relying on sidebar opt-in forms and unfocused pages that do not convey a single point and a single call to action. Another important thing you will want to take away from this introduction to is that every Squeeze Page contains the same parts and is focused on a **SINGLE** goal – getting the visitor to become a subscriber or buyer. These parts are as follows: an opt-in form (or sales prompt), a brief or lengthy introduction, a picture of the list/product owner, the signature of the list owner, and a call to action (or multiple calls to action). Determining which model will work best for you can simply only be done through testing. While many boast a conversion and attribute it to the shortness of their introduction (many will be one short paragraph), otherwise will boast a high conversion rate because they use lengthy, thorough, and compelling copy. If there is anything you absolutely must take away from here, it is that you cannot create a Squeeze Page or squeeze page that isn't focused.
