What They Don't Tell You in Schools of Education about School Administration John A. Black, Fenwick W. English, 2002-01-15 This is a reprint of a text originally published in 1986 by Technomic Publishing Co, Inc. The authors base the book on their personal experiences as public school administrators in the U.S. They address many aspects of the political arena of educational administration and leadership which are not typically covered in university courses, but are necessary for the survival of classroom teachers who later become administrators. Written in a down-to-earth style, the authors are frank in their assessment of the educational system. For students in educational administration courses and practicing school administrators.
