The Westweg Kat Morgenstern,2017-01-20 This guidebook is all you need to discover The Westweg, a 285km walk along the length Germany's Black Forest from Pforzheim to Basel. This classic long-distance trail takes around two weeks to walk, in stages of 15-28km. The route is well way-marked and suitable for experienced hikers and those new to long distance walking, though some sections are steep. Detailed descriptions and 1:100,000 maps accompany each stage of the route and the book describes options for shortening stages using public transport. There is also information on when to go, where to stay and a German-English glossary. With well-maintained and waymarked trails, an efficient public transport system and conveniently placed huts and farmhouse inns, the Black Forest is one of Germany's best-loved walking destinations. The Westweg incorporates many of the region's highlights, such the Schwarzwald National Park, the source of the Danube and Lake Titisee. At Titisee there is a choice to make: the western route taking in the Black Forest's highest peak Feldberg and the vineyards of the Markgräflerland, or the quieter eastern route via the Herzogenhorn peak and on to Basel, with all its cultural attractions and old-world charm.

The German Continental Deep Drilling Program (KTB) Rolf Emmermann,Jürgen Wohlenberg,2013-04-17 In October 1986 the German Minister for Research and Technology (Bundesminister für Forschung und Technologie), Dr. H. Riesenhuber, officially announced that the super-deep borehole of the Continental Deep Drilling Program of the Federal Republic of Germany (KTB) would be drilled in the Oberpfalz area of Northern Bavaria. The site selection was based on a recommendation from the Deutsche Forschungsgemeinschaft (DFG) made after an evaluation by the Project Management of the technical and financial risks involved. This decision was preceded by a conference held from September 19 to 21, 1986 in Seeheim/Odenwald at which the results of the site studies in the Oberpfalz and the Schwarzwald were presented and thoroughly debated. The models and scientific targets resulting from these investigations formed the basis for a vote by the DFG Senate Commission for Geoscientific Interdisciplinary Research which was taken immediately after the conference. After evaluation of all scientific and technical aspects, the members of the commission voted almost unanimously for the Oberpfalz site. It was, however, strongly emphasized that both locations had a wealth of attractive research objectives and that despite clear-cut differences in some major aspects scientifically the two could be regarded as more or less equivalent. Both locations would be excellent sites for research drilling and would certainly contribute.

Black Forest Stories Tilmann von Stockhausen,2020-02 The Black Forest is the topic of the exhibition of the Augustinermuseum, which shows a collection of paintings of the 19th and 20th century. Most art works celebrate the beautiful landscape, some tell the story of the sometimes hard life of the people living there in past times and the change of the nature of that area. The exhibition shows about 70 paintings of artists like Emil Lugo, Hans Thoma and Franz Xaver Winterhalter as well as artists of the Gutacher Malerschule like Wilhelm Hasemann und Curt Liebich.

Good Neighbors, Bad Times Revisited Mimi Schwartz,2021-03 Mimi Schwartz's father was born Jewish in a tiny German village thirty years before the advent of Hitler when, as he'd tell her, We all got along. In her original memoir, Good Neighbors, Bad Times, Schwartz explored how human decency fared among Christian and Jewish neighbors before, during, and after Nazi times. Ten years after its publication, a letter arrived from a man named Max Sayer in South Australia. Sayer, it turns out, grew up Catholic in the village during the Third Reich and in 1937 moved into an abandoned Jewish home five houses away from where the family of Schwartz's father had lived for generations before fleeing to America a few months earlier. The two families had never met. Sayer wrote an unpublished memoir about his childhood memories and in Schwartz's new edition, Good Neighbors, Bad Times Revisited, the two memoirs talk to each other. Weaving excerpts from Sayer's memoir and from a yearlong correspondence with him into her book, Schwartz revisits village history from a new perspective, deepening our understanding of decency and demonization. Given the rise of xenophobia, white supremacy, and anti-Semitism in the world today, this exploration seems more urgent than ever.

Double Identity Walter Norman Clark,2012-12-26 German Colonel Wilhelm Lessing of the German Abwehr, the German Military Intelligence Organization, is interrogating captured British soldiers during the World War Two German Army Blitzkrieg in Belgium and France in June, 1940, when the voice of a captured young British Lieutenant strikes a hidden episode in the deepest recesses of his mind. The result in the following 34 days is a series of dangerous events, including the possibility of a German Invasion of Britain. Additional events involve the Colonel, Admiral

Canaris, Head of the Abwehr, Winston Churchill, Prime Minister of England, the second in command of the German SS, Obergruppenfuhrer Heydrich, and other Germans and Englishmen. Entwined with this series of events is the personal problem of saving the young lieutenant's life. The action moves from World War One's battle-scarred terrain of France, to Cherbourg, France twenty-two years later, then on to Brussels, Belgium, London, and Hamburg and Berlin in Germany, ending finally in the Schwarzwald, the "Black Forest" area of southern Germany.

Modern Hebrew Ora Schwarzwald,2001 The revival of Hebrew in Israel during the last century is a unique phenomenon: a language used for over 1700 years by Jews around the world solely in liturgy or writing came alive as a spoken, everyday language used for all purposes. Although those spearheading the movement to revive Hebrew tried to impose the norms of classical Hebrew on the rapidly evolving language, they were, in many respects, unsuccessful in this effort. Adapting to the circumstances in which it was used, Modern Hebrew developed independently, reflecting the previous linguistic background of the speakers, foreign influences and natural linguistic evolution. Modern Hebrew has taken its own unique course as revealed through its phonology, morphology, syntax, and lexical structure. This book examines the unique features of this dynamic language.--Book cover.
