Searching for Health Kapil Parakh, Anna Dirksen, 2021-04-20 An insider's guide to searching online, communicating with your physician, and maximizing your health from a doctor who works at Google. We've all been there. Late at night, staring into the glow of a phone trying to make sense of some health-related issue that we know nothing about. In *Searching for Health*, Dr. Kapil Parakh, with Anna Dirksen, brings to life knowledge he gained from working at Google and practicing medicine. Helping readers avoid common pitfalls, get the information they need, and partner effectively with their health team to figure out a path to good health together, the book distills decades of scientific research into a set of easy-to-follow tips. It also incorporates • firsthand accounts of common challenges on the path to good health; • an inside look at how doctors approach and assess health-related information; • techniques that consumers can use to locate evidence-based information online, whether in blogs, social media postings, forums, or news stories; • guidance on how individuals can make the best use of new technologies, such as health trackers and other applications; • recommendations to help patients assess health information for themselves and make decisions based on what they find; • brief summaries of the scientific studies underpinning the recommendations; and • online and offline resources—including handy checklists and worksheets—to help readers prepare for appointments, discuss tough topics with their doctors, and take control of their health. In addition to helping readers find evidence-based information online, the book provides insights into what you can expect from a visit to a doctor or hospital, how to make a decision about surgery or other treatment, what tests doctors will order, which symptom trackers are really effective, and what questions to ask about medications, supplements, and more. *Searching for Health* is a valuable resource for charting a healthier path through life.

It is an important resource for fire fighters riding all apparatus types, company and chief officers, and paid and volunteer fire fighters.

Soul Searching : The Religious and Spiritual Lives of American Teenagers Christian Smith Dr William R Kenan Jr Professor of Sociology University of Notre Dame, Candidate University of North Carolina Melina Lundquist Denton Ph.D, Chapel Hill USA, 2005-01-25 In innumerable discussions and activities dedicated to better understanding and helping teenagers, one aspect of teenage life is curiously overlooked. Very few such efforts pay serious attention to the role of religion and spirituality in the lives of American adolescents. But many teenagers are very involved in religion. Surveys reveal that 35% attend religious services weekly and another 15% attend at least monthly. 60% say that religious faith is important in their lives. 40% report that they pray daily. 25% say that they have been born again. Teenagers feel good about the congregations they belong to. Some say that faith provides them with guidance and resources for knowing how to live well. What is going on in the religious and spiritual lives of American teenagers? What do they actually believe? What religious practices do they engage in? Do they expect to remain loyal

to the faith of their parents? Or are they abandoning traditional religious institutions in search of a new, more authentic spirituality? This book attempts to answer these and related questions as definitively as possible. It reports the findings of The National Study of Youth and Religion, the largest and most detailed such study ever undertaken. The NYSR conducted a nationwide telephone survey of teens and significant caregivers, as well as nearly 300 in-depth face-to-face interviews with a sample of the population that was surveyed. The results show that religion and spirituality are indeed very significant in the lives of many American teenagers. Among many other discoveries, they find that teenagers are far more influenced by the religious beliefs and practices of their parents and caregivers than commonly thought. They refute the conventional wisdom that teens are spiritual but not religious. And they confirm that greater religiosity is significantly associated with more positive adolescent life outcomes. This eagerly-awaited volume not only provides an unprecedented understanding of adolescent religion and spirituality but, because teenagers serve as bellwethers for possible future trends, it affords an important and distinctive window through which to observe and assess the current state and future direction of American religion as a whole.

Web Search: Public Searching of the Web Amanda Spink, Bernard J. Jansen, 2004-07-21 Web Search: Public Searching of the Web, co-authored by Drs. Amanda Spink and Bernard J. Jansen, is one of the first manuscripts that address the human - system interaction of Web searching in a thorough and complete manner. The authors provide an examination of Web searching from multiple levels of analysis, from theoretical overview to detailed study of term usage, and integrate these different levels of analysis into a coherent picture of how people locate information on the Web using search engines. Drawing primarily on their own research and work in the field, the authors present the temporal changes in, the growth of, and the stability of how people interact with Web search engines. Drs. Spink and Jansen present results from an analysis of multiple search engine data sets over a six year period, giving a firsthand account of the emergence of Web searching. They also compare and contrast their findings to the results of other researchers in the field, providing a valuable bibliographic resource. This research is directly relevant to those interested in providing information or services on the Web, along with those who research and study the Web as an information resource. Graduate students, academic and corporate researchers, search engine designers, information architects, and search engine optimizers will find the book of particular benefit.

Searching Skills Toolkit Caroline De Brún, Nicola Pearce-Smith, 2011-09-23 The distinguishing feature of this pocket-sized searching skills book, like all the Toolkit series titles, is its user-friendliness. The guiding principle is that readers do not want to become librarians, but they are faced with practical difficulties when searching for evidence, such as lack of skills, lack of time and information overload. They need to learn simple search skills, and be directed towards the right resources to find the best evidence to support their decision-making. A user-friendly, Hands-On guide to literature searching, which is an essential skill for all involved in health care research and development, researchers, and students from all disciplines.

Searching for Black Confederates Kevin M. Levin, 2019-08-09 More than 150 years after the end of the Civil War, scores of websites, articles, and organizations repeat claims that anywhere between 500 and 100,000 free and enslaved African Americans fought willingly as soldiers in the Confederate army. But as Kevin M. Levin argues in this carefully researched book, such claims would have shocked anyone who served in the army during the war itself. Levin explains that imprecise contemporary accounts, poorly understood primary-source material, and other misrepresentations helped fuel the rise of the black Confederate myth. Moreover, Levin shows that belief in the existence of black Confederate soldiers largely originated in the 1970s, a period that witnessed both a significant shift in how Americans remembered the

Civil War and a rising backlash against African Americans' gains in civil rights and other realms. Levin also investigates the roles that African Americans actually performed in the Confederate army, including personal body servants and forced laborers. He demonstrates that regardless of the dangers these men faced in camp, on the march, and on the battlefield, their legal status remained unchanged. Even long after the guns fell silent, Confederate veterans and other writers remembered these men as former slaves and not as soldiers, an important reminder that how the war is remembered often runs counter to history.

Foraging Theory Applied to Medical Information Searching Mai Dwairy, 2012-10 Workload and other constraints prevent General Practitioners from accessing medical evidence for clinical decisions. This problem was studied in New Zealand GPs using Optimal Foraging Theory developed in ecology. GPs' information search strategies were modelled as sequential steps associated with costs and benefits measured from logbooks of actual searches. By consulting the most profitable sources, switching sources when unsuccessful, and double checking, GPs seem close to an optimal trade-off between maximizing search success and information reliability, and minimizing searching time. Subsidised training in information searching and provision of a literature search service are two inferred avenues to access medical evidence.

Mind Searching Francis B. Nyamnjoh, 2007 In *Mind Searching* Nyamnjoh has attempted to do something rather clever - to expose, through the attitudes, feelings and thoughts of one man and a very simple story, the hypocrisy and corruption of Cameroon society and humanity in general, often using understatement and irony in good effect. The commentary is unremittingly cynical and returns again and again to corruption, callous squandering, exploitation, prostitution, and other fairly worn butts. The book depicts a society where basic freedoms are shackled, and thinking aloud treasonable. Hence the mental ramblings of the narrator and central character Judasious Fanda Yanda, in the form of an extended monologue full of observations, anecdotes and asides written from the point of view of an apparently insouciant naive. The basic method is to foreground the opinions and conversational elegance of the narrator, while having events going on as a background to his thoughts. We trace the narrator's progress from a disenchanted 'Damn de la Terre' to a comfortably well off Private Secretary to a Vice Minister over a number of years. It is a clear illustration of how the system perpetuates its mediocrity and buys off any spark of initiative. Nyamnjoh has a good command of ironic tone and sound control over form and structure. He employs a very fluent style, and often has very urbane and neat turns of phrase. He captures the bored, superior, cynical and ultimately predatory tone of voice of his narrator extremely well.

Searching Jenin Ramzy Baroud, 2003 A searing testament to Israeli brutality and Palestinian resilience, spirit, and grace under pressure. Why is it that the US, Israel, the UN, and every news organisation on earth has expressed their views on the Jenin invasion yet the Palestinian victims have never been allowed to speak? *Searching Jenin* explains what happened and how it affected the residents. It includes forty-two testimonies of Jenin survivors gathered by Palestinian journalists. Preface by Noam Chomsky. Introduction by Palestinian-American journalist Ramzy Baroud. Testimonies by international observers. Timeline of events. List of 'known dead'. 38 photos by Palestinian photographer Mahfouz Abu Turk. Calligraphy by Mamoun Sakkal. One testimony is that of 9-year-old Rund al-Shalabi who complains that the Israeli soldiers smashed her toys. Also, it develops, they shot and killed her father. Another testimony is that of the Red Crescent ambulance driver Ihab Ayadi who tells how Israeli soldiers held him at gun point to prevent him from rescuing gunshot victims until they had a chance to bleed to death. Um Muhammad is a mother who was hiding in her basement with the rest of her family when the Israeli soldiers ordered them out, separated the men and took them away to an unknown location. The soldiers swept through the house, throwing all the belongings out the upper windows as sport. They found the family's life savings in a cloth

bag hidden in the bedroom and stole the money. After eleven days they forced the women to walk to another section where they took shelter in a vacant house. When they returned, the top floor was completely burned out. **SEARCHING JENIN** includes testimony that has never before appeared in the international or even in the Palestinian media.

Searching For Jesus Rev. Abraham Howard Jr.,Abraham Howard,2011-02 **SEARCHING FOR JESUS IS EVERYTHING YOU THOUGHT YOU KNEW ABOUT HIM IS EVERYTHING THAT YOU DON'T KNOW ABOUT HIM AND IS EVERYTHING YOU WILL LEARN ABOUT HIM** This book is not about how Jesus Christ fulfilled scripture prophecies, or how many miracles he performed, or an explanation of his parables. But rather it is about his physical presence throughout the Holy Bible [from Genesis to Revelation], and how he interacted with the people and their life stories. It is designed with intertwining scriptures and commentary to highlight his presence. The proof of this study will be your conclusion of the whole matter. My prayers are with you as you launch out into the deep.Rev. **ABRAHAM HOWARD JR. P.S. THIS BOOK WILL TAKE YOU WHERE ONLY A FEW HAVE VENTURED TO GO.**

Searching for Suzy Graham McGredy-Hunt,2012-01-01 This is a chronology of a private investigation into the disappearance of Suzy Lamplugh, the London Estate Agent. It began on the 28th July 1999 and lasted for four years. The research revealed a direct link between Suzy and John West - the younger brother of Fred West. At first the research was given to the Metropolitan Police who began a new review into the case in 2000. The investigation has opened up a whole new perspective on the Cromwell Street murders and three new victims have been named together with a possible third. After twenty-five years the mystery of Suzy Lamplugh has finally been solved.

Searching for Christianity Norman Thornton,2011-07-04 Taking a multi-purpose and inter-denominational approach, this is a book addressed to all Christians, who in this sceptical age, may be experiencing a religious crisis or doubts as to their commitment to Christ's teaching and Revelation. Whilst this book is written from the basis of conviction, it insists on demonstrating factual evidence. Nothing is presented which is contrary to the reason of the ordinary man or woman in arguing the basis of religious truth. With this in mind, the reader is taken through the Bible, from the book of Genesis onwards, and

answers are offered for many of those difficult questions which usually arouse anxiety in the minds of the faithful from time to time. In addition, the book offers questions and discussion topics at the conclusion of each chapter. This is an ideal handbook which religious teachers and ministers of all denominations will find helpful, written by a fully-qualified scholar holding a doctorate in theological studies.

Searching for Pop Michael R. Brookbank, 2018-08-21 At the age of 43, Thomas Brookbank volunteered to join the army in September 1914 just weeks after the start of the war and when the wounded from the first encounters with the German army at Mons and Le Cateau were arriving back in England. There was nothing special about Tom Brookbank. He was a painter and a decorator by trade, but he was swept along in the surge of patriotism that drove hundreds of thousands of ordinary men and women to respond to the Kitchener's call for the raising of a great volunteer army - an enterprise that most military men of the time, friend and foe alike, regarded as a ludicrous waste of time and money. This much was known by family legend, together with knowledge that he had gone to Italy in November 1917 with the 41st Division in response to the near collapse of the Italian army at Caporetto that he ended the war in Belgium with this Division. Tom Brookbank need not have volunteered at all. He was too old to be fighting a soldier and was well over the age group that Kitchener was calling for, but there was also a need for men in the support services behind the lines - the men of the Army Services Corps - and this is where Tom Brookbank and fellow men like him ended up. Early research showed that he did not start the war with the 41st Division, so, what happened to him, what did he do and where did he go? 'Searching for Pop' is the story of a grandson's search for the answers to what he did and where he went between the time he volunteered and his discharge at the end of the war. It illustrates what might be achieved from a very limited amount of initial knowledge by perseverance and the use of the records available in National Archives.
