India's Middle Class Christiane Brosius,2012-06-12 This book examines the complexities of lifestyles of the upwardly mobile middle classes in India in the context of economic liberalisation in the new millennium, by analysing new social formations and aspirations, modes of consumption and ways of being in contemporary urban India. Rich in ethnographic material, the work is based on empirical case-studies, research material, and illustrations. Offering a model of how urban cosmopolitan India might be studied and understood in a transnational and transcultural context, the book takes the reader through three panoramic landscapes: new 'world-class' real estate advertising, a unique religious leisure site – the Akshardham Cultural Complex, and the world of themed weddings and beauty/wellness, all responses to India's new middle classes' tryst with cosmopolitanism. The work will be of particular interest to scholars and researchers in sociology, South Asian studies, media studies, anthropology and urban studies as also those interested in religion, performance and rituals, diaspora, globalisation and transnational migration.

The Age of Aspiration Dilip Hiro,2015-10-06 Nearly four decades ago, Dilip Hiro's Inside India Today, banned by Indira Gandhi's government, was acclaimed by The Guardian as simply "the best book on India." Now Hiro returns to his native country to chronicle the impact of the dramatic economic liberalization that began in 1991, which ushered India into the era of globalization. Hiro describes how India has been reengineered not only in its economy but also in its politics and cultural mores. Places such as Gurgaon and Noida on the outskirts of Delhi have been transformed from nondescript towns into forests of expensive high-rise residential and commercial properties. Businessmen in Bollywood movies, once portrayed as villains, are now often the heroes. The marginal, right-wing Hindu militants of the past now rule the nominally secular nation, with Prime Minister Narendra Modi as their avatar, one whose electoral victory was funded by big business. Hiro provides a gripping account of the role played by Indians who have settled in the United States and Britain since 1991 in boosting India's GDP. But he also highlights the negatives: the exponential growth in sleaze in the public and private sectors, the impoverishment of farmers, and the rise in urban slums. A masterful panorama, The Age of Aspiration covers the whole social spectrum of Indians at home and abroad.

Architecture and Capitalism Peggy Deamer,2013-07-18 Architecture and Capitalism tells a story of the relationship between the economy and architectural design. Eleven historians each discuss in brand new essays the time period they know best, looking at cultural and economic issues, which in light of current economic crises you will find have dealt with diverse but surprisingly familiar economic issues. Told through case studies, the narrative begins in the mid-nineteenth century and ends with 2011, with introductions by Editor Peggy Deamer to pull the main themes together so that you can see how other architects in different times and in different countries have dealt with similar economic conditions. By focussing on what previous architects experienced, you have the opportunity to avoid repeating the past. With new essays by Pier Vittorio Aureli, Ellen Dunham-Jones, Keller Easterling, Lauren Kogod, Robert Hewison, Joanna Merwood-Salisbury, Robin Schuldenfrei, Deborah Gans, Simon Sadler, Nathan Rich, and Micahel Sorkin.

How to Start a Security Guard Company J. W. Murphey,2017-12-20 At the age of just 19, JW Murphey didn't have access to large amounts of private security industry experience, a bunch of cash, an eBook or the Internet to help him start his security guard company.But, he didn't want to spend years as another cog inside of a large security corporation. Instead of staying employed with a big corporation, he struck out on his own and started his own security agency.Now, in its 4th edition, published by The Security Officer Network, the popular How to Start a Security Guard Company book includes Murphey's creative strategies for building a private security agency with a minimal up-front investment.This isn't another generic how to form a business book. You will easily find a plethora of free resources on the Internet where you can learn business startup basics. This book won't waste your time repeating this information; instead, readers receive immediately actionable advice that's specifically tailored to the private security industry. Written by an author who actually started his own agency, the book details his innovative approaches and strategies; imparts instruction on quantifying the cost of providing security services; gives tips for under bidding and competing against the big security companies; details tricks to minimize overhead and keep costs low and much, much more.Constantly updated and relevant, with the most recent update made in December of 2017, the book includes an array of helpful, must-have resources including a private security business plan and numerous free-to-use forms and templates.

Social Partnerships and Responsible Business M. May Seitanidi,Andrew Crane,2013-12-04 Cross-sector partnerships are widely hailed as a critical means for addressing a wide array of social challenges such as climate change, poverty, education, corruption, and health. Amid all the positive rhetoric of cross-sector partnerships though, critical voices point to the limited success of various initiatives in delivering genuine social change and in providing for real citizen participation. This collection critically examines the motivations for, processes within, and expected and actual outcomes of cross-sector partnerships. In opening up new theoretical, methodological, and practical perspectives on cross-sector social interactions, this book reimagines partnerships in order to explore the potential to contribute to the social good. A multi-disciplinary perspective on partnerships adds serious value to the debate in a range of fields including management, politics, public

management, sociology, development studies, and international relations. Contributors to the volume reflect many of these diverse perspectives, enabling the book to provide an account of partnerships that is theoretically rich and methodologically varied. With critical contributions from leading academics such as Barbara Gray, Ans Kolk, John Selsky, and Sandra Waddock, this book is a comprehensive resource which will increase understanding of this vital issue.

Security Guard Jan Goldberg,1999 Describes the job responsibilities and work environment of security guards. Also includes the necessary training, potential salary, and career possibilities for this profession.

Individual Rights and Government Wrongs Brian Phillips,2012-01-01 From the Tea Parties to Occupy Wall Street, Americans are not happy with their government and they are making their displeasure known. But what is causing this divide? And what is the solution? Individual Rights and Government Wrongs examines two fundamentally different views regarding what type of nation America should be. Using examples from history and the contemporary world, this book looks at what happens when individuals are free and what happens when government intervenes in the lives of citizens. Individual Rights and Government Wrongs challenges both conservatives and progressives. It rejects the notion that government intervention is ever practical or moral, no matter the issue, no matter the general welfare that will allegedly result, no matter the will of the people. If you are concerned about the future of America, Individual Rights and Government Wrongs will give you the intellectual ammunition you need to fight current trends.

The Global Factory Peter J. Buckley,2018 This key new book synthesises Peter Buckley's work on 'the global factory' – the modern networked multinational enterprise. The role of interfirm networks, entrepreneurship and cooperation in the creation and management of global factories leads to a discussion of their governance, internal knowledge transfer strategies and performance, including their role in potentially combating societal failures. Emerging country multinationals are examined as a special case of global factories with a focus on Indian and Chinese multinationals, their involvement in tax havens and offshore financial centres, the performance and processes of their acquisition strategies – all seen as key aspects of globalisation.

India and the Age of Crisis Michael Gillan,Rob Lambert,2016-03-17 Much of the discussion of India in the public sphere has focused on economic policy settings and restructuring, annual growth rates, trade relations and the nation's status as an economic and political actor within the international system. This collection considers other dimensions of socio-economic transformation in India and its profound impact on society and nature. While economic and ecological fragility are now very apparently problems of a 'global' scale they are nevertheless grounded and experienced at the local scale where vulnerable and marginal people located in the urban periphery and in rural areas confront these 'crises' most acutely. The studies in this collection encompass many of the most important social and political concerns of India in this age of crisis, namely, the politics of water resources and land acquisition and use; the interaction between food security, markets, and institutions; the politics and strategies of labour movements; narratives and practices of 'development' and contestation over forms of agrarian production in India; the link between urbanisation and local class, caste and political actors; and the potential for civil society to either be co-opted or to contest neoliberal logics and forms of governance. This book was published as a special issue of the Journal of South Asian Studies.

Neo Delhi and the Politics of Postcolonial Urbanism Rohan Kalyan,2017-04-07 This book is augmented by an interactive website called NEODELHI.NET. During research trips to Delhi and Gurgaon between 2008 and 2015 the author produced a multi-media urban archive that includes full color photos, an essay film, ethnographic videos, field notes and more pertaining to the arguments and ideas presented in this book. The reader is encouraged to actively engage the website along-side this text. This book challenges the prevailing metro-centric view of globalization. Cities are a crucial part of the infrastructure of globalization, yet in the so-called developing world, cities have largely been excluded as structurally irrelevant to the functioning of the global urban economy. Kalyan presents a trans-disciplinary exploration of the manifold possibilities and challenges that confront a 'globalizing' megacity like New Delhi. Combining theoretical scholarship, ethnographic exploration, archival research and textual and visual analysis, the book foregrounds complex urban dynamics in and around the region and raises critical questions about changing urban life for postcolonial cities across the Global South. Kalyan employs methodological approaches from political economy, urban studies and visual culture to render a vivid portrait of changing urban life in India's largest conurbation, The book will be of interest to students and scholars of urban studies, postcolonial studies, and inter-disciplinary studies.

Citizenship in Contemporary Times Gorky Chakraborty,2022-12-23 This book engages with evolving definitions of borders and citizenship in the public discourse in the South Asia region. The traditional understanding of citizenship and belonging in the Indian context has been fraying in recent decades. The book offers an analysis of discussions on India's contested zones, the anxieties around identity and the implications of and reactions to the National Register of Citizens and the Citizenship Amendment Act (CAA) in different regions in the country. It interrogates the concepts of belonging, ownership and dissent through an analysis of the anti-CAA protests, the Namasudra movements, the life of Tibetan refugees in India and the precarious lives of many communities in India who are identified as stateless, refugees, migrants or outsiders. Interdisciplinary and topical, this book will be of interest to students and researchers of sociology, political science, law, refugee studies, borderland studies, migration studies, public policy, social policy and development studies.

Community Radio in South Asia Kanchan K. Malik,Vinod Pavarala,2020-06-09 This book explores the state of community radio, a significant independent media movement that began about two decades ago, in different parts of South Asia. The volume outlines the socioeconomic and historical contexts for understanding the evolution and functioning of community radio in an increasingly globalised media environment. It provides a ring-side view of how various countries in South Asia have formulated policies that enabled the emergence of this third sector of broadcasting (public and private being the other two) through radio, rendering the media ecology in the region more pluralistic and diverse. The chapters in the volume, interspersed by practitioner perspectives, discuss a range of key issues related to community radio:

radio policies, NGOisation of community radio, spectrum management and democratisation of technology, disasters/emergencies, gender issues, sustainability, and conflicts. One of the first of its kind, this volume will appeal to scholars and researchers of community media and independent media studies, cultural studies, as well as sociology and social anthropology, and South Asian studies.

The Indian Police Journal ,1995

Catch Me? No You Can't! Amit Nangia, Raja Tiwari is freshly out of jail, and not for stealing hearts and killing with his looks. Audacious, handsome, and dangerously charming, he is looking for a new job when he meets the suave and beautiful Silky Sinha. To add the cherry on the cake, she takes him home. Why would a hot girl take an ex-convict, a stranger home? Did she want something from him? Did she want him? Wouldn't the story be too simple that way? Enter ex-cop Thakur, unruly and wild. He has a job for Tiwari which would either make him filthy rich, or land him behind bars again. His plan leads to a dramatic verdict, unforeseen consequences, and a web of lies and deception. Tiwari always has an angle to everything, but he would need something more to be a step ahead in this game — assuming his own allies don't end up killing him before the police get the chance… The question is: How far is he willing to go?
