Mouse Shapes Ellen Stoll Walsh, 2017-09-12 Three mice make a variety of things out of different shapes as they hide from a scary cat.

Which One Doesn't Belong? Christopher Danielson, 2019-02-12 Talking math with your child is simple and even entertaining with this better approach to shapes! Written by a celebrated math educator, this innovative inquiry encourages critical thinking and sparks memorable mathematical conversations. Children and their parents answer the same question about each set of four shapes: Which one doesn't belong? There's no one right answer--the important thing is to have a reason why. Kids might describe the shapes as squished, smooshed, dented, or even goofy. But when they justify their thinking, they're talking math! Winner of the Mathical Book Prize for books that inspire children to see math all around them. This is one shape book that will both challenge readers' thinking and encourage them to think outside the box.--Kirkus Reviews, STARRED review

This Is a Book of Shapes Kenneth Kraegel, 2020-09-08 The creator of King Arthur's Very Great Grandson and Green Pants switches gears with a slyly silly introduction to shapes—just watch out for the emus! First comes the circle. Then the square and the triangle. Then the . . . emu pushing a pancake wagon down a hill? What begins as a concept book about everyone's geometric favorites soon defies expectations with a series of funny and imaginative twists. Award-winning author-illustrator Kenneth Kraegel pairs a deadpan text with simple wood-grained shapes, interspersed with vibrant illustrations of animals engaged in hilariously absurd pastimes. Each page turn builds on the delicious anticipation the contrast creates to make this a unique and rollicking story-time hit.

This subject comes from the book "First Grade Math (For Home School or Extra Practice)"; it more thoroughly covers more first grade topics to help your child get a better understanding of first grade math. If you purchased that book, or plan to purchase that book, do not purchase this, as the problems are the same.
