Hutzler's Michael J. Lisicky, 2009-10-30 For 132 years, Hutzler Brothers Company was a beloved part of the Baltimore retail and cultural scene. Charm City natives still recall with nostalgia the distinctive Art Deco design of the Downtown store, the glitter of the fashion shows, the unforgettable Christmas celebrations and the chocolate chiffon pie served in the store's Colonial Restaurant. Local author Michael J. Lisicky pays tribute to Hutzler's as he chronicles the rise of the family-run department store, its growth into Towson and other Maryland cities and its eventual and much lamented passing. Interviews with John Waters, former Hutzlerites and statesmen provide a glimpse into the role that Hutzler's played in the lives of so many Baltimoreans. With his vivid prose and some classic Hutzler's recipes, Lisicky brings to life this lost Baltimore institution.

Gone To The Shops Kelley Graham, 2008-09-30 When Adam Smith wrote in 1776 that England was a nation of shopkeepers, he meant that commerce was a major factor in political decisions. Smith's observation was even more on-target for Victorian England: shopkeepers, shops, and shopping were a vital part of life. Those Victorians with resources could shop often and had many choices. Industrialization and their imperial connections gave them an almost unprecedented array of goods. Even the poor and working classes had more to eat and more to spend as the century progressed. Here, Graham explores the world of Victorian shops and shopping in colorful detail. She offers information on the types of shops and goods they offered, the people who owned and operated them, those who frequented them, and the contribution of shops and shopping to the Victorian lifestyle and economy. Shopping in Victorian England reached a level of importance not wholly appreciated even by Victorians themselves. New types of shops appeared, offering an expanding array of goods inventively packaged and displayed for an expanding group of shoppers. As the shops grew, so did the activity – part excursion for provisions, part entertainment. Women shopped most often, but men, too, had their shops. Victorians could, by the end of the 19th century, shop without even leaving their homes: orders could be placed by mail, telegraph, or telephone. Shops catered to all classes – the rich, the poor, and the in-betweens. This book will help modern readers envision the Victorian shopping experience by taking them inside the shops and up to the counters. Readers will learn how the shop was organized, what services and goods were available, and how goods made their way from the shop to the home. Graham's compelling account provides a vivid glimpse into a vital—but largely unappreciated—aspect of Victorian life.

Back to the Shops Rachel Bowlby, 2022-02-24 What will become of the shops? More than ever, the high street appears to be under mortal threat, its shops boarded up as the sad 'bricks and mortar' survivals of a pre-online retail world. But behind the bleak appearance, there is more to see. Back to the Shops offers a set of short and surprising chapters, each one a window into a different shop type or mode of selling. Old shopping streets are seen from new angles; fast fashion shows up in eighteenth-century edits. Here are pedlars and pop-ups, mail order catalogues and mobile greengrocers' shops. Here too are food markets open till late on a Saturday night, and tiny subscription libraries tucked away at the back of the sweet shop. Over time, shops have occupied radically different places in cultural arguments and in our everyday lives. They are essential sources of daily provisions, but they

are also the visible evidence of consuming excess. They are local community hubs and they are dreamlands of distraction. Shops are inherently spaces of imagination as well as of practicality. They belong with their own surrounding streets and town; they bring back the times and places of our lives. They linger in stories of all kinds, whether far-fetched or round the corner. From butcher to baker and from markets to motor vans—after reading this book, you will want to go back to the shops.

Shops and Houses (Classic Reprint) Frank Swinnerton, 2017-10-11 Excerpt from *Shops and Houses* Out of the High Street are roads of medium-sized houses, rather new, with gravelled paths and lawns and geraniums in front of them. These are inhabited by the second-class people of Beckwith. They are red houses with slate roofs, and the points of the roofs are decorated with little red tiles like cockscombs. The best houses are round the common, including some of the smallest, which contain, in a few cases, only seven or eight rooms but there are one or two at a distance from the common, and Miss Lampe even lives quite near the railway-station, so that She knows altogether by heart what trains are caught by what residents in the town. This Situation is very fortunate for Miss Lampe, who passionately cares for such facts and is dependent upon them for her casual conversation. I Want That! Thomas Hine, 2003-10-14 Shopping has a lot in common with sex. Just about everybody does it. Some people brag about how well they do it. Some keep it a secret. And both provide ample opportunities to make foolish choices. Choosing and using objects is a primal human activity, and *I Want That!* is nothing less than a portrait of humanity as the species that shops. It explores the history of acquisition -- finding, choosing, spending -- from our amber-coveting Neolithic forebears to Renaissance nobles who outfitted themselves for power to twenty-first-century bargain hunters looking for a good buy on eBay. *I Want That!* explores the minds of shoppers in the quest to nourish and feed fantasies, to define individuality, to provide for family, and to satisfy the needs for celebration, power, and choice -- all of which lead us to malls, boutiques, websites, and superstores.

The End of Shops Prof Dr Cor Molenaar,2013-06-28 Shops are facing tough times: recession, local legislation, parking problems, competition from the internet and the strong position of suppliers. Buying on the Internet 24/7 has become a real alternative to the local shop with its rigid opening hours and limited choice. So is there still a future for the traditional retailer? What are the latest developments in this environment and how can these be translated into significant business models? Cor Molenaar analyses the struggle and the risks to describe the opportunities and potential for the retail trade to turn the tide. He looks at the new buying behaviour of consumers (the new shopping), the evolution of retail (how it used to be, how it is now and what it has to become) and shows what the future for the shop will actually look like. Shops need to change, to reassess their unique customer appeal and work in new ways with suppliers and customers if they are to survive. Online retailing is often seen as the panacea, but is that really the case? The internet will undergo many changes, too. Many e-retailers will disappear or end up surviving on the margin of the mainstream. Only the most canny suppliers and webshops, those that can make best use of the opportunities offered by the Internet will survive.

The American Speed Shop Bob McClurg, 2021-02-15 The history of hot rodding and performance cars has been well chronicled through the years. Books and magazines have covered the cars, builders, pioneers, engineers, early racers, muscle cars, street racers, etc. Most take a nostalgic and fun look at the cars that many have loved their entire lives. Some even cover the lifestyle, the hobby as it involves people, and the effort, time, and commitment people put into it. It is more than just a hobby to most, and to many, a certain wave of nostalgia comes over them when remembering what the car scene was like back in the day. The local speed shop is an important element of the nostalgic feeling that people have when fondly remembering their hot rodding youth. Speed shops were not just parts stores, they were a communal gathering place for car guys wanting to talk smart, bench race, and catch up on the local scene, as well as to solicit the expert advice from the owner or staff behind the counter. Here, longtime hot rodder and industry veteran Bob McClurg brings you the story of the era and the culture of speed shops as told through individual shop's histories and compelling vintage photography. He covers the birth of the industry, racing versus hot rodding, mail-order, and advertising wars. You learn about the performance boom of the 1960s and 1970s, lost speed shops as well as survivors, and a overview of the giant mail-order speed shops of today.

The Corner Shop Babita Sharma, 2019-04-18 A BBC RADIO 4 BOOK OF THE WEEK 'Nuanced, human and engaging' Nikesh Shukla, Observer 'Full of life, characters, gossip and all the richness of the local community' Sir David Jason 'A delightful story of growing up above the shop' Nigel Slater, Observer 'Cleverly links her own memories of shop-bound life with the last 50 years of British history' Spectator 'I come from a hidden world: I am the daughter of shopkeepers. I've seen you on a Sunday morning, nipping out to get a pint of milk or to grab a newspaper. I came to know a lot about you; whether your politics leaned to the right or left, whether you were gay or straight, and whether you were plagued by cash-flow problems or had enough disposable income to indulge your penchant for Cadbury's Creme Eggs.' Babita Sharma was raised in a corner shop in Reading, and over the counter watched a changing world, from the clientele to the products to the politics of the day. Along with the skills to mop a floor perfectly and stack a shelf, she gained a unique insight into a shifting landscape - and an institution that, despite the creep of supermarkets, online shopping and delivery, has found a way to evolve and survive - and is now once again keeping us all going. From the general stores of the first half of the 20th century (one of which was run by the father of a certain Margaret Thatcher), to the reimagined corner shops run by immigrants from India, East Africa and Eastern Europe from the 60s to the noughties, the corner shop has shaped the way we shop, the way we eat, and the way we understand ourselves. WINNER OF THE BUSINESS BOOK AWARD FOR AN EXCEPTIONAL BOOK THAT PROMOTES DIVERSITY 'A triumph' Radio Times 'A compelling, full selection box of a story' Sanjeev Kohli 'One of the best books I've read on the immigrant experience in this country' Daily Mail 'I loved it cover to cover' Angela Clutton, author of *The Vinegar Cupboard*
