Simplify Richard Koch,Greg Lockwood,2016-04-07 For the past 40 years Richard Koch has wanted to uncover the simple, elemental, elegant and parsimonious principles that are needed to create great new businesses. To qualify, a principle must be so overwhelmingly powerful that anyone can reliably use it towards extraordinary results. Is there any principle that can tell you how to do that consistently and with a high chance of success? Working with venture capitalist Greg Lockwood, his co-author on SUPERCONNECT, and supported by research from the elite firm of OC&C Strategy Consultants, Koch has the answer. The principle Koch and Lockwood have discovered behind extraordinarily successful businesses is simplifying. Some simplify on price - take Ryanair's budget flights which still take you from A to B, but so cheaply that nearly everyone can afford them, multiplying the size of their market - and some simplify on proposition, such as Apple's decision to cut down on the number of their product lines and focus on perfecting only a few devices. With case studies of famous companies in all different industries from finance to fast food, the authors show how anyone can analyse their business's potential to become a simplifier, and which route they should take to maximise the impact.
