**Addiction by Design** Natasha Dow Schüll, 2014-05-11 Recent decades have seen a dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals. Slot machines, revamped by ever more compelling digital and video technology, have unseated traditional casino games as the gambling industry's revenue mainstay. *Addiction by Design* takes readers into the intriguing world of machine gambling, an increasingly popular and absorbing form of play that blurs the line between human and machine, compulsion and control, risk and reward. Drawing on fifteen years of field research in Las Vegas, anthropologist Natasha Dow Schüll shows how the mechanical rhythm of electronic gambling pulls players into a trancelike state they call the machine zone, in which daily worries, social demands, and even bodily awareness fade away. Once in the zone, gambling addicts play not to win but simply to keep playing, for as long as possible—even at the cost of physical and economic exhaustion. In continuous machine play, gamblers seek to lose themselves while the gambling industry seeks profit. Schüll describes the strategic calculations behind game algorithms and machine ergonomics, casino architecture and ambience management, player tracking and cash access systems—all designed to meet the market's desire for maximum time on device. Her account moves from casino floors into gamblers' everyday lives, from gambling industry conventions and Gamblers Anonymous meetings to regulatory debates over whether addiction to gambling machines stems from the consumer, the product, or the interplay between the two. *Addiction by Design* is a compelling inquiry into the intensifying traffic between people and machines of chance, offering clues to some of the broader anxieties and predicaments of contemporary life. At stake in Schüll's account of the intensifying traffic between people and machines of chance is a blurring of the line between design and experience, profit and loss, control and compulsion.

*Casino Slot Machines Strategy - Learn How Succeed Gambling Under C. O. N. T. R. O. L.*

Johnny Depot,2012-05-17 As a 20+ year casino gambler, I am showing the only system I use to bet slot machines. This slot machine strategy will keep more money in your pocket and that is the goal of gambling. When I visit the casinos, I usually play the table games, but when I decide to play the one armed bandits I make sure I do in the most intelligent way possible. Casino slot machines are everywhere. Let us face the facts, there is no guaranteed ways of winning at the slot machines, but my method will give you the best chance of walking out the door with more money than you started with playing slots. The C.O.N.T.R.O.L. book series will focus on a variety of systems covering a wide range of endeavors. All books follow the same goal of my other books on casino gambling, which is capital preservation. This method of play accomplishes two of the most important aspects of gambling; keeping risk low and preservation of capital. This book is for the gambler who plays the slots machines, also known as the one armed bandits. The Slot Machines players are mostly senior citizens, people new to gambling and persons intimidated by the table games. This book teaches a simple and effective method of trying to keep your Capital while playing slots. This book shows the bettor how to get maximum value for the risk. **Not Just Another Slot Machine Strategy System** Greg Elder, 2012 The bad news is there is no secret system that exists where you can beat the casinos playing slot machines. The good news is there is a system (for some reason people love the word system when it comes to gambling methods, so I'll stick with it), where you can leave the casino with money in your pocket, and not have that empty hollow feeling inside because you just lost more money than you can afford to lose. This is where I come in. With the system I've developed, you can still play slot machines and have a good time, but using these methods, you're more than likely going to come home with some money.
