*SNIPPETS (bits and Pieces of Love and Life)* by CAROLE Carole Christie Moore Adams,2004-09 SNIPPETS (bits and pieces of love and life) by CAROLE, written in short chapters for picking up, reading a bit, and setting down, is one you will enjoy so much that you will be reluctant to set it down. The inspirational story of the love and life of Carole and John, her husband, who both view his Parkinson's Disease as just another facet of daily living, is told in vignettes of themselves and of their families, friends, homes, and animals. The witty, poignant sketches will cause you to laugh, cry, empathize, wonder, think, or feel the Snippet refers to you or someone you know. Her writing style scrambles together those of Erma Bombeck, Andy Rooney, and James Joyce. The book describes the couple's real life experience as their numerous gray hairs, wrinkles and bruises from stress, heartaches, headaches, accidents, diseases, and their working, dancing, playing, and laughing together will attest. Some of Carole's life before meeting John is revealed as she chats about a Perfect Family, Afraid, Running Away, A Single Stitch, Skates, Periwinkle Soup, Psychic, Kidnapping, Long Hair, Hurricanes, Bassoons, Blue Lips, and other topics. People of all ages will find these revelations by Carole Christie Moore Adams fascinating!

**Snippet the Early Riser** Bethanie Murguia,2013-03-12 Snippet is a typical snail. But unlike other snails, he loves to wake up early. While his family is snoozing the morning away, he is wide awake and ready to race to the flowers, make leaf sculptures, and get piggyback rides. With the help of his bug friends, he tries and tries to wake his family up—but nothing works. Until Caterpillar gives him an idea. Celebrating early birds and late snoozers alike, this story will ring true for the many families with little early risers. It's the perfect tale to fall asleep (or wake up!) to.

**Snippet the Early Riser** ,2013-03-12 Snippet, a little snail who likes to get up early in the morning, has trouble waking his sleepy family, in a story that celebrates early birds and late snoozers alike.

Snippets of New Orleans Emma Fick,2017-04-11 FROM THE INTRODUCTION: Snippets are fragments of things. They are people observed, foods consumed, ornaments spotted: a man on a streetcar, crawfish shells on the sidewalk, an ornate cornstalk-shaped fence. I believe that to immerse oneself in a place means to try and hold all its elements, past and present, grandiose and mundane, in a single plane of vision. This is, of course, impossible. The result is fragments, vignettes. In Jackson Square, for example: a vision of the first French settlers coming up the Mississippi alongside the sight of a garishly painted street performer harassing passers-by. If we cannot hold all facets of a place in our mind at once, I think the next best thing is to honor our fragmented understanding, to see in Snippets. I learned and re-learned a lot of things making this book. I learned that even in my home in Louisiana I feel I am an outsider peering into a window. I re-learned how beautiful and bizarre New Orleans is, how every street has a distinct personality. . . . I re-learned that I know very little about anything, and that the more I learn the more I realize how little I know. I learned that asking for entry into people's personal lives is complicated and requires a lot of mental and ethical somersaults. This book is my most earnest and honest reflection of New Orleans: triumphant and tragic, gaudy and gritty, elegant and ugly, rich and poor, a city that embodies all these and other polar opposites with a perverse kind of grace. My account is flawed and incomplete in the way all our experiences are flawed and incomplete: there are always vistas left to see, flavors left to try, stories left to hear; there are assumptions made, words misunderstood, histories distorted. May this book communicate the New Orleans I know, and may you weave your own New Orleans truth between the pages. - Emma Fick

**The World Atlas of Tattoo** Anna Felicity Friedman,James Elkins,2015-01-01 A grand tour of the world's great tattoos--Atlas Obscura This book--part global art historical tome, part coffee-table book of visual wonders--is a valuable corrective to many silly things that we assume about tattooing.--The New Republic A lavishly illustrated global exploration of the vast array of styles and most significant practitioners of tattoo from ancient times to today Tattoo art and practice has seen radical changes in the 21st century, as its popularity has exploded. An expanding number of tattoo artists have been mining the past for lost traditions and innovating with new technology. An enormous diversity of styles, genres, and techniques has emerged, ranging from geometric blackwork to vibrant, painterly styles, and from hand-tattooed works to machine-produced designs. With over 700 stunning color illustrations, this volume considers historical and contemporary tattoo practices in Europe, the Americas, the Middle East, North and Sub-Saharan Africa, Asia, Australia, and the Pacific Islands. Each section, dedicated to a specific geographic region, features fascinating text by tattoo experts that explores the history and traditions native to that area as well as current styles and trends. The World Atlas of Tattoo also tracks the movement of styles from their indigenous settings to diasporic communities, where they have often been transformed into creative, multicultural, hybrid designs. The work of 100 notable artists from around the globe is showcased in this definitive reference on a widespread and intriguing art practice.

Pega Snippets: Using External Tables Debunkum Beaver,2021-02-01 Introduction to Pega Snippets: Using External Tables Pega stores its data in the database via concrete classes, which are automatically mapped to a database table. This database table typically includes a BLOB column. Sometimes you might be provided with data from an existing database table, and instead of porting all the data into Pega concrete classes with the BLOB column, you might simply want to create a class that points to it, without changing its original table structure. This Using External Tables Snippets explores this mapping as well as other usages. Pega Snippets' content is designed to evolve over time, therefore its content will be enhanced and will get richer over time. Why Create a Pega Snippets? The main reason is that writing a REAL book takes a lot of time and effort! I have acquired a lot of knowledge and samples over the years, and if I were to share it via the traditional book publishing mechanism, it would take a long time to share all of those! Therefore, a better way would be to share it via the Snippets Series, which is a collection of task-

specific steps, with screenshots, to demonstrate how to do specific tasks in Pega. The focus of Snippets is on performing specific tasks in Pega, not on the 'why', other alternatives, or providing explanation of the potential problems that one might encounter. It also does not go into detailed explanation or discussion on the task/topic. In short, the focus is on accomplishing the task. Snippets are distributed as eBooks, which not only provides the ability to share knowledge in a timely manner, it also enables constant update of the knowledge.

**Street Snippets** Mark Miller,2021-05-26 Streets Snippets started in 2016 as a project for my son's 8th grade English class in New York City. The original concept was to give the kids a snippet of conversation heard on the streets of the city, and have each student write an original story based upon that snippet. After my son graduated from middle school, the platform wasn't used for several years. It seemed logical to reopen the platform as an extension of the online curriculum development being created as an educational alternative during the COVID pandemic in 2020. When I first approached John Bapst High School in Bangor, Maine about using the Street Snippets platform for their 2020-2021 creative writing class, little did I know the diversity of ideas and formats that would come from this talented group of high schoolers. The first indication was when a request came through to submit a poem instead of a story. Sure, I thought, that would be fun. That was soon followed by requests for publishing songs, cartoon strips and images. The formats went far beyond the basic short story. What you will find in this book are the stories and projects created by the authors at John Bapst. We have kept the stories as written, laying them out as closely as possible to the format created by the authors. The stories in the book are arranged by snippet, with each story beginning with the snippet for that month. As you read through each chapter, you will find a diverse set of ideas, each original, each personal, that takes the snippet as its opening line and then has the story run its course. Each of the stories can be found in its original form on the Street Snippets site. If you like a particular story, you can leave a comment for the author when you visit the site. As the publisher of Street Snippets, I couldn't be prouder of the authors from John Bapst. I look forward to working with next year's students as we continue to encourage and promote the work of the next generation of authors.
