### **Hong Kong Culture and Society in the New Millennium**

Yiu-Wai Chu, 2017-03-15 This book discusses the notion of “Hong Kong as Method” as it relates to the rise of China in the context of Asianization. It explores new Hong Kong imaginaries with regard to the complex relationship between the local, the national and the global. The major theoretical thrust of the book is to address the reconfiguration of Hong Kong’s culture and society in an age of global modernity from the standpoints of different disciplines, exploring the possibilities of approaching Hong Kong as a method. Through critical inquiries into different fields related to Hong Kong’s culture and society, including gender, resistance and minorities, various perspectives on the country’s culture and society can be re-assessed. New directions and guidelines related to Hong Kong are also presented, offering a unique resource for researchers and students in the fields of cultural studies, media studies, postcolonial studies, globalization and Asian studies.

Remote Workforce Training: Effective Technologies and Strategies Hai-Jew, Shalin, 2014-02-28 Lifelong learning can occur both in and out of the classroom, but the most valuable instruction takes place on the job. Remote Workforce Training: Effective Technologies and Strategies investigates methods, techniques, and systems used in employee training programs. The tools and technologies surveyed within these pages will help employers take their workers beyond the transient skill sets offered by university degrees and into a constant state of learning and practice that will enhance both their productivity and technical abilities on a regular basis. In particular, the knowledge offered by this reference book will be of use to educators and students as well as managers, leaders, administrators, and personnel.

**Learning Bodies** Julia Coffey, Shelley Budgeon, Helen Cahill, 2016-02-03 'Learning Bodies' addresses the lack of attention paid to the body in youth and childhood studies. Whilst a significant range of work on this area has explored gender, class, race and ethnicity, and sexualities – all of which have bodily dimensions – the body is generally studied indirectly, rather than being the central focus. This collection of papers brings together a scholarly range of international, interdisciplinary work on youth, with a specific focus on the body. The authors engage with conceptual, empirical and pedagogical approaches which counteract perspectives that view young people's bodies primarily as 'problems' to be managed, or as sites of risk or deviance. The authors demonstrate that a focus on the body allows us to explore a range of additional dimensions in seeking to understand the experiences of young people. The research is situated across a range of sites in Australia, North America, Britain, Canada, Asia and Africa, drawing on a range of disciplines including sociology, education and cultural studies in the process. This collection aims to demonstrate – theoretically, empirically and pedagogically – the implications that emerge from a reframed approach to understanding children and youth by focusing on the body and embodiment.

*Wild Bread* MaryJane Butters, 2018-05-15 The owner of the historic Barron Flour Mill completely reinvents the concept of healthier-for-you, naturally fermented sourdough. Until now, sourdough was perceived as too much work and sour-tasting, artisan-style-only loaves. In *Wild Bread*, MaryJane Butters' quick and easy 1-minute 2x/day technique demonstrates the use of eight different types of flours for each bread featured—everything from gluten-free brown-rice flour to quinoa to common white to heirloom whole wheat—for a whopping 295 recipes and 475 photographs. Using her step-by-step method, every style of bread

imaginable, including gluten-free, will loft with wild abandon without the purchase of a single packet of not-so-healthy, store-bought yeast. In nutritionally superior wild-yeast bread, fermentation triggers the release of vital nutrients and breaks down carbohydrates. In MaryJane's world, there's no such thing as too much bread because once you convert to slow-rise wild-bread making, that bagel you've been thinking about is more like a vitamin pill than a source of "carb-loaded" guilt. Lessons gleaned from MaryJane Butters' diverse pioneering background, from carpenter to dairy owner to former wilderness ranger turned organic farmer, led her eventually to stewardship of the 4-story, historic Barron Flour Mill. It was only natural that her years spent living on remote Forest Service fire-watch towers with only a living, breathing sourdough "mother" for companionship would lead her to write a pioneering wild-yeast bread book. Death Masks Ed Greenwood, 2016-06-07 The creator of the Forgotten Realms leads readers through a rollicking fantasy adventure and murder mystery set in the city of Waterdeep. Revealed in death to have been Masked Lords, three more citizens had been murdered over the preceding day and night: the Sembian wine-seller and collector Oszbur Malankar; the half-elf sorceress and artisan Dathanscza Meiril; and the moneylender, landlord, and investor Ammasker Gwelt. All of Waterdeep now knew someone was killing the Lords of Waterdeep, one by one. Yet that was about where truth ended and speculation—however plausible—began. The broadsheets were full of wild conjecture.

Actual studies are presented in detail in various chapters dealing with inspections, testing, object-oriented techniques, and component-based software engineering.
